**Stop Cancer with Phytotherapy** Benjamin Lau MD PhD, Esther Lau MS RD, 2014-09-09 STOP CANCER with PHYTOTHERAPY introduces a bolder look at cancer focusing on the curative power of the phytochemicals in plant-based whole foods. Cancer is predominately due to our lifestyle habits the way we eat, and the way we live. This book will empower you to simply change what you eat, and how you live. STOP CANCER with PHYTOTHERAPY describes our simple three-step nutrition program and healthy lifestyle choices, plus over 100 recipes using ingredients packed with potent phytonutrients to prevent and reverse cancer. Our own research and that of other scientists reveal that phytonutrients in plant-based whole foods deliver enormous capabilities to selectively destroy cancer cells while nourishing the healthy cells. Phytotherapy can be your most effective medicine: Phytotherapy is immunotherapy, fortifying your immune function to destroy cancer. Phytotherapy is chemotherapy, selectively toxic to cancer cells, non-toxic to normal cells. Phytotherapy is surgery, without the use of a scalpel. Regardless of your treatment choices, a change in your diet and lifestyle is indispensable to stop cancer once and for all. STOP CANCER with PHYTOTHERAPY offers you hope; and provides you the know-how for living a cancer-free life.

**You Can Say No to Chemo** Laura Bond, 2015-01-01 Remember: It's Your Body and You Do Have Choices Beginning in 2011, journalist and health coach Laura Bond and her mother Gemma visited 60 of the world's foremost cancer specialists and healers who are getting remarkable results in treating cancer without radiation or chemotherapy. This book shares the most exciting discoveries they made in their travels. You'll read about everything from hydrogen peroxide therapies and juiced cannabis to high-dose vitamin C, coffee enemas (The Gerson Method), eliminating sugar from the diet, drinking green vegetable juices, and infrared saunas. Quick to point out that every cancer and every body is different, Bond does not offer a

one-size-fits-all approach but throw the doors open wide to thinking about your treatment options—and even about cancer itself—in a whole new light. This book points the way toward making informed choices, based on information, not fear. Whether you are exploring treatment options, looking to build your body's own resources to heal and restore itself, hoping to find ways to supplement conventional care, or all of the above, look no further. This is the book you need.

**My Cancer Survival Saga** Jen Kimberley,2016-10-18 Author Jen Kimberley was building a life for herself in Denver, Colorado after the death of her husband from lung cancer when she was accidentally diagnosed with leukemia. In *My Cancer Survival Saga*, she shares her personal story. Her narrative covers mistakes she made, things she learned the hard way, and people who helped her. It describes her first encounters with alternative cancer treatments such as IPT and hyperthermia; her changes in diet and lifestyle that removed toxins and increased oxygen levels; and the weight loss and weakness known as cachexia and coming out of it alive and strong despite conventional predictions. In sidebars, she offers helpful and educational information for readers who want to know more about treatment options other than chemotherapy, radiation, and surgery; and she teaches how best to work towards a cure rather than just remission. Along with one of Jen's entertaining poems, *My Cancer Survival Saga* also offers five sections on energy work to start clearing, validating, and protecting your own space. These include specific tools anyone can learn to use that remove stress and increase personal confidence.
