The Agony of Eros Byung-Chul Han, 2017-03-31 An argument that love requires the courage to accept self-negation for the sake of discovering the Other. Byung-Chul Han is one of the most widely read philosophers in Europe today, a member of the new generation of German thinkers that includes Markus Gabriel and Armen Avanessian. In *The Agony of Eros*, a bestseller in Germany, Han considers the threat to love and desire in today's society. For Han, love requires the courage to accept self-negation for the sake of discovering the Other. In a world of fetishized individualism and technologically mediated social interaction, it is the Other that is eradicated, not the self. In today's increasingly narcissistic society, we have come to look for love and desire within the "inferno of the same." Han offers a survey of the threats to Eros, drawing on a wide range of sources—Lars von Trier's film *Melancholia*, Wagner's *Tristan und Isolde*, *Fifty Shades of Grey*, Michel Foucault (providing a scathing critique of Foucault's valorization of power), Martin Buber, Hegel, Baudrillard, Flaubert, Barthes, Plato, and others. Han considers the "pornographication" of society, and shows how pornography profanes eros; addresses capitalism's leveling of essential differences; and discusses the politics of eros in today's "burnout society." To be dead to love, Han argues, is to be dead to thought itself. Concise in its expression but unsparing in its insight, *The Agony of Eros* is an important and provocative entry in Han's ongoing analysis of contemporary society. This remarkable essay, an intellectual experience of the first order, affords one of the best ways to gain full awareness of and join in one of the most pressing struggles of the day: the defense, that is to say—as Rimbaud desired it—the "reinvention" of love. —from the foreword by Alain Badiou

On Hitler's Mein Kampf Albrecht Koschorke, 2017-04-07 An examination of the narrative strategies employed in the most dangerous book of the twentieth century and a reflection on totalitarian literature. Hitler's *Mein Kampf* was banned in Germany for almost seventy years, kept from being reprinted by the accidental copyright holder, the Bavarian Ministry of Finance. In December 2015, the first German edition of *Mein Kampf* since 1946 appeared, with Hitler's text surrounded by scholarly commentary apparently meant to act as a kind of cordon sanitaire. And yet the dominant critical assessment (in Germany and elsewhere) of the most dangerous book of the twentieth century is that it is boring, unoriginal, jargon-laden, badly written, embarrassingly rabid, and altogether ludicrous. (Even in the 1920s, the consensus was that the author of such a book had no future in politics.) How did the unreadable *Mein Kampf* manage to become so historically significant? In this

book, German literary scholar Albrecht Koschorke attempts to explain the power of Hitler's book by examining its narrative strategies. Koschorke argues that *Mein Kampf* cannot be reduced to an ideological message directed to all readers. By examining the text and the signals that it sends, he shows that we can discover for whom Hitler strikes his propagandistic poses and who is excluded. Koschorke parses the borrowings from the right-wing press, the autobiographical details concocted to make political points, the attack on the Social Democrats that bleeds into an anti-Semitic conspiracy theory, the contempt for science, and the conscious attempt to trigger outrage. A close reading of National Socialism's definitive text, Koschorke concludes, can shed light on the dynamics of fanaticism. This lesson of *Mein Kampf* still needs to be learned.

Law as Refuge of Anarchy Hermann Amborn, 2019-04-02 A study of communities in the Horn of Africa where reciprocity is a dominant social principle, offering a concrete countermodel to the hierarchical state. Over the course of history, people have developed many varieties of communal life; the state, with its hierarchical structure, is only one of the possibilities for society. In this book, leading anthropologist Hermann Amborn identifies a countermodel to the state, describing communities where reciprocity is a dominant social principle and where egalitarianism is a matter of course. He pays particular attention to such communities in the Horn of Africa, where nonhierarchical, nonstate societies exist within the borders of a hierarchical structured state. This form of community, Amborn shows, is not a historical forerunner to monarchy or the primitive state, nor is it obsolete as a social model. These communities offer a concrete counterexample to societies with strict hierarchical structures. Amborn investigates social forms of expression, ideas, practices, and institutions that oppose the hegemony of one group over another, exploring how conceptions of values and laws counteract tendencies toward the accumulation of power. He examines not only how the nonhegemonic ethos is reflected in law but also how anarchic social formations can exist. In the Horn of Africa, the autonomous jurisdiction of these societies protects against destructive outside influences, offers a counterweight to hegemonic violence, and contributes to the stabilization of communal life. In an era of widespread dissatisfaction with Western political systems, Amborn's study offers an opportunity to shift from traditional theories of anarchism and nonhegemony that project a stateless society to consider instead stateless societies already in operation.

