*The Ownership Wars: Who Owns You?* Joe Dixon, 2018-02-07 The world is ruled by the rich elite, the 1%, the Ownership Class. How do these people manage to make the 99% do their bidding? That is the greatest magic trick of all. The German philosopher Hegel gave the best explanation. When the 99% submit to the 1%, it's a reflection of what Hegel called the master-slave dialectic. Hegel imagined the occasion of the first encounter of two self-conscious beings. Given the savagery of Nature, he imagined they would engage in a struggle to the death. However, it would not play out all the way to the end ... one would submit to the other. The one who surrendered would become the slave of the other, who would be the master. The poor love being ruled by the rich. They believe the rich are on their side. They couldn't be more wrong. The only side the rich are on is their own. That's the First Law of the Human Race.

*The Poet & The Painter* Eziikiill Grey, Izenhaera Gold, 2014-09-09 This is a story of Mind meeting Body, of Pleasure witnessing Pain, and of Theory discovering Action, for what seems to be the first time. This is a story of Body meeting Mind, of Pain witnessing Pleasure, and of Action discovering Theory, for what seems to be the first time. This is a realization of unity through self-discovery. This simply is, now, and always.

I Am God (And so Are You, My Friend) Danny Rongo, 2018-11-11 I Am God (and So Are You, My Friend): A Common Man's Guide to Oneness is a book that presents itself at an extremely urgent time for our race (the human race). As the walls of separation, hatred, and divisiveness become more apparent with each passing day, it becomes obvious that traditional methods for peace have not worked. Oneness is the state of being completely united with one and all. It is our inherent nature that our society has grown away from due to many things, but mainly our ego. The only way back to living in peace is through the unity that oneness represents. This book explains how our society got to this boiling point of separation through our own collective consciousness (yes, our world is in this shape from our own doing). And the only way to reverse that current collective consciousness is through oneness. This book not only proves how we are connected at our very core but it also gives examples of how understanding oneness changes your life immediately, which in turn effects our world collectively.

**The Game We Live** Franklyn Godtz, 2023-04-11 What is your purpose? Why are you here? What is this game of life about? Is this just another rabbit hole exploring the world of mysticism, esotericism, and spiritualism? Experience Noah's

journey to the absolute. Franklyn Godtz guides his brother through a world of questions and in the end, finding the key to life. This magical journey may teach you something about the game you live and empower you. Once you learn the process and you are able to answer the questions, what is your purpose? and why are you here? You will recognize the game we live.

Buddha the Bachatero Franko, 2014-11-26 Buddha the Bachatero: The Eastern Wisdom of Latin Rhythm is a spiritual self-help book that infuses the timeless treasures and teachings of Eastern philosophy along with the culture and creativity of Bachata, the musical genre and dance that originated in the Dominican Republic. This book renews and reinvents the quality and consciousness of the modern man through a vision branded "Buddha the Bachatero." Buddha the Bachatero is the embodiment of the Easter engine illuminated by Latin limbs, lyrics and love. By combining the silence and stillness of a Buddha and the sensuality and sazón of a Bachatero – synthesizing awareness and artistry, presence and poetry, eternal energy and emotions – we can profoundly penetrate the most pressing social, economical and artistic challenges that we face today in our relationships, businesses and daily lives.

The Good Atheist Dan Barker, 2011-01-25 How does an atheist respond to the question, What is the purpose of life? Barker helps you understand and appreciate why freely choosing to help and cooperate with others is the true path to finding purpose.

The Mythology of God Derrick van Zyl, 2017-11-30 Man has been creating gods for the last 40 000 years in order to make sense of himself and to explain life as it was primitively perceived before science developed, knowledge expanded and with it our factual understanding of where we come from, who we are and how we came to be here on our little blue planet. Not a single god had anything to do with creating you or anything at all for that matter. Not even your god, the one you were brought up and indoctrinated with. This book is an attempt to firstly explain how the universe was formed. How planets, and eventually us, evolved over a period of 13.73 billion years based on facts, derived from science, verified, peer-reviewed and corroborated and by also coming to the same conclusions using vastly different methods as opposed to creationist fairytales and superstition. If you understand the basics of evolution, then the second part in which Islam and Christianity are exposed for what they are, may give you some perspective of how 'religion poisons everything', in the words of the late great Christopher Hitchens. This book, is not only a consciousness raiser regarding the delusion that religion imposes and the biblical past and current violence it perpetually perpetrates, despite its desperate claims to the contrary, but also hopefully, will help to eradicate its theocratically, skewed fundamentalism where extremism finds its wings. It's a book about truth. It is about morality and intellectual honesty and unveiling the mask of religion and exposing the delusion of blind faith through reason. Exposing these religions with their 'cult like' delusional inaccuracies cannot be underestimated. Our future, as a species, depends on it. In the words of Stephen Roberts: 'When you understand why you dismiss all the other possible gods, you will understand why I dismiss yours.' Put your belief in people and love. Imaginary gods do not deserve them. Quote "The

amount of research that went into this book is prodigious – exceeding what I have seen in volume and scope in all of the PhD theses that I edited over the years!” Editor’s comment.

