Jazz Piano Fundamentals (Book 3: Modal and Modern) Jeremy Siskind, 2024-02-07 Jazz Piano Fundamentals (Book 3) is master-teacher Jeremy Siskind's welcoming, clear, and detailed guide to modal and modern jazz piano study. Jazz Piano Fundamentals (Book 3) guides intermediate jazz students through the jazz piano world of artists like McCoy Tyner, Bill Evans, Chick Corea, Herbie Hancock, Brad Mehldau, Keith Jarrett, Geri Allen, Mulgrew Miller, and others by providing clear, thoughtful, and progressive lessons, improvisation exercises, rote exercises, written exercises, listening guides, transcription

projects, and practice plans. Every unit includes frequently asked questions and exclusive video content to ensure that all subjects are presented clearly and with sufficient depth. Subjects include modal patterns, So What voicings, quartal voicings, cluster voicings, pentatonic voicings, upper structures, triad pairs, pentatonic improvising, modes of the major scale, modes of the melodic minor scale, planing, sidesteps, tonicizations, playing “out,” free improvisation, odd meters, and more. In the six guided transcription projects, students are coached through completing their own transcriptions of solos by Miles Davis, Wayne Shorter, Kenny Kirkland, Chick Corea, Herbie Hancock, and Brad Mehldau. Then, they are shown how to assimilate elements of these masters’ styles into their own improvisations.

Tantalizing Tingles Ross Laird, 1995-04-30 For the first time, all data for recordings of non-classical piano made for issue on disc and cylinder records prior to 1935 are brought together in this work. The majority of the listing consists of material which has never been published in any form. The volume includes piano solos, duets, trios, and quartets, as well as selected titles where a soloist is featured within a recording by a dance band or orchestra. It covers a wide variety of pianists and piano styles including ragtime, stride, novelty-syncopated, boogie, and blues. This work will be of interest to major libraries, archives, and schools of music, as well as researchers and collectors. The recordings covered in this work range from the earliest known piano recordings which were made in 1889 as cylinder records for the North American Phonograph Company through recordings of the early 1930s by some of the great jazz pianists of that era (Mary Lou Williams, Garland Wilson, Herman Chittison, Art Tatum, and Teddy Wilson). In between are a wide variety of pianists and piano styles from around the world. While many of the solos recorded were of popular tunes of the day, there is also a fascinating selection of piano compositions, often played by the composer. They include such well-known names as Felix Arndt, Nacio Herb Brown, Hoagy Carmichael, Rudolf Friml, George Gershwin, John W. Green, Ferdie Grofe, Ralph Rainger, Leslie Stuart, Clarence Williams, and Vincent Youmans. A comprehensive title index includes composer credits for the majority of titles listed.

John Williams Tim Greiving, 2025-08-01 The first biography of a great American composer of the cinema age John Williams is one of the most important film composers of all time, having almost singlehandedly revived the Hollywood symphonic scoring tradition and helped restore the livelihood of American orchestras through the popularity of film music programming. His film music, in the words of director Oliver Stone, came to stand for the American culture. In John Williams:

A Composer's Life, the first biography of the composer, author Tim Greiving offers an engaging account of a man whose body of work is well-known but whose personal life has consistently remained very private. Williams wrote the memorable scores and hummable themes for a staggering number of popular touchstones across multiple generations--among them Star Wars, Indiana Jones, Jaws, E.T., Jurassic Park, Schindler's List, and the Harry Potter series--and earned more Oscar nominations than any individual artist in the history of the motion picture Academy. He also composed dozens of concerti, fanfares, and other concert works and was a national presence as music director of the Boston Pops for more than a decade. He inspired countless children to pursue a career in the orchestra and won the respect of the classical community worldwide. Seeking to understand what drove Williams's musical productivity and its effects on the lives of those close to him, Greiving delves deeply into the composer's decades-long career, uncovering countless new stories and revelations. Throughout, he analyzes and describes Williams' film scores, recalling them primarily in narrative and emotional terms rather than purely musicological ones, and in doing so emphasizes one of Williams's principle strengths: his musical storytelling. With unprecedented interview access to Williams and those close to him, Greiving presents the definitive portrait of a beloved but famously private doyen of twentieth-century pop culture. Featuring 175 exclusive interviews--including with Steven Spielberg, Oliver Stone, George Miller, Mia Farrow, Hans Zimmer, Yo-Yo Ma, session musicians, family members, and friends--John Williams: A Composer's Life is the first and last word on the great court composer of the cinema age, the musical conductor of our collective memory.
