China's Generation Gap Jiaming Sun, Dongmei Cheng, 2018-01-12 Based on data collected for the Generation Gap Survey in Shanghai and updated to take into account contemporary trends, this book uses an empirical approach to study the generation gap in China. It covers various aspects of life from professional and family life to political participation and belief systems, analysing and comparing the values held by four different generations. Encompassing more than 2000 case studies and drawing on a wealth of fieldwork interviews, in particular it examines the experiences, thoughts and perceptions of adolescents, young adults, the middle-aged, and the elderly. As the largest sociological survey ever conducted regarding attitudes and value changes by different age groups in Shanghai, it highlights how social change and globalization have impacted on new generations, and the results indicate the dramatic difference and supersession of social ideologies between the generations. A unique piece of research, shedding light on a changing Chinese society, China's Generation Gap will be of huge value to students and scholars of Chinese culture and society, Chinese social policy, globalisation and cultural studies.

China In Life's Foreground Audrey G. Donnithorne, 2019-03-29 Audrey Donnithorne was born in Sichuan province, China, of British missionary parents. She is an economist and writer who has held academic posts at University College London and at the Australian National University, working mainly on the economy of China. In her long life she has been a sharp-eyed observer of a changing Asian and Western world: of China in the era of the war lords, the Guomindang and the war against Japan; of Mao and the post-Maoist resurgence; of Britain at War and in the last days of Empire; of Singapore and Malaya soon after the War and Indonesia in the early days of independence; and of decolonisation. She observed the Cold War from several angles and has also been an active Catholic laywoman in the Culture Wars of the 20th century in Britain and Australia, and in helping the beleaguered Catholics in China. This is her memoir.

Antiquarianism and Intellectual Life in Europe and China, 1500-1800 Peter N. Miller, Francois Louis, 2012-06-13 This book is a project in comparative history, but along two distinct axes, one historical and the other historiographical. Its purpose is to constructively juxtapose the early modern European and Chinese approaches to historical study that have been called antiquarian. As an exercise in historical recovery, the essays in this volume amass new information about the range of

antiquarian-type scholarship on the past, on nature, and on peoples undertaken at either end of the Eurasian landmass between 1500 and 1800. As a historiographical project, the book challenges the received---and often very much under conceptualized---use of the term antiquarian in both European and Chinese contexts. Readers will not only learn more about the range of European and Chinese scholarship on the past---and especially the material past---but they will also be able to integrate some of the historiographical observations and corrections into new ways of conceiving of the history of historical scholarship in Europe since the Renaissance, and to reflect on the impact of these European terms on Chinese approaches to the Chinese past. This comparison is a two-way street, with the European tradition clarified by knowledge of Chinese practices, and Chinese approaches better understood when placed alongside the European ones.

Reading Christian Scriptures in China Chloe Starr, 2008-04-02 This volume sets out to examine how Christian scriptures have been read within a Chinese reading tradition, and to assess what questions such readings pose for both theologians and Chinese studies specialists. The absence to date of publications on the topic, and the scattered nature of such research and of scholars in the field makes this an important contribution to debate. The volume gathers essays from Biblical studies experts together with theologians and Chinese text scholars to discuss the interdisciplinary questions raised. Essays from mainland, Taiwanese and diasporic Chinese scholars ensure that a range of opinions (including those reflecting fault lines between 'academic' and 'confessional' positions) are presented. Within the four sections of the volume, several papers discuss and correct the current lineage of historical readings, while others study the historical impact of the Bible in Chinese society. Four essays give contextual or cross-cultural readings, with a focus on individual exegetes, mainly from the early twentieth century. The power of performance is raised in two essays, one comparative paper on Christian and Buddhist scriptures from the Qing dynasty and one on the singing of psalms in modern day Taiwan and Macao. Moral questions preoccupy others, including the challenges that early Chinese converts found in Biblical laws or Christian guidance on concubinage, and extrinsic readings of the Sermon on the Mount.

The Healthy Socialist Life in Maoist China, 1949-1980 Renée Krusche, 2022-10-25 This book observes the growing importance of individual well-being for collective health in socialist China and the limitations this brought on the authorities. Engaging with contemporary popular media discourse—including handbooks and magazine articles on health and health practices—to demonstrate how biomedical knowledge was ingrained in the readership, this book uncovers the detailed path to health propagated by state media for the Chinese population. This authority-sanctioned discussion opened up a space for talking about a body entwined with production and the personal experience of daily life. Nutrition, exercise, and rest were the main fields in which the party- state encouraged and accommodated healthy behavior to foster a strong population in the wake of the building of the New China. These three case studies highlight the network of social groups, institutions, and experts involved in the production and implementation of health knowledge as well as the continuity of health discourse

itself. Through a thorough exploration of these three pillars of health and the emerging debate on civilization diseases, this book unearths the often-ignored limits of state control over human bodies.