History of Judaism Trung Nguyen, 2017-02-15 A religious Jew is one who follows the teachings of the holy Torah. What if the Torah was not the word of god? Whose teachings have the religious Jews been following?

**History of Religion** Trung Nguyen, 2016-12-22 The truth about god shall set your life free. “History of Religion”, the second book in the series “Is There a God?” discusses the history of Judaism, Christianity, and Islam. Chapters include, Chapter 1: The Abrahamic Religions Chapter 2: History of Judaism Chapter 3: History of Christianity Chapter 4: History of Islam Chapter 5: Reasons People Are Religious Chapter 6: Religion: Business, Politics, and War Chapter 7: Terminologies and Notations

History of Christianity Trung Nguyen, 2017-02-15 A Christian is one who follows the teachings of Jesus Christ. What if Jesus never existed? Then whose teachings have Christians been following?

History of Islam Trung Nguyen, 2017-02-15 A Muslim is one who follows the teachings of Muhammad the prophet. What if Muhammad’s teachings were not the words of god? Whose teachings have the Muslims been following?

**You Don’T Say** Edward M. Cifelli, 2017-07-26 In You Dont Say Edward Cifelli collects 68 previously published essays and fugitive thoughts. It is a miscellany that records some of the things, large and small, that have claimed his attention between 2012 and 2017, between his 70th and 75th birthdays and his attention ranges far and wide, from Donald Trump, Hillary Clinton, and Barack Obama to Joe Maddon and the Ronettes; from Henry David Thoreau and Henry Wadsworth Longfellow to Keurig coffee makers and New York Times crossword puzzles; from the resignation of Pope Benedict XVI and the discovery of the God Particle to lottery statistics and lost golf balls. Part of the fun of the book is its crazy quilt of the important and unimportant and how they look after Cifelli stops to think about them. From Whining Poets: They attend each others readings and pretend there is a place for them someplace else in the literate universe. That is delusional, but its a fiction they all hold on to just as they hold on to the idea that they are under-read and under-appreciated. Their usual posture is a sort of hang-dog look of disappointment and lofty superiority, a difficult combination that they manage with the same irritating panache observed in perpetually misunderstood teenagers.

**ENTANGLEMENT** Nicole Gooding, 2013-03-28 Entanglement is based on a young woman travelling through life, demonstrating the interconnectedness of all life forms by using personal experiences to tell the story. It is unpredictable. It is universal. It is love. It is loss. It is hope. It is despair. It is a story common to all people. It is the search for fulfillment.

**Life Really Isn’t All That Complicated** James R. Schmalenberg, 2023-03-08 Are you struggling to accomplish your goals, even day-to-day ones? Does your head spin when someone starts talking about finances? Are you having difficulty managing your time? Your health? Did you know that if you break down life’s challenges into their basic parts, life isn’t as

complicated as it may seem? James Schmalenberg will show how. In his book *Life Really Isn't All That Complicated, But You Do Have To Think!* Schmalenberg provides tips, tools, and proven tactics to get you on the path to success. You will learn the importance of finding your “genius” and focusing your energy on developing that skill. You will also discover how health and wellness, good habits, productivity, your moral code, and making the most of your time influences your ability to achieve goals and become successful. Furthermore, Schmalenberg will help you get your financial world in order by delving into the topic of money managing. Throughout the book, he also provides homework challenges to help you implement his advice. Life isn't all that complicated, but it does require you to accept personal responsibility for how you live your life and to think about some basic concepts and how you can apply them. If you understand and implement all of these concepts to the best of your ability, your life will definitely improve.

*The Christian Doctrine Paradox* Philip Joel Walls, 2020-10 The atheist, the agnostic and the devout religious alike; each and every one of us must at some point come to address these universal questions – Why are we here? How did we get here? What is the meaning of life? Why are there so many divisions in our Christian churches? Why are so many people deceived by a multitude of worldly religions? How do we witness a true Christian faith to the religions and philosophies of the world? So many questions at so great a cost for the wrong answers... This book, *The Christian Doctrine Paradox*, is the perfect illustration of where things went wrong, how we can make it right again, and what can ultimately be defined as Predestination – the reason for life on this planet – and much, much more.