German Philosophy Alain Badiou, Jean-Luc Nancy, 2018-09-18 Two eminent French philosophers discuss German philosophy—including the legacy of Kant, Hegel, Nietzsche, Adorno, Fichte, Marx, and Heidegger—from a French perspective. In this book, Alain Badiou and Jean-Luc Nancy, the two most important living philosophers in France, discuss German philosophy from a French perspective. Written in the form of a dialogue, and revised and expanded from a 2016 conversation between the two philosophers at the Universität der Künste Berlin, the book offers not only Badiou's and Nancy's reinterpretations of German philosophers and philosophical concepts, but also an accessible introduction to the greatest thinkers of German philosophy. Badiou and Nancy discuss and debate such topics as the legacies of Kant, Hegel, and

Marx, as well as Nietzsche, Adorno, Fichte, Schelling, and the unavoidable problem of Heidegger and Nazism. The dialogue is contentious, friendly, and often quotable, with strong—at times passionate—positions taken by both Badiou and Nancy, who find themselves disagreeing over Kant, for example, and in unexpected agreement on Marx, for another. What does it mean, then, to conduct a dialogue on German philosophy from a French perspective? As volume editor Jan Völker observes, “German philosophy” and “French philosophy” describe complex constellations that, despite the reference to nation-states and languages, above all encompass shared concepts and problems—although these take a range of forms. Perhaps they can reveal their essential import only in translation.

The Terror of Evidence Marcus Steinweg, 2017-04-07 Meditations, maxims, aphorisms, notes, and comments address topics that range from pathos and genius to careerism and club sandwiches. Marcus Steinweg's capacity to implicate the other is beautiful, bright, precise, and logical, grounded in everyday questions, which to him are always big questions. —from the foreword by Thomas Hirschhorn The houses of philosophy need not be palaces. —Marcus Steinweg, “House,” *The Terror of Evidence* This is the first book by the prolific German philosopher Marcus Steinweg to be available in English translation. *The Terror of Evidence* offers meditations, maxims, aphorisms, notes, and comments—191 texts ranging in length from three words to three pages—the deceptive simplicity of which challenges the reader to think. “Thinking means getting lost again and again,” Steinweg observes. Reality is the ever-broken promise of consistency; “the terror of evidence” arises from the inconsistency before our eyes. Thinking is a means of coping with that inconsistency. Steinweg is known for his collaborations with Thomas Hirschhorn and the lectures and texts he has provided for many of Hirschhorn's projects. This translation of *The Terror of Evidence* includes a foreword by Hirschhorn written especially for the MIT Press edition. The subjects of these short texts vary widely. (“The table of contents is in itself excessive and ambitious,” writes Hirschhorn.) They include pathos, passivity, genius, resentment, love, horror, catastrophe, and racism. And club sandwiches (specifically, Foucault's love for this American specialty), blow jobs, and dance. Also: “Two Kinds of Obscurantism,” “Putting Words in Spinoza's Mouth,” “Note on Rorty,” and “Doubting Doubt.” *The Terror of Evidence* can be considered a guidebook to thinking: the daily journey of exploration, the incessant questioning of reality that Steinweg sees as the task of philosophy.

Sovereign Debt and Socio-Economic Rights Beyond Crisis Emma Luce Scali, 2022-02-24 Argues that the 'neoliberalisation' of international and EU law has been advanced in the wake of the Eurozone debt crisis.

Reframing Suicide Katrina Jaworski, Ian Marsh, 2024-09-06 This book focuses on understanding and researching suicide and suicide prevention from historical, political, cultural, social, and philosophical perspectives, all of which are located in particular contexts of research and practice. Critical suicide studies, as an intellectual movement, has been in the making for over 40 years. Yet it has emerged only in recent times thanks to the global efforts of scholars, practitioners and activists working across a range of disciplines and fields of practice. Critical suicide studies seeks to reframe how suicide has been

researched by disrupting traditional ways of understanding suicide and suicide prevention. In so doing, this movement is critical of the universalising assumptions and applications of ideas about suicide, which too often are centre on Western notions of psychopathology, and individualised accounts of agency and suicidal subjectivity. The collected works in this book offer interventions into the way suicide and suicide prevention have been understood in different contexts, be it in relation to the history of knowledge production and its approaches, practices of suicide prevention, and more recent examples of how suicide is represented, both publicly and personally. This book will be of immense value to scholars, students and researchers interested in the topic of suicide in relation to epistemic injustice, history, critiques of scientific frameworks, moral discourses, ethics, and creative arts such as poetry. It was originally published as a special issue of *Social Epistemology*.

