**Survival: December 2023- January 2024** The International Institute for Strategic Studies (IISS), 2023-12-08 Survival, the IISS's bimonthly journal, challenges conventional wisdom and brings fresh, often controversial, perspectives on strategic issues of the moment. In this issue: Lawrence Freedman assesses Russia's nuclear red line and how Vladimir Putin's views compare to those of Russian pundits Steven Simon and Jonathan Stevenson explore the roots of Hamas's attack on Israel on 7 October, and the options available to the United States for restraining the Israeli government Charlie Laderman assesses the similarities between December 1941 - when Germany and Japan, determining it to be inevitable, declared war on the US - and the ongoing geopolitical crises governments face today Sara Bjerg Moller reflects on NATO allies' failure to deliver on national collective-defence targets as the Alliance approaches its 75th anniversary Lynn Kuok explores China's reshaping of international law to achieve its strategic goals, and other countries' failure to do so And seven more thought-provoking pieces, as well as our regular Book Reviews and Noteworthy column. **The War in Ukraine** Egle Elena Murauskaite, 2024-07-22 Since 2014 the conflict in Ukraine has escalated from an internal crisis into an ongoing full scale conventional war. The extensive public documentation and commentary on these unfolding events present an opportunity for empirical research yet untainted by hindsight perspectives. Drawing on an extensive regional network of local stakeholders and experts, this book combines theoretical insights with practical reflections on the efficacy of a selected range of tools employed by the West to assist Ukraine, such as the provision of military assistance, troop training, intelligence sharing, information campaigns, early crisis signaling by aircraft carrier deployments, and coalition building efforts. Bridging the gap in open-source studies between academic research and practitioner assessments, the authors discuss how these specific measures correspond with theoretical assessments of the effects they are due to produce, as well as with the expectations about their performance held by the deploying policy makers and their audience. As the war continues to unfold, and the reality on the ground, as well as emerging new data, mean a constantly shifting landscape, this volume will be a valuable resource for anyone interested in the conflict in Ukraine.

La guerra de Ucrania III Guillem Colom Piella,2024-01-22 Casi dos años han pasado desde que Rusia invadió Ucrania. La conocida como “operación militar especial”, iniciada el 24 de febrero de 2022, ha desencadenado un conflicto que parece todavía lejos de poder resolverse definitivamente. Esta tercera entrega trata de continuar el análisis de la contienda iniciado en los dos volúmenes previos, cubriendo el periodo que va desde la reconquista de la ciudad de Jersón por parte de las fuerzas ucranianas a los cambios en la estrategia rusa consecuencia de los anteriores. Un antes y un después que ha permitido, movilización humana e industrial mediante, llevar la guerra a una nueva fase de estancamiento y aumentar los costes para los aliados de Ucrania. También devolver el pulso a un Ejército ruso que ha sufrido enormes bajas, pero que ha demostrado una notable capacidad de adaptación. Además de analizar su comportamiento, esta obra trata también diversos aspectos, como la guerra en el dominio cibernético, en el marítimo o en el cognitivo, así como el papel fundamental que una organización como Wagner Group ha tenido en varias de sus fases. Por último, como no podía ser de otra forma, se dedica un importante espacio al papel y evolución de los sistemas aéreos no tripulados, elementos clave cuya multiplicación ayuda a explicar en buena medida el devenir de esta guerra.

*Ottoman Explorations of the Nile* Robert Dankoff,Nuran Tezcan,Michael D. Sheridan,2018-02-15 Before the time of Napoleon, the most ambitious effort to explore and map the Nile was undertaken by the Ottomans, as attested by two monumental documents: an elaborate map, with 475 rubrics, and a lengthy travel account. Both were achieved at about the same time—c. 1685—and both by the same man. Evliya Çelebi’s account of his Nile journeys, in the tenth volume of his *Book of Travels* (*Seyahatname*), has been known to the scholarly world since 1938, when that volume was first published. The map, held in the Vatican Library, has been studied since at least 1949. Numerous new critical editions of both the map and the text have been published over the years, each expounding upon the last in an attempt to reach a definitive version. The *Ottoman Explorations of the Nile* provides a more accurate translation of the original travel account. Furthermore, the maps themselves are reproduced in greater detail and vivid color, and there are more cross-references to the text than in any previous edition. This volume gives equal weight and attention to the two parts that make up this extraordinary historical document, allowing readers to study the map or the text independently, while also using each to elucidate and accentuate the details of the other.
