Produits en acier pour construction Office technique pour l'utilisation de l'acier (France),2007

Caractéristiques comparées des profilés en acier Syndicat national du profilage des produits plats en acier (France),1976

Profilés en acier formés à froid Office technique pour l'utilisation de l'acier (France),Syndicat national du profilage des produits plats en acier (France),1989

Tableaux de résistance des profilés en acier Alain Bureau,Yvan Galéa,Patrick Le Chaffotec,2009 Avec la collection Guides eurocodes , le CSTB offre aux professionnels du bâtiment des outils pratiques relatifs aux méthodes de conception et de calcul figurant dans les normes Eurocodes. L'objectif de cette collection, dirigée par le CSTB, est de proposer de manière synthétique de nombreux points de conception-calcul pouvant présenter des difficultés d'application pratique, du fait de leur nouveauté ou de leur relative complexité. Pour tous les guides de la collection, avec ou sans recours aux calculs automatisés, les auteurs exposent de manière pédagogique et concise le déroulement des phases de calcul traitées, en citant systématiquement l'article, ou les articles, concerné(s) de l'eurocode. Cette méthode a pour but essentiel d'éclairer le projeteur sur l'objectif et les choix essentiels en phase calcul, en délestant l'approche de tout ce qui pourrait présenter des difficultés d'interprétation. Le parti pris est de permettre, outre le recours éventuel à des logiciels ou des feuilles de calcul, la possibilité d'un calcul manuel utilisant des tableaux ou abaques. Dans certains cas, libre choix est ainsi laissé au calculateur de recourir à la méthode qu'il juge la plus adaptée au cas particulier à traiter et aux moyens dont il dispose. Ce guide, élaboré par le CTICM s'inscrit dans ce programme général. Il permet l'estimation rapide de la capacité résistante d'un

élément de structure en acier, notamment dans la phase de prédimensionnement. Les outils et méthodes de calcul proposés permettent de respecter les principes de dimensionnement figurant dans l'EN1993-1-1 (Eurocode 3 partie 1-1).

Les profilés minces en acier Syndicat national du profilage des produits plats en acier (France).,2007 De A à Z, l'état de l'art des profilés minces en acier dans la construction : les termes employés, la définition des principaux produits, les contraintes de la technique, les grandes démarches entreprises dans le cadre réglementaire, sous la forme ludique d'un abécédaire. Celui-ci est complété par un historique et une chronologie des textes et documents qui fondent aujourd'hui les grands principes de fabrication et de mise en œuvre des profilés minces en acier.