Cairo's Ultras Ronnie Close, 2019-09-03 A fascinating account of football culture in Egypt through its ultras groups The history of Cairo's football fans is one of the most poignant narratives of the 25 January 2011 Egyptian uprising. The Ultras Al-Ahly and the Ultras White Knights fans, belonging to the two main teams, Al-Ahly F.C. and Zamalek F.C respectively, became embroiled in the street protests that brought down the Mubarak regime. In the violent turmoil since, the Ultras have been locked in a bitter conflict with the Egyptian security state. Tracing these social movements to explore their role in the uprising and the political dimension of soccer in Egypt, Ronnie Close provides a vivid, intimate sense of the Ultras' unique subculture. *Cairo's Ultras: Resistance and Revolution in Egypt's Football Culture* explores how football communities offer ways of belonging and instill meaning in everyday life. Close asks us to rethink the labels 'fans' or 'hooligans' and what such terms might really mean. He argues that the role of the body is essential to understanding the cultural practices of the Cairo Ultras, and that the physicality of the stadium rituals and acerbic chants were key expressions that resonated with many Egyptians. Along the way, the book skewers media clichés and retraces revolutionary politics and social networks to consider the capacity of sport to emancipate through performances on the football terraces.

Reality Unedited Kevin R. Nelson, 2021-10-09 Our species has coexisted in the world in a healthy and balanced way for 97% of its existence. It was only after our ancestors emerged from life in nature as hunter-gatherers that this all began to change. By the beginning of civilization some 6,000 years ago, these changes rigidified and became destructive on a large scale. They have accumulated to such an extent that our species now faces extinction or a dismal future of ever-worsening ecocide. Meaninglessness and confusion have become rampant in our postmodern era. The human psyche has become utterly fragmented and rendered a stranger to reality, other people, and itself. As dispiriting as this all seems, the path forward has always been available to us if we can overcome the ignorance that prevents us from taking it. We must reject the values of civilization and return to the naturalistic perspective of our ancestors where our values, thinking, feeling, and actions are once again based on how nature and reality truly function. While this approach should be evident, we have until now been too terrified, bewildered, or arrogant to adopt it. To help us succeed, *Reality Unedited* provides a simple model of reality that

serves as a foundation for establishing truth claims in the public sphere. Then we can finally take the actions necessary so our species, and all life on the planet, cannot only survive, but thrive.

Time for Educational Poetics Xicoténcatl Martínez Ruiz, 2019-03-19 In *Time for Educational Poetics* the author addresses a discussion in the context of today's philosophy of education and educational research. Conceptually, educational poetics is not limited to a theoretical construction, but rather focuses on the creative, imaginative and poetic experience, to being recreated in the teaching-learning process. Educational poetics is rooted in the philosophical and aesthetic thought of South Asia, specifically in how contemplative and creative practices re-introduced by Rabindranath Tagore. Educational poetics is the convergence of research in creative contemplation and poetic creation, practices of conscious attention and mindfulness, and practices of peace education and philosophy of non-violence. This book leads to a perspective in thinking about the risks that jeopardize the future of young generations.

The Return of Ethics and Spirituality in Global Development Mahmoud Masaeli, Rico Sneller, 2020-06-02 The theory of modernization basically reduces the meaning of development to economic growth often measured by Growth Domestic Product of the country or overall purchase power parity of the nation. This approach ignores the variety of perspectives on development, hence excludes the role of culture, identity, and spirituality as social determinants of good development. More importantly, modernization theory which informs the mainstream view on development ignores the structural causes of underdevelopment, including colonial heritage or the current unbridled capitalism in many societies. Against reductionist views of development, fundamental questions are raised about the theory and programming of development. From what perspective is the conception of development perceived? Who should decide and depict development goals? What kind of development could result in desirable changes? Is it morally desirable to dictate an exclusively Western understanding of development to others? Is there any link between development and a right of nations to self-determination? Who is morally accountable for global inequality or 'bad development'? The novelty of this book lies in its multidisciplinary approach in exploring the role of ethics and spirituality as the curing alternates for the gamut of ills which originate in global inequality. All authors are academics based in a variety of countries and specialize in questions concerning development and spirituality.

