She Is Not Your Rehab Matt Brown, 2021-07-02 At My Fathers Barbers, Mataio (Matt) Faafetai Malietoa Brown offers men a haircut with a difference: a safe space to be seen and heard without judgement. From his barbershop chair, Matt has inspired a new generation of New Zealand men to break free from the cycle of abuse — and those men have in turn inspired him and his wife, Sarah, to create the global anti-violence movement, She Is Not Your Rehab. In this raw and unflinching book Matt shares his own story and those of his clients, of surviving family violence and abuse, and how they were able to find healing and turn their lives around. He introduces the people and concepts that have helped him heal, and gives readers the tools they need to begin their own journeys. She Is Not Your Rehab demonstrates the power of vulnerability and honesty in addressing pain and shame, and shows how anyone can empower themselves by taking responsibility for their own healing.

**Navigating Special Education Relationships** Amanda Ly, Lori Boll, 2024-04-01 Told through a series of real-life stories and hard-learned lessons, Amanda Ly and Lori Boll share the challenges in special education relationships experienced through the lens of a special educator, a parent of a son with profound disabilities, and a child psychologist. Ideally, teachers, therapists, and parents working with students with special needs should form a cohesive team. However, these three parties often function as separate entities with different goals and objectives. Over the past 25 years, the authors have observed a consistent pattern of miscommunication and overlooking the importance of the mental and physical well-being of each team member, which contributed to poor collaboration. This book takes readers on a journey through the process of discovering whether you have, or are working with, a student with special needs; navigating how to best work with the student and other members of the team; and lastly, discussing ways to empower the reader and all members of the team. The authors posit that

if we understand one another's perspectives, learn how to communicate more effectively, and focus on self-care, we will increase Collective Efficacy and become the collaborative team our students need us to be. As the first book to connect the concept of Collective Efficacy to special education, this is a must-read for teachers, therapists, and parents aiming to grasp the complexities of relationships in special education teams and better understand how mental health influences the effectiveness of each individual's role.
