Roadmap to Success: Inspiring Journeys of Ten Iconic Coptic Leaders Dr. Shahira Abdel Shahid, 2016-05-26 Dr. Shahira Abdel Shahid focused on Copts, or Christian Egyptians, to draw attention to their achievements and contributions to the Egyptian society, and to the world at large. She conducted in-depth interviews with ten iconic Coptic leaders, including an investment banker, a fashion designer, a Coptologist, an emeritus professor of medicine, a renowned priest, and others. Women are equally represented to emphasize the important role played by women in society. The interviews covered various topics such as the interviewees mission, their values, their role models, the impact their Coptic faith had on their success, their definition of leadership, the challenges they have met, the lessons they have learned, their daily schedules, their future projects, and the impact they want to leave on the world. The book will motivate any person facing difficulties or challenges, living in Egypt or in another country, to be positive, proactive, have faith, take action to change his or her circumstances, and fulfill his or her mission. If you're facing any type of challenge, you'll be inspired by the message of hope in Roadmap to Success. De Gruyter Handbook of Poverty, Disadvantage and Entrepreneurship Michael H. Morris, Susana C. Santos, 2024-12-16 Is entrepreneurship a pathway out of poverty? Does creating a business represent a means for improving one's life circumstances? Surprisingly little is known about ventures started by those in circumstances of poverty. This pioneering handbook integrates diverse perspectives from around the world regarding the poverty and entrepreneurship interface. While the tendency among many scholars, economic developers, and policymakers is to downplay these ventures, arguing they are largely inefficient, marginal enterprises that create little innovation and few jobs, the chapters in this handbook demonstrate their significant contributions, and encourage societies to invest in their development. The authors explore a range of factors affecting the ability of the poor to create enterprises that contribute to their well-being, including the role played by personal capabilities, education, family support and faith, availability of microfinance, technology, supportive

community ecosystems and a munificent institutional environment. By shedding light on issues that can help nations realize the potential of these ventures, this volume demonstrates how entrepreneurship can serve as a source of empowerment, while providing direction regarding ways to surmount the obstacles that stand in the way.

Cultural Policy Diane St-Pierre, Monica Gattinger, 2021-03-30 How do Canadian provincial and territorial governments intervene in the cultural and artistic lives of their citizens? What changes and influences shaped the origin of these policies and their implementation? On what foundations were policies based, and on what foundations are they based today? How have governments defined the concepts of culture and of cultural policy over time? What are the objectives and outcomes of their policies, and what instruments do they use to pursue them? Answers to these questions are multiple and complex, partly as a result of the unique historical context of each province and territory, and partly because of the various objectives of successive governments, and the values and identities of their citizens. *Cultural Policy: Origins, Evolution, and Implementation in Canada's Provinces and Territories* offers a comprehensive history of subnational cultural policies, including the institutionalization and instrumentalization of culture by provincial and territorial governments; government cultural objectives and outcomes; the role of departments, Crown corporations, other government organizations, and major public institutions in the cultural domain; and the development, dissemination, and impact of subnational cultural policy interventions. Diversity and Inclusion in Latin American and Caribbean Workplaces Carlos Tasso Eira de Aquino, Ronald R.

Rojas, 2020-03-31 This book explores the workplace experiences, opportunities, and challenges that emerge from the nuances of diversity and inclusion dynamics in Latin American and Caribbean countries. While the first part of the book addresses emerging frameworks on diversity and inclusion in Latin America by examining the effects of history, traditions, and cultural differences, the second part offers case studies of country-specific actualities. The authors highlight that despite the many shared cultural aspects of the region, it is not homogeneous and there are significant differences from place to place. It follows then that a variety of cultural differences implies a variety of approaches to workplace values, and more specifically, to the understanding of diversity and inclusion. Examining topics such as gender identity, disability, and racial gaps in countries throughout the region, this book offers scholars a fresh perspective on an emerging region.

Multiple Perspectives on Learner Interaction William J. Crawford, 2021-09-07 In the field of Second Language Studies, shared datasets provide a valuable contribution to second language research as many variables are held constant (e.g.,

participants, tasks, research context) thus allowing for an evaluation of theoretical and/or methodological perspectives that may not otherwise be comparable. This edited volume includes a wide range of studies using a common dataset (the Corpus of Collaborative Oral Tasks). The corpus includes 820 spoken tasks (268,927 words) carried out by dyads of L2 English speakers (primarily Chinese and Arabic learners). Studies included in the book are categorized into three main traditions: learner corpus research, Task-Based Language Teaching, and assessment. Because the corpus contains text and sound files, both lexico-grammatical and phonological analyses are included. Intended for researchers in the field of Second Language Studies with an interest in oral interaction research, this book provides a collection of methodological, pedagogical, and assessment studies using a common dataset.