Inner Worlds: Individuals and Interiority in Chinese Religious Life Benjamin Brose, James A. Benn, 2025-07-18 How do the inner convictions of individuals clash and sometimes cohere with the ideologies of their times? This volume investigates the interior lives of Chinese religious practitioners from the tenth century to the present to explore their dreams, visions, and personal struggles. The reader will encounter an eminent Buddhist master's Confucian dreams, a Qing court lama's visions of China, and a modern Chan master's memories of his own awakening. The contributors draw on a vast array of sources—poetry, dream records, confessions, instructional talks, and previously unpublished archival documents—to offer a new perspective on the interplay between personal belief and political ideology, between the otherworldly and the mundane. Contributors are: James A. Benn, Ester Bianchi, Raoul Birnbaum, Benjamin Brose, Daniela Campo, Wen-shing Chou, Vincent Goossaert, Ji Zhe, Paul R. Katz, Beverley McGuire, Gray Tuttle, and Wang Jia.

Some Aspects of Chinese Life and Thought North China Union Language School, 1918

The Plant Life of China Geoffrey P. Chapman, Yin-Zheng Wang, 2013-06-29 Chinese plant life is estimated to include up to 30,000 species and extends from the Himalayan snow line across a diversity of habitats to the lush tropical south. It is embraced by a culture going back more than 3000 years, providing plants for medicinal use and some of the most valued horticultural species. Although for many years access to Chinese plants was limited, the present situation provides an opportunity for a new and authoritative assessment of such botanical treasure-houses as Yunnan and Sichuan. The present book provides an overview of the subject and is fully referenced and indexed. It will be of interest to those working in agriculture, alternative medicine, plant conservation, ecology, genetics, horticulture, molecular biology and taxonomy.

Sexual Life in Ancient China en India Gulik, 2023-07-24

Sexual Life in Ancient China R.H. van Gulik, 2021-10-01 In 1961 Robert van Gulik published his pioneering overview of Sexual Life in Ancient China. This edition of the work is preceded by an elaborate introduction by Paul Rakita Goldin assessing the value of Van Gulik's volume, the subject itself, and its author. The introduction is followed by an extensive and up-to-date bibliography on the subject, which guides the modern reader in the literature on the field which appeared after the publication of Van Gulik's volume. One of the criticisms in 1961 regarded the Latin translations of passages deemed too explicit by Van Gulik. In this 2002 edition all Latin has for the first time been translated into unambiguous English, thus making the full text widely available to an academic audience.

Bernard Shaw's Bridges to Chinese Culture Kay Li,2016-11-10 This book explores the cultural bridges connecting George Bernard Shaw and his contemporaries, such as Charles Dickens and Arthur Miller, to China. Analyzing readings, adaptations, and connections of Shaw in China through the lens of Chinese culture, Li details the negotiations between the focused and culturally specific standpoints of eastern and western culture while also investigating the simultaneously diffused, multi-focal, and comprehensive perspectives that create strategic moments that favor cross-cultural readings. With sources ranging from Shaw's connections with his contemporaries in China to contemporary Chinese films and interpretations of Shaw in the digital space, Li relates the global impact of not only what Chinese lenses can reveal about Shaw's world, but how intercultural and interdisciplinary readings can shed new light on familiar and obscure works alike.

Power Quotes Danai Krokou,2018-01-03 Would you fancy an intellectual vitamin mix that inspires and motivates you to greatness? Much has changed in the past decades. Genuine wisdom, though, has not. My aim through this book is to offer you the best bits of the best minds. I believe there is a quote for every situation or challenge life throws at us. Throughout human history, great leaders have used the power of words to transform our emotions, engage us in their causes, and shape the course of History. The quotes featured in this book are not your typical quotes. Thousands were evaluated and arranged by subject based on their relevance, originality, motivational power and depth of meaning. You will notice that certain quotes are a call to action while others an opportunity for contemplation. The book is divided into three main sections. Each section is introduced by personal theories on life, business and leadership. Theories I live and swear by. Power Quotes has been a great source of inspiration for me and helped change and shape my personal and professional life for the better. It is my hope that this book will have a similar impact on your life.
