Eye Rhymes Kathleen Connors, Sally Bayley, 2007 Here is the first book to bring long-overdue attention to Sylvia Plath's surprisingly accomplished visual art and to place that art in relation to her literary career. Plath trained as a studio artist before her sophomore year at Smith and her work in tempera and watercolor paintings, pastels, ink, crayon and pencil drawings, and other media reveals a talent that both complements and illuminates her genius as a writer. Eye Rhymes brings together essays by six Plath scholars-including renowned authors Diane Middlebrook, Landgon Hammer and Christiana Britzolakis, book editors Kathleen Connors and Sally Bayley, and Fan Jinghua-and contextualizes approximately sixty of Plath's visual works within her writing oeuvre, starting with juvenilia that reveal the extensive play between her two disciplines. Special attention is given to Plath's unpublished teen diaries and book reports containing drawings and early textual experiments, created years before her famous I am I diary notes of age seventeen, when critical examination of her writing usually begins. The book offers new critical approaches to the artist's multidimensional output, including writing that appropriates sophisticated visual and color effects years after painting and drawing became her hobby and writing her chosen profession. The essays gathered here also relate Plath's visual art interests to her early identity as a writer in Cambridge, her teen artwork and writing on war, mid-career art poems on the works of de Chirico, her representations of womanhood within mid-century commercial culture, and her visual aesthetics in poetry. Filled with stunning reproductions of her art and fresh readings of many of her most important poems, Eye Rhymes offers readers a new way of understanding the full range of Plath's creative expression.

Sylvia Plath Al Strangeways, 1998 This is the first critical work to provide a full account of Sylvia Plath's intellectual biography. Using previously unexamined archive material to explore the diversities of influence in Plath's work, Al Strangeways offers a close reworking of Harold Bloom's Oedipal poetics of the literary canon, breaking open the model onto a recognition of the cultural and political forces through which Plath's poetry struggles into expression. This timely book brings out for the first time the powerful interplay between Plath's poetic development and the writings of Thomas de

Quincey, D.H. Lawrence, William Blake, and Emily Bronte, and establishes the crucial context of the often controversial use that she makes of politics, history, and myth in a post-Holocaust world.

Becoming Madame Ollivia de la Valliere, 2015-08-14 Have you ever wished that your life could be more than a treadmill, an endless succession of daily responsibilities coupled with the relentless drive to succeed? You wouldn't be alone. After the completion of a law degree, Ollivia pursued a legal career at a big-city law firm. Ambition drove her for a few years—until she took a hard look at her life and goals and decided . . . to give it all up and move to France. This leap of faith was based entirely on an aching and unexplainable desire for something more. In 2006, Ollivia quit her job, left her life, including her fiancé, and moved to Paris for what was supposed to be a five-month sabbatical to learn French, a childhood dream. But Paris and French life passionately impaled her heart. The rest is *Becoming Madame*

Of Gardens Paula Deitz, 2011-11-29 Paula Deitz has delighted readers for more than thirty years with her vivid descriptions of both famous and hidden landscapes. Her writings allow readers to share in the experience of her extensive travels, from the waterways of Britain's Castle Howard to the Japanese gardens of Kyoto, and home again to New York City's Central Park. Collected for the first time, the essays in *Of Gardens* record her great adventure of continual discovery, not only of the artful beauty of individual gardens but also of the intellectual and historical threads that weave them into patterns of civilization, from the modest garden for family subsistence to major urban developments. Deitz's essays describe how people, over many centuries and in many lands, have expressed their originality by devoting themselves to cultivation and conservation. During a visit to the Abby Aldrich Rockefeller Garden in Seal Harbor, Maine, Deitz first came to appreciate the

notion that landscape architecture can be as intricately conceived as any major structure and is, indeed, the means by which we redeem the natural environment through design. Years later, as she wandered through the gardens of Versailles, she realized that because gardens give structure without confinement, they encourage a liberation of movement and thought. In *Of Gardens*, we follow Deitz down paths of revelation, viewing *A Bouquet of British Parks: Liverpool, Edinburgh, and London*; the parks and promenades of Jerusalem; the Moonlight Garden of the Taj Mahal; a Tuscan-style villa in southern California; and the rooftop garden at Tokyo's Mori Center, among many other sites. Deitz covers individual landscape architects and designers, including André Le Nôtre, Frederick Law Olmsted, Beatrix Farrand, Russell Page, and Michael Van Valkenburgh. She then features an array of parks, public places, and gardens before turning her attention to the burgeoning business of flower shows. The volume concludes with a memorable poetic epilogue entitled *A Winter Garden of Yellow*.
