Gene Wolfe

Lake of the Long Sun Gene Wolfe, 2015-08-25 *Lake of the Long Sun* is the second volume in the Book of the Long Sun series from science fiction and fantasy master Gene Wolfe. It is the far future, and the giant spaceship, The Whorl, has travelled for forgotten generation towards its destination. Lit inside by the artificial Long Sun, The Whorl is so huge that you can see whole cities in the sky. And now the gods of The Whorl begin to intervene in human affairs. A god speaks to Patera Silk, a clergyman at work in the schoolyard of his church. Silk must go on a quest to save his church and his people. Stylistic excellence and topnotch storytelling.--Library Journal At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Caldé of the Long Sun Gene Wolfe, 1994 Continues the fantasy adventures of idealistic young augur Patera Silk, begun in *Nightside the long sun* and followed by *Lake of the long sun*.

Gate of Horn, Book of Silk Michael Andre-Driussi, Gene Wolfe, 2012-08-15 In this companion guide, Michael Andre-Driussi illuminates Gene Wolfe's Book of the Long Sun and Book of the Short Sun science fiction series through dictionary-style entries on the characters, gods, locations, themes, and timelines of the novels. *Gate of Horn, Book of Silk*, is organized in two parts, with the first half covering the Long Sun series (*Nightside the Long Sun*, *Lake of the Long Sun*, *Calde of the Long Sun*, and *Exodus from the Long Sun*) and the second half covering the Short Sun series (*On Blue's Waters*, *In Green's Jungles*, and *Return to the Whorl*). *Languages of the Whorl*, a section between the two parts, covers all the dialect, slang, and foreign terms used in the books--thieves' cant, flier language, Tick's talk, and more. Ten maps and diagrams are included. This is Michael Andre-Driussi's third guidebook to the rich tapestries of Gene Wolfe's worlds. As fans of *Lexicon Urthus* and *The Wizard Knight Companion* have noted, that each book is both a convenient tool for a question while re-reading the novels but also an enjoyable read in its own right, from A to Z.

Attending Daedalus Peter Wright, 2003-10-01 This new study of the fiction of Gene Wolfe, one of the most influential

contemporary American science fiction writers, offers a major reinterpretation of Gene Wolfe's four-volume *The Book of the New Sun* and its sequel *The Urth of the New Sun*. After exposing the concealed story at the heart of Wolfe's magnum opus, Wright adopts a variety of approaches to establish that Wolfe is the designer of an intricate textual labyrinth intended to extend his thematic preoccupations with subjectivity, the unreliability of memory, the manipulation of individuals by social and political systems, and the psychological potency of myth, faith and symbolism into the reading experience.

Castleview Gene Wolfe, 1991 Arthurian legend collides with Main Street, USA, in Gene Wolfe's classic fantasy adventure. *Castleview*, Illinois, got its name from occasional sightings of a phantom castle on stormy nights--a place where the barrier between past and present is weak and strange things happen.

Up Through an Empty House of Stars David Langford,2003-08-01 At last, *Up Through an Empty House of Stars* brings together the best of the never before collected SF reviews and articles that helped build David Langford's towering reputation since 1980. Complementing the review columns collected in *The Complete Critical Assembly* and the knockabout essays and squibs in *The Silence of the Langford*, this volume's 100 glittering selections mix serious critical insight with the inimitable Langford wit. In 2002 David Langford won his sixteenth Hugo award as Best Fan Writer, for critical and humorous commentary on SF. In the same year his occasionally scandalous SF newsletter *Ansible* won its fifth Hugo. Langford also received the 2001 Hugo for best short story, and the 2002 Skylark Award. Here he shines a unique light on classics like Ernest Bramah, G.K. Chesterton, Robert Heinlein and Jack Vance, and analyses major SF -- and major clunkers, and minor eccentrics -- of the 1980s, 1990s and early 2000s, continuing to the latest by such current stars as Gene Wolfe and China Mi, ville. Plus witty asides on crime fiction and its SF links, gleeful examination of writing so bad it's almost good, and (even at his most serious) turns of phrase to make you laugh aloud

Peace Gene Wolfe,1995-06-15 Mesmerizing sci-fi from the author the Denver Post calls one of the literary giants of science fiction. The melancholy memoir of Alden Dennis Weer, an embittered old man living in a small midwestern town, reveals a miraculous dimension. For Weer's imagination has the power to obliterate time and reshape reality, transcending even death itself.

The Generation Starship in Science Fiction Simone Caroti,2014-01-10 This critical history explores the concept of the multi-generational interstellar space voyage in science fiction between 1934, the year of its appearance, into the 21st century. It defines and analyzes what became known as the generation starship idea and examines the science and technology behind it, also charting the ways in which generation starships manifest themselves in various SF scenarios. It then traces the history of the generation starship as a reflection of the political, historical, and cultural context of science fiction's development.

The Land Across Gene Wolfe,2013-11-26 An American writer of travel guides in need of a new location chooses to travel to a small and obscure Eastern European country. The moment Grafton crosses the border he is in trouble, much more than he could have imagined. His passport is taken by guards, and then he is detained for not having it. He is released into the custody of a family, but is again detained. It becomes evident that there are supernatural agencies at work, but they are not in some ways as threatening as the brute forces of bureaucracy and corruption in that country. Is our hero in fact a spy for the CIA? Or is he an innocent citizen caught in a Kafkaesque trap? In *The Land Across*, Gene Wolfe keeps us guessing until the very end, and after.
