The Gods of Eden William Bramley,1989

Gods of Eden William Bramley,1993-03-01 They Came To Earth Millions Of Years Ago To Spread The Poison Of Hatred, War And Catastrophe... They Are With Us Still... Human history is a seemingly endless succession of bloody conflicts and devastating turmoil. Yet, inexplicably, in the light of astonishing intellectual and technological advancement, Man's progress has been halted in one crucial area: he still indulges the primitive beast within and makes war upon his neighbors. As a result of seven years of intense research, William Bramley has uncovered the sinister thread that links humanity's darkest events - from the wars of the ancient pharaohs to the assassination of JFK. In this remarkable, shocking and absolutely compelling work, Bramley presents disturbing evidence of an alien presence on Earth -- extraterrestrial visitors who have conspired to dominate Humankind through violence and chaos since the beginning of time...a conspiracy which continues to this very day.

Mysteries Explored Jack Barranger,Paul Tice,2000 An overall investigation into human origins, religion, mythology, UFOs, and other unexplained phenomena. Begins by covering the most ancient mysteries about mankind and proceeds up to modern times, exploring the evidence, and ending with where we currently are from a religious and spiritual standpoint. A fascinating look at the development of mankind, with the possibility that we have experienced some form of outside intervention in remote times. In some ways, this intervention may still be with us today.

Life on the Cutting Edge Sal Rachele, 2019-10-18 Are you tired of the same old stuff (S.O.S)? Have you heard enough about the “New Age”? Do you long for something fresh and exciting? Then perhaps this book is for you. It’s not about the same old tired reality that’s been talked about for decades. It’s not a sugar-coated, love and light routine. And it’s not another “feel-good” manual or “how to succeed without really trying” rehash. It’s not psycho babble, quick fix therapy, preaching or lamenting a cause. This book takes a no-nonsense look at what is really happening — behind the scenes, above the scenes and beyond the scenes. It addresses the issues you and I are facing right now and will be facing for a long time to come. It uses the past only as a springboard for stepping into the unknown, into the big picture. It exposes the lies, coverups, deceit, control and manipulation that have kept the people of Earth locked into rigid systems of dogma and despair. But it also offers real solutions that are timely, and yet, timeless. It gives you ideas that can help you put the pieces of the cosmic jigsaw together. And practical advice that can stimulate your creative juices. Get out your surfboard and ride the cutting edge!

How Did God Do It? Walt Huber,Rose Huber,2013-12 Have you ever wondered... How Did God Do It? How did God perform the many miracles and supernatural events described in the Holy Bible — without violating the laws of physics and chemistry that He Himself put into place? And without conflicting with the basic tenets of Judaism and Christianity? This book proposes a theory that marries faith and rationality in a symphony of science and scripture.

We've Never Been Alone Paul Von Ward,2011-09-01 Whether you call them gods, angels, ETs, or aliens, sufficient proof now exists that beings more advanced than humans have influenced our history. Evidence suggests that these outsiders shaped our religions, genes, technology, and cultures. In fact, they may have provided the impetus for modern civilization. Paul Von Ward investigates why modern science and religion refuse to address the possibility that humans interact with Advanced Beings (ABs). He reviews sacred texts, myths and legends--from the Old Testament, Hebrew texts, and the Vedas, to the Greek myths, Sumerian tablets, and other historical sources to make the link between religions, their gods, and alien intervention. He shows how this history of AB intervention has been suppressed and challenges readers to reexamine the origins of notions like “divine revelation” to find common ground among the world’s cultures and religions. Previously published as *God, Genes, and Consciousness*.

The Robots' Rebellion - The Story of Spiritual Renaissance David Icke, 1999-08-26 David Icke's strongest book to date, The Robots' Rebellion reveals the alarming extent to which people of all nations are programmed by the ideas fed to them by those in power. We live in a world which is increasingly dominated by technology but, according to Icke, it is we who are the robots. Fearlessly, he tears down the veils of hypocrisy, built up for generations by the corrupt forces of Church, State, science and commerce — and reveals the true pathos of the human condition beneath. He points, too, to the frightening influence wielded throughout the planet by a merciless and manipulative network of secret societies. The existence of long-established links between Earth-bound humanity and beings from other dimensions and planets in the Universe has been suppressed for years, says Icke, by the world's power-broking hierarchy. When ordinary people learn the real role they have to play within a rich and varied cosmic society, rebellion against those who have kept this extraordinary truth from them will, he predicts, be inevitable. The author is no stranger to controversy. Formerly best-known as a TV sports commentator and leading spokesman for the British Green Party, he is gaining increasing authority as a tireless campaigner for truth. His widely-publicised spiritual transformation has given him the courage to speak out fearlessly against lies and deceit. Hidebound politicians, bankers, economists, educationalists, scientists and the leaders of the world's established religions are not going to welcome Icke's challenging book. But it is not intended for those who wield and abuse power. This book is for the world's unwilling robots who, says Icke, in an upbeat conclusion, have it within themselves to rise up — and take control of their own exciting destiny. Black Sun Nicholas Goodrick-Clarke, 2003-07 The Unpredictable Constitution brings together a distinguished group of

