Spirited Away Lena Gregory, 2019-05-21 In the new Bay Island Psychic Mystery, psychic Cass Donovan is thrown into the middle of a macabre murder she never saw coming . . . With the summer tourist season on Bay Island in full swing, shop owner Cass Donovan barely has a minute to breathe, and things at Mystical Musings become even more hectic when a fight breaks out at one of her psychic readings. Shaken by the fracas and discouraged that her sixth sense seems to be on the blink, Cass is even more dispirited to learn that one of the men involved in the altercation was later found dead—and that a close friend of hers is the main suspect. Desperate to help her friend prove his innocence and consumed by haunting visions, Cass follows the clues from one possible culprit to the next, including some very mysterious tourists and not a few questionable locals. And when the police turn to Cass to help them find out who committed the ghoulish deed, she knows she'll have to tread carefully, because her next grim premonition may be her last . . . Praise for the Bay Island Psychic Mystery series: "The future shows much success for this series! Fun, vibrant characters (as well as a sexy smolder or two for good measure) give the novel just the right tone." —RT Book Reviews on *Death at First Sight* "I loved the protagonist, Cass. She and her friends were very well developed, and felt like a group of people I'd like to get to know." —The Book's the Thing "I stayed up far too late into the evening because I couldn't put it down. A well-crafted mystery with a quirky cast of characters, and plenty of twists and turns to keep you guessing to the end." —The Mysterious Ink Spot on *Death at First Sight*

LITERACY and LEARNING THROUGH TALK Roy Corden,2000-07-16 This book focuses on the inter-relationship between reading, writing and speaking and listening. Psychologists and educationalists, influenced by the work of Vygotsky, have emphasised the importance of social interaction in learning, and the National Writing, Oracy and LINC Projects highlighted the need for quality interactive pupil discourse and effective teacher-pupil interaction. However, although the DfEE claims that the successful teaching of literacy is characterised by good quality oral work, speaking and listening is not included in the National Literacy Strategy Framework and the Literacy Training Pack does not address the issue. Literacy and Learning through Talk blends theory, research and practice to show how an integrated programme of work can be developed to ensure that literacy is taught in a vibrant and stimulating way. Strategies for developing successful group work and whole class, interactive discourse are examined and effective teaching roles and questioning techniques are explored. Transcripts of group discussions and examples of children's work illustrate various points and work plans and practical classroom activities are described.

The Beast's Chosen Wolf Bride Jenny J. Hill, 2025-02-10 For over a century, an unbroken pact has bound the human town to the mysterious, fearsome beasts that reign over the land—each generation, a bride is chosen to quell their hunger and sustain the fragile peace. This year, the beasts demand a bride once more. Nevaeh, the eldest daughter of the family bound by duty, has been selected to fulfill the ominous tradition. But while Nevaeh steels herself for a fate shrouded in shadows, her younger sister, Paisley, dreams of a life of love and light, engaged to the man who holds her heart. On the eve of Nevaeh's collection, chaos strikes—Nevaeh vanishes, fleeing her destiny. Left with no choice, Paisley is thrust into her sister's place, her dreams shattered as she is offered to the beast. But as Paisley steps into the unknown, she discovers that the beast is not what she expected—and neither is the truth behind the pact. In the darkness of the beast's lair, secrets simmer, and an unbidden spark of passion ignites. Will Paisley uncover the truth before it consumes her? Or will she surrender to a love as dangerous as it is irresistible?

The Darwin Economy Robert H. Frank, 2012-09-16 What Charles Darwin can teach us about building a fairer society Who was the greater economist—Adam Smith or Charles Darwin? The question seems absurd. Darwin, after all, was a naturalist, not an economist. But Robert Frank, New York Times economics columnist and best-selling author of *The Economic Naturalist*, predicts that within the next century Darwin will unseat Smith as the intellectual founder of economics. The reason, Frank argues, is that Darwin's understanding of competition describes economic reality far more accurately than Smith's. And the consequences of this fact are profound. Indeed, the failure to recognize that we live in Darwin's world rather than Smith's is putting us all at risk by preventing us from seeing that competition alone will not solve our problems. Smith's theory of the invisible hand, which says that competition channels self-interest for the common good, is probably the most widely cited argument today in favor of unbridled competition—and against regulation, taxation, and even government itself. But what if Smith's idea was almost an exception to the general rule of competition? That's what Frank argues, resting his case on Darwin's insight that individual and group interests often diverge sharply. Far from creating a perfect world,

economic competition often leads to arms races, encouraging behaviors that not only cause enormous harm to the group but also provide no lasting advantages for individuals, since any gains tend to be relative and mutually offsetting. The good news is that we have the ability to tame the Darwin economy. The best solution is not to prohibit harmful behaviors but to tax them. By doing so, we could make the economic pie larger, eliminate government debt, and provide better public services, all without requiring painful sacrifices from anyone. That's a bold claim, Frank concedes, but it follows directly from logic and evidence that most people already accept. In a new afterword, Frank further explores how the themes of inequality and competition are driving today's public debate on how much government we need.

Disquiet, Please! David Remnick, Henry Finder, 2010-03-09 The New Yorker is, of course, a bastion of superb essays, influential investigative journalism, and insightful arts criticism. But for eighty years it's also been a hoot. Now an uproarious sampling of its funny writings can be found in this collection, by turns satirical and witty, misanthropic and menacing. From the 1920s onward—but with a special focus on the latest generation—here are the humorists who have set the pace and stirred the pot, pulled the leg and pinched the behind of America. The comic lineup includes Christopher Buckley, Ian Frazier, Veronica Geng, Garrison Keillor, Steve Martin, Susan Orlean, Simon Rich, David Sedaris, Calvin Trillin, and many others. If laughter is the best medicine, *Disquiet, Please!* is truly a wonder drug.

Corporeal Legacies in the US South Christopher Lloyd, 2018-08-22 This book examines the ways in which the histories of racial violence, from slavery onwards, are manifest in representations of the body in twenty-first-century culture set in the US South. Christopher Lloyd focuses on corporeality in literature and film to detail the workings of cultural memory in the present. Drawing on the fields of Southern Studies, Memory Studies and Black Studies, the book also engages psychoanalysis, Animal Studies and posthumanism to revitalize questions of the racialized body. Lloyd traces corporeal legacies in the US South through novels by Jesmyn Ward, Kathryn Stockett and others, alongside film and television such as *Beasts of the Southern Wild* and *The Walking Dead*. In all, the book explores the ways in which bodies in contemporary southern culture bear the traces of racial regulation and injury.
