**Sheryl Hamilton**

**Skinfolk: A Memoir** Matthew Pratt Guterl, 2023-03-28 A haunting, poignant story of growing up in a mixed-race family in 1970s New Jersey, in the tradition of *The Color of Water*. Race is made, not born. It can materialize with a thunderous suddenness. It can happen to you in moments that will be cauterized into memory as if into flesh. Could a picturesque white house with a picket fence save the world? What if it was filled with children drawn together from around the globe? And what if, within the yard, the lines of kin and skin, of family and race, were deliberately knotted and twisted? In 1970, a wild-eyed dreamer, Bob Guterl, believed it could. Bob was determined to solve, in one stroke, the problems of overpopulation and racism. The charming, larger-than-life lawyer and his brilliant wife, Sheryl, a former homecoming queen, launched a radical experiment to raise their two biological sons alongside four children adopted from Korea, Vietnam, and the South Bronx—the so-called war zones of the American century. They moved to rural New Jersey with dreams of creating what Bob described as a new Noah's ark, filled with "two of every race." While the venture made for a great photograph, with the proverbial "casseroles and potato chips out for everyone," the Brady Brunch façade began to crack once reality seeped into the yard, adding undue complexity to the ordinary drama of a big family. Neighbors began to stare. Vacations went wrong. Joy and laughter commingled with discomfort and alienation. Familial bonds inevitably buckled. In the end, this picture-perfect family was no longer, and memories of the idyllic undertaking were marred by tragedy. In lyrical yet wrenching prose, Matthew Pratt Guterl, one of the children, narrates a family saga of astonishing originality, in which even the best intentions would prove woefully inadequate. He takes us inside the clapboard house where Bob and Sheryl raised their makeshift brood in a nation riven then as now by virulent racism and xenophobia. Chronicling both the humor and pathos of this experiment, he "opens a door to our dreams of what the idea of family might make possible." In the tradition of James McBride's *The Color of Water*, *Skinfolk* exposes the joys and constraints of love, blood, and belonging, and the persistent river of racial violence in America, past and present.

**Impersonations** Sheryl Hamilton, 2013-06-17 Personhood is considered at once a sign of legal-political status and of socio-cultural agency, synonymous with the rational individual, subject, or citizen. Yet, in an era of life-extending technologies, genetic engineering, corporate social responsibility, and smart technology, the definition of the person is neither benign nor uncontested. Boundaries that previously worked to secure our place in the social order are blurring as

never before. What does it mean, then, to be a person in the twenty-first century? In *Impersonations*, Sheryl N. Hamilton uses five different kinds of persons - corporations, women, clones, computers, and celebrities - to discuss the instability of the concept of personhood and to examine some of the ways in which broader social anxieties are expressed in these case studies. She suggests that our investment in personhood is greater now than it has been for years, and that our ongoing struggle to define the term is evident in law and popular culture. Using a cultural studies of law approach, the author examines important issues such as whether the person is a gender-neutral concept based on individual rights, the relationship between personhood and the body, and whether persons can be property. *Impersonations* is a highly original study that brings together legal, philosophical, and cultural expressions of personhood to enliven current debates about our place in the world.