U.S. Supreme Court Justices and U.S. Court of Appeals Judges, who are some of our most prominent legal scholars, to discuss an array of topics on civil liberties. In thoughtful and incisive essays, the authors draw on decades of experience to examine such wide-ranging issues as how legal error should be handled, the death penalty, reasonable doubt, racism in American and South African courts, women and the constitution, and government benefits. Contributors: Richard S. Arnold, Martha Craig Daughtry, Harry T. Edwards, Ruth Bader Ginsburg, Betty B. Fletcher, A. Leon Higginbotham, Jr., Lord Irvine of Lairg, Jon O. Newman, Sandra Day O'Connor, Richard A. Posner, Stephen Reinhardt, and Patricia M. Wald.

Ultimate Deceit of the Human Race Ezzrath Baht Shem, 2001-02 Ultimate Deceit of the Human Race exposes truth about religion's divisive, vengeful, and jealous God dogma focusing primarily on Christianity, Judaism, and Islam. She presents new thought and reasoning to replace destructive belief patterns in hopes of establishing love, compassion, and unity among all human beings irregardless of race, religion, nationality or sex.

Space Travelers and the Genesis of the Human Form Joan D'Arc, 2000 Can Darwinian evolution actually prove that we are alone in the Universe? This book illustrates that Darwinian evolution is not an empirically predictable or testable scientific paradigm. Also shows that ancient artifacts on Mars and the Moon are evidence of Game Wardens in our own solar system. Could the Earth be a controlled DNA repository for the ongoing creation and dissemination of life forms, including humans? The author puts forth compelling evidence in this well researched work.

Extraterrestrial Legacies of God, Jesus, and the Angels Raphael-Seraphin Kutota Basisa, 2024-01-03 About the Book In some way or form, this book is unassumingly a nicer and a more logical organization and interpretation of compounding existing religious writings from a variety of walks of life. Herein, they are presented as proof drawn synthetically from those multitude of intellectual sources written over the last 4,000 years evidencing that the central figure of the persona translated as the reincarnation of almighty God of Israel himself in Christian literature is simply another Extraterrestrial Alien visiting Planet Earth for a purpose. Another visitor just like those well-known Anunnaki, the Elohim, the Nephilim, the Sons of God, the Watchers, the renegade Angels or other entities over several millennia ago. And, in the many ways how it is related to the current humanity's most pressing problem of whether we are alone and unique in the Cosmos as it is linked to the much-witnessed UFO encounters phenomenon. It also well outlined the latent consequences resulting from what is presented as postulate. About the Author Raphael-Seraphin Kutota Basisa currently resides in Lynn, Massachusetts. He would consider himself a futurist, a researcher, a world's concerned citizen, and a great human being. He is a chemical engineer by training and earned an MBA and an ABD in Applied Management and Public Policy. He has written and published several technical and non-technical documents, commentaries, articles, papers, and other books along the subjects of his expertise. He believes in extraterrestrial life in regard to religion. Basisa is a person whose research helped to recognize early on the theory that we are all descendants of Extraterrestrials and Cosmic religiosity should be recognized in modern theology.

Wandering Stars Frederick Guttman, The magnifying glass on the UFO case with historical records. What happened in Roswell? Did the UFO issue have anything to do with the Kennedy assassination? What happened in the Bermuda Triangle? Are there secret bases for the study of Flying Saucers? Is there archaeological evidence of the extraterrestrial presence in prehistory? Has there been contact with other civilizations in the cosmos? Have beings from space intervened in the course of our history? Do governments hide information? Do aliens have any plans for Earth? Wandering Stars is an interesting work that recalls the history of flying saucers throughout our known history and encompasses topics such as: prehistoric visits by astronauts, UFO appearances in the Bible, cases of sightings of strange lights and devices down the ages, then the Adolf Hitler thing and alien flying discs, also the secrets of governments, underground bases, reversed alien technology and contact with other civilizations. Finally, he talks about the secret space projects and galactic battles behind the NASA missions.

"It Ain't Necessarily So" Book Two Bob Maddison, 2013-11-12 A review of global conspiracy against mankind, from religion, science, education, wars, government, medicines to global warming. Now is the time to uncover and discover some of the many issues and causes of human misery and despair. Also covered is the origin of religions foisted upon man, and how and why this is done.
