Fundamentos de Psicología Clínica Pelaez Jaramillo, Gloria Patricia,2016-09-30 Este libro es resultado de un estudio del arte sobre los ejes fundamentales de la psicología clínica y de su campo. Consta de cuatro capítulos: el primero está dedicado a la clínica y su demarcación epistemológica en el campo de la psicología general; se encuentran allí aspectos que tal demarcación debe tener en cuenta para identificar y diferenciar cada uno de los campos de aplicación propios de la psicología. El segundo capítulo recoge, de manera sintética, el nacimiento de la clínica en la historia de las ciencias, resaltando el origen de la psicología clínica. El tercer capítulo está conformado por tres unidades y aborda los conceptos clínicos psicológicos fundamentales alrededor de tres temáticas: fines, objetos y concepto de salud y psicopatología, y evidencia el proceso clínico y sus constantes: evaluación, diagnóstico e intervención, trabajo comunitario e investigación. El capítulo cuarto se propone mostrar un panorama general sobre los problemas actuales de la psicología clínica.

Psicoterapia y Psicología Clínica Donar A.I. Saage,2025-07-04 Esta obra presenta un enfoque integral de la psicoterapia y

psicología clínica, combinando de manera sistemática los fundamentos de la psicología del comportamiento, la psicología de la personalidad y la psicología de la salud en la práctica terapéutica. El libro aborda los fundamentos esenciales de la práctica psicológica, incluyendo procedimientos diagnósticos para la indicación terapéutica, el establecimiento de la relación de trabajo terapéutica y las condiciones éticas y legales del marco profesional. Se profundiza en los enfoques de la psicología del comportamiento, presentando técnicas de terapia de confrontación, condicionamiento operante e intervenciones cognitivo-conductuales. Un aspecto central de la obra es la integración de la psicología de la personalidad y las diferencias individuales en el proceso terapéutico. Se examina la relación entre los rasgos de personalidad y los cuadros clínicos, la consideración de la personalidad en el proceso terapéutico y el trabajo con el autoconcepto y la autoestima. Los campos de aplicación de la psicología de la salud ocupan un lugar destacado, incluyendo estrategias psicológicas para el manejo del dolor, la promoción de comportamientos saludables y el manejo práctico del estrés y la prevención. La obra concluye con los procesos centrales de la psicoterapia y psicología clínica, abordando la promoción de la regulación emocional, la activación dirigida de recursos y la finalización de la terapia con profilaxis de recaídas. Cada capítulo incluye representaciones gráficas que ilustran los conceptos teóricos y facilitan la comprensión práctica de los contenidos presentados. Para este libro, hemos apostado por tecnologías innovadoras, incluyendo Inteligencia Artificial y soluciones de software a medida. Estas nos apoyaron en numerosos pasos del proceso: la búsqueda de ideas y la investigación, la redacción y la edición, el control de calidad, así como la creación de ilustraciones decorativas. Nuestro objetivo es ofrecerle una experiencia de lectura especialmente armoniosa y contemporánea.

La Práctica de la Psicología Clínica Arturo Bados,Eugenio García-Grau,2011-11 Este libro va dirigido a los estudiantes y estudiosos de la Psicología Clínica que busquen información relevante sobre la eficacia y la utilidad de la psicoterapia, el proceso de intervención, las habilidades clínicas básicas y los aspectos éticos y legales de la profesión. En primer lugar, se expone la definición y características de la Psicología Clínica, las funciones de los psicólogos clínicos, los niveles de intervención y los campos de aplicación. A continuación, se aborda el tema de la eficacia de la psicoterapia y se presentan datos relativos a las posibilidades de generalizar los resultados obtenidos en las investigaciones a la práctica clínica habitual. En tercer lugar, se detallan los diferentes pasos que se realizan con un paciente, desde el primer contacto hasta la finalización del tratamiento y del seguimiento. Más adelante, se describen las actitudes básicas que debe tener todo psicólogo clínico y se explican las principales habilidades de comunicación. Finalmente, se abordan los aspectos deontológicos, éticos y legales de la intervención psicológica como, por ejemplo, el consentimiento informado, la confidencialidad y las relaciones duales.

Intervención psicológica conductual y conductual-cognitiva Pablo J. Olivares Olivares,Ángel Rosa Alcázar,Ana Isabel Rosa Alcázar,José Olivares Rodríguez,2022-02-17 La intervención psicológica es el conjunto de acciones que se realizan en el curso del ejercicio de la profesión del psicólogo. Abarca desde que se recibe por primera vez al paciente y cliente hasta la despedida tras la última evaluación de seguimiento de los efectos del tratamiento. Incluye, pues, un doble proceso: el de la evaluación (pretratamiento, intratratamiento, postratamiento y de seguimiento) y el del diseño o la adaptación, la planificación y la aplicación del tratamiento. El manual se desarrolla con un doble objetivo. Por una parte, poner en manos del lector en general, y muy especialmente del futuro psicólogo, una aproximación concreta al proceso de evaluación y tratamiento que se ha desarrollado a la luz de las premisas teóricas de los enfoques que han conformado el modelo conductual y el modelo conductual-cognitivo, propios de la psicología científica. Por otra parte, facilitar una aproximación al conocimiento psicológico que posibilite al futuro psicólogo acceder al dominio de la materia que se presenta en cada epígrafe, a través de actividades que incluyen tareas de análisis, descripción, enumeración, agrupación, comparación y reflexión, de los principales conceptos básicos y de sus implicaciones respecto de la evaluación y el tratamiento de los problemas y trastornos que se abordan en el ámbito de la psicología clínica y de la salud. Ambos objetivos persiguen el mismo fin: aproximar la teoría y la práctica para fomentar el ejercicio riguroso y honesto de la profesión del psicólogo clínico.