**Psyche's Exile: an empirical odyssey in search of the soul** Jerry Kroth, 2011 *Psyche's Exile: an empirical odyssey in search of the soul.* “Psyche” means “soul” in Greek, and “psychology” literally means ‘the study of the soul.’ For over a century American psychology has gone in precisely the opposite direction. Soul = mind, and mind = brain with no exceptions! This reductionist paradigm is challenged in this book as Professor Kroth reviews eight politically incorrect, ‘forbidden’ databases in his empirical pursuit of the immortal soul of the ages: near-death experiences, deathbed visions, precognitive dreams, premonitions, synchronicity, telepathy, states of possession, just to name a few. The journey leads to a fascinating rediscovery of the soul. Reviews “*Psyche's Exile* . . . is an absolute treasure trove of carefully collected experiential and experimental data spanning the research areas of anthropology, sociology, religion, spirituality, psychology, and physics. Although we are still some human evolutionary time away from experimentally proving the existence of the human soul, there is certainly enough good data available at present to make it a viable working hypothesis. Dr. Kroth is dedicated to his craft as a professional explorer of nature in its many forms. For myself, I wouldn't hesitate to recommend this book to my scientific colleagues and my friends.” —William A. Tiller, Ph.D., professor of physics: Stanford University; Author of *Science and Human Transformation*

**An Open Letter to Juan Dela Cruz** Reynaldo Budhi, 2011-09-30 Understanding evolution will bring you the right

knowledge of Man and God. This is an article of survival and struggles of a country wanting to be recognize.

3 x Carlin George Carlin,2015-09-01 A perfectly gift-able, perfectly cynical, slipcased omnibus of George Carlin's trademark irreverence--including bonus never-before-published material. For four decades, George Carlin has been one of America's favorite comics, known as much for his willingness to take on taboo subjects as for his absurdist wordplay. As an author, he has proved equally popular: With combined sales of more than two million copies, Carlin's three books of razor-sharp and hilarious observations have topped bestseller lists nationwide. Now, just in time for the holidays, Hyperion proudly collects all three volumes -- When Will Jesus Bring the Pork Chops?, Napalm and Silly Putty, and Brain Droppings -- into one hilarious omnibus, a slipcased edition that also includes new material.

The Phantom God John C. Wathey,2022-10-15 Does neuroscience have anything to say about religious belief or the existence of God? Some have tried to answer this question, but, in doing so, most have strayed from the scientific method. In *The Phantom God*, computational biologist and neuroscientist John C. Wathey, Ph.D., tackles this problem head-on, exploring religious feelings not as the direct perception by the brain of some supernatural realm, nor as the pathological misfiring of neurons, but as a natural consequence of how our brains are wired. Unlike other neurobiological studies of religion and spirituality, *The Phantom God* treats mysticism not as something uniquely human and possibly supernatural in origin, but as a completely natural phenomenon that has behavioral and evolutionary roots that can be traced far back into our vertebrate ancestry. Grounded in evolutionary and behavioral biology, this highly original and compelling book takes the reader on a journey through the neural circuitry of crying, innate knowledge, reinforcement learning, emotional bonding, embodiment, interpersonal perception, and the ineffable feeling of certainty that characterizes faith. Wathey argues that the feeling of God's presence is spawned by innate neural circuitry, similar to the mechanism that compels an infant to cry out for its mother. In an adult, this circuitry can be activated under conditions that mimic the extreme desperation and helplessness of infancy, generating the compelling illusion of the presence of a loving, powerful, and all-knowing savior. When seen from this perspective, the illusion also appears remarkably like one that has long been familiar to neurologists: the phantom limb of the amputee, spawned by the expectation of the patient's brain that the missing limb should still be there. Including a primer on the basic concepts and terminology of neuroscience, *The Phantom God* details the neural mechanisms behind the illusions and emotions of spiritual experience. ,

*The Complete Idiot's Guide to Life After Death* Diane Ahlquist,2007-07-03 Get an (after) life! A belief in the afterlife is common to almost every faith and culture around the world. Even people who don't consider themselves "spiritual" share a fascination in life after death. In this powerful guide, author and intuitive Diane Ahlquist shares her own knowledge of the subject, as well as the views of such religious and spiritual leaders as Edgar Cayce and the Dalai Lama.

## Embracing the Melody of Expression: An Emotional Symphony within **George Carlin But He Loves You**

In a world used by displays and the ceaseless chatter of immediate transmission, the melodic elegance and mental symphony created by the prepared word frequently diminish into the background, eclipsed by the persistent sound and distractions that permeate our lives. Nevertheless, set within the pages of **George Carlin But He Loves You** a stunning fictional treasure overflowing with organic emotions, lies an immersive symphony waiting to be embraced.
