*Non-Knowledge Risk and Bank-Company Management* Vincenzo Formisano, 2016-01-26 In the current economic scenario, the intangible assets contribute significantly to the construction of the competitive positioning of a company. It follows that this intangible information must be appropriately considered in the internal rating system (IRSs). Currently key aspects of business risk and operational risk such as potential for growth, competitive capabilities, core competencies, role in the supply chain of membership, and governance are being considered as secondary in this system. Intangible factors such as the milieu of the company and the environment in which it operates, are not being appropriately considered. In this book, Vincenzo Formisano proposes new guidelines aimed to set desirable IRSs in which the weight of intangible assets is appropriately and properly valued. He addresses practical rules for achieving a rating system capable of understanding and enhancing the intangible assets of a company and for the assessment of creditworthiness. The first part of the book focuses on existing practices; the second part exposes a general model for the classification and interpretation of intangibles. The third part provides practical guidelines designed to configure desirable rating models in which the weight of intangible assets is correctly considered. This book offers theoretical and practical insights and an easy-to-read approach which provides a valuable source of information for teachers and students in Finance. It is also a useful reference point for the Banking, Accounting and Finance managerial communities.

**Handbook of Research on Consumerism in Business and Marketing: Concepts and Practices** Kaufmann, Hans-Ruediger,Panni, Mohammad Fateh Ali Khan,2014-03-31 The modern era of business has prompted an increased focus on the consumer and the responsibility of corporations to consider their ethical and social obligations to their customers. The rise of the consumerist movement has encouraged further research and development on the topic of consumerism, enabling business to succeed in a consumer-driven market. Handbook of Research on Consumerism in Business and Marketing: Concepts and Practices features research on diverse topics on consumerism in the global marketplace, focusing on the ways in which businesses can improve their relationships with customers as well as analyze and influence purchasing behavior. As a comprehensive reference source on topics pertaining to consumer management, identity, and behavior, this publication is intended for use by marketing professionals, business managers, students, and academicians.

**Analysing, Planning and Valuing Private Firms** Federico Beltrame,Alex Sclip,2023-08-22 Corporate finance plays a vital role in every business as it pertains to an array of financing and investment decisions. Where most corporate finance books provide tools for public companies, this book presents new approaches and methods for planning and valuing private firms. Chapters discuss how typical valuation methods may not be perfectly adaptable to private firms and their investment decisions: in particular showing how the widely used Capital Asset Pricing Model cannot be precisely applied for the estimation of cost of equity for private companies, and the limitations of market multiples which may not match individual company features. The book suggests new ways of financial forecasting that can be better tailored to private businesses, such as by exploiting the concept of financial breakeven based on debt serviceability that departs from the more traditionally used concept of the revenue-cost breakeven. Topics including financial planning, working capital management, the cost of capital, and valuation methods are all covered. This book will be of interest to consultants, analysts and accountants working in private firms, as well as academics and students who are interested in an empirical assessment of the role of corporate finance in private businesses versus larger public companies.

**Business Strategies and Competitiveness in Times of Crisis** Laura Gavinelli,2016-07-13 This book focuses on the relationship between business strategy and competition among Italian SMEs in the aftermath of the economic crisis. First examining business strategy and competitive advantage in a broader sense, Business Strategies and Competitiveness in Times of Crisis goes on to analyse the strategic behaviour of SMEs and the key factors that allow them to overcome the challenges they face. The book covers wide-ranging topics such as marketing and communication strategies, internationalization process and entry modes, access to credit, networking, innovation process and human resources

enhancement. Referring to insightful case studies and surveys conducted between 2011 and 2014, it reflects on managerial implications for Italian SMEs and identifies their three main competitive challenges.

Handbook of Research on Management of Cultural Products: E-Relationship Marketing and Accessibility Perspectives

Aiello, Lucia, 2014-01-31 An integrated approach to investigate, create, and propose a model for the value creation of cultural products is essential in maintaining its connection with e-relationship marketing; this examination is important in recognizing a common perspective. The Handbook of Research on Management of Cultural Products: E-Relationship Marketing and Accessibility Perspectives examines the potential value of cultural products and how the support of new technologies can enable non-conventional and social-media marketing relationships. This book aims to highlight an emerging subject area in the field of financial management, management of value creation, and marketing that will be essential for scientists, researchers, and practitioners.

Strategia aziendale: tempi, azioni, risorse Alberto Bubbio, Andrea Gueli Alletti, Luca Agostini, Dario Gulino, 2015-06-11

È possibile gestire un'azienda senza avere una strategia? È questa una domanda che un numero crescente di studiosi di management si è posta. La risposta sembrerebbe essere no. Questo poiché già la decisione di avviare un'impresa è strategia. Si può poi avere una strategia non esplicita. Può essere esplicita, ma non chiara. Si può avere una strategia esplicita ma non condivisa. Si può elaborare una strategia flessibile, che si adatta ai mutamenti di ambiente esterno. In tutte queste situazioni una strategia c'è. Ma la strategia è il frutto di un complesso processo circolare che si caratterizza per tre momenti. Solo uno di questi è rappresentato dalla formulazione della strategia. Ed è proprio questo il tema affrontato e approfondito dal libro. Alla base vi è la convinzione che è molto difficile gestire un'azienda senza avere definito ed esplicitato una strategia; così come vi è la convinzione che uno strumento come il controllo di gestione possa diventare addirittura pericoloso se non è legato alla strategia. La strategia è come un viaggio per affrontare il quale è fondamentale aver fissato una meta, per poter poi scegliere di conseguenza tempi, mezzi e risorse. L'analisi degli autori si svolge descrivendo gli strumenti utili alla formulazione della strategia (come ad esempio la Road Map) e presentando quelli che sono ritenuti i principali contributi alla base della letteratura classica sull'argomento: I. Ansoff, K. Andrews e la Harvard Business School (M. Porter e R. Kaplan), H. Mintzberg, R. Normann e, nell'affollata Scuola di Economia Aziendale Italiana, V. Coda. STRUTTURA Make strategy: i tre momenti di riflessione strategica La Road Map: premessa per un efficace processo di formulazione della strategia Formulazione della strategia: la versione di Kaplan Formulazione della strategia: la versione di Porter Formulazione della strategia: la proposta di J. Brian Quinn e H. Mintzberg Formulazione della strategia: un percorso storico attraverso diverse

scuole di pensiero Formulazione di una strategia: alcuni aspetti da non sottovalutare