Necropower in North America Ariadna Estévez, 2021-06-25 This book discusses and theorizes Achille Mbembe's necropolitics, the politics of death, in the specific context of North America. It works to characterize and analyze the particularities and relational differences of American and Canadian necropowers vis-à-vis their devices, subjectivities, necroempowered subjects, and production of spaces of death in their geographical and symbolic borderlands with the Third World: the US-Mexico border, indigenous lands, migrant and Black-American neighborhoods, and resource rich geographies. North American necropowers not only profit from death, but also conduct disposable populations to death throughout the region. The volume proposes a postcolonial perspective that characterizes the political power of North America as a

necropower—or the sovereign power to make die. Each chapter therefore theorizes and analyzes the specificities of necropower, examining different necropolitics that range from asylum and migration restrictions to the economic exploitation and abandonment of deprived populations and policing of ethnic minorities, in particular Mexican immigrants, indigenous peoples, and African American communities.

Sexuality and Eroticism in a Post-pandemic World ,2023-09-20 The cultural change denominated as “the new normal” goes far beyond the adaptation to habits like physical distancing, limited person-to-person contact, teleworking, and self-isolation established with the COVID-19 pandemic. A series of significant transformations in human behavior spreads today in societies all around the world: physical intimacy decreases while virtual reality expands and alterity declines while artificial intelligence emerges, leading to structural reconfigurations of sex, relationships, gender awareness, and subjectivity. Sexuality and Eroticism in a Post-pandemic World explores this new cultural atmosphere through twelve interdisciplinary essays questioning global governmentality and challenging the biopolitics of the new normal—the administration of self-control societies so politically correct that repressed desire for otherness only finds a simulation of its satisfaction with the forced abnormality, outrageousness, and violence of mainstream porn—, going from ars erotica to alternative pornography, from online dating to gender fluidity, from LGBTQI+ activism to sex life cultivation, and more.

This two-volume handbook offers employers a comprehensive approach to understanding, preventing, and dealing with hostile work environments through an integrated model that encompasses legal responsibilities, management theories and practice, and social science research. Volume one provides an overview of workplace discrimination through an examination of federally protected categories, such as age, disability, equal compensation, national origin, pregnancy, race/color, religion, sex, and sexual harassment. Volume two offers strategies related to reasonable care in terms of preventing workplace discrimination through policies, procedures, and training programs.

Agonie des Eros Byung-Chul Han, 2016-01-05 Der Eros gilt dem ›Anderen‹ im emphatischen Sinne, der sich ins Regime des Ich nicht einholen lässt. In der Hölle des Gleichen, der die heutige Gesellschaft immer mehr ähnelt, gibt es daher keine ›erotische Erfahrung‹. Sie setzt die Transzendenz, die radikale Singularität des Anderen voraus. Der heutige Terror der Immanenz, der alles zum Gegenstand der Konsumtion macht, zerstört das erotische ›Begehren‹. Nicht zufällig heißt Sokrates als Geliebter ›atopos‹. Der Andere, den ich begehre und der mich fasziniert, ist ortlos. Er entzieht sich der Sprache des Gleichen. Es ist ein Kennzeichen der immer narzisstischer werdenden Gesellschaft von heute, dass der ›Andere‹ verschwindet – fatalerweise unbemerkt. Die Müdigkeitsgesellschaft, in der man erschöpft von sich selbst ist, ohne sich zum ›Anderen‹ hin befreien zu können, ist eine Gesellschaft ohne Eros.

La agonía del Eros Byung-Chul Han, 2023-09-05 La proclamación neoliberal de la libertad se manifiesta en realidad como un imperativo paradójico: sé libre. Domina una economía de la supervivencia en la que cada uno es su propio empresario. El neoliberalismo, con sus desinhibidos impulsos narcisistas del yo y del rendimiento, es el infierno de lo igual, una sociedad de la depresión y el cansancio compuesta por sujetos aislados. Los muros y las fronteras ya no excitan la fantasía, pues no engendran al otro. Dado que el Eros se dirige a ese otro, el capitalismo elimina la alteridad para someterlo todo al consumo: la exposición como mercancía intensifica lo pornográfico, pues no conoce ningún otro uso de la sexualidad. Desaparece así la experiencia erótica. La crisis actual del arte, y también de la literatura, puede atribuirse a esta desaparición del otro, a «la agonía del Eros».
