Multiculturalism, Whiteness and Otherness in Australia Jon Stratton, 2020-07-17 This book examines the experience of race and ethnicity in Australia after the withering away of official multiculturalism. The first chapter looks at the formation of the Australian state, the role that multiculturalism has played, and the impact of neoliberal ideas. The second chapter takes nightclubbing in the city of Perth during the 1980s, the peak period for official multiculturalism, to exemplify how diversity and exclusion functioned in everyday life. The third chapter considers the imbrication of Christianity in the Australian socio-cultural order and its impact on the limits of multiculturalism with particular concentration on Islam and the Australian Muslim experience. Subsequent chapters discuss the exclusionary experience of various groups identified as non-white through the lens of films, popular music and television programs.

The Marriage between Literature and Music Nick Ceramella, 2022-03-17 Music and literature have often been interconnected through the centuries. This is an intellectual and spiritual marriage between two artistic worlds, which are both part of a creative system that lends voice to one another. As this book argues, while music is one single form of expression, literature can be expressed in the form of either poetry or prose. However, they find their apotheosis, their most natural relationship, when poetry is set to music, especially when it is lyrical and has similar phrasing and rhythms to music. The book, thus, shows that music offers an additional perspective to literature, while the latter gives words to the feelings that the former arouses. As such, though both can stand alone, if put together, they form a complementary entity that everybody can enjoy.

Aesthetics and Experience in Music Performance Denis Collins, Klisala Harrison, Samantha Owens, 2008-12-11 Drawing upon a wide range of scholarly enquiry into early music, queer musicology, ethnomusicology, performance practice, music education and technology, *Aesthetics and Experience in Music Performance* provides a lively forum for the articulation of varied perspectives on the role of music, its interpretation and function in contexts supported by those who practice or experience it. The formal and shorter discussion papers included in this scholarly collection were presented at the National

Workshop of the Musicological Society of Australia, held at the University of Queensland, Brisbane in October 2003. The themes of aesthetics and experience are central to this publication and each paper engages in a scholarly dialogue on the technical, expressive and embodied aspects of performance. The papers included in this publication bring together the research of a wide community of scholars (e.g., musicologists, anthropologists, ethnomusicologists and linguists) working in the field of performance studies and collectively reflect the musicological issues being debated in Australia today.

Island Songs Godfrey Baldacchino, 2011-12-08 Islands are concentrated instances of place, in every sense of the term. As such, there are no better candidates for observing and critiquing the dynamics of globalization. Through the close analysis of musical performance and traditions, the scholarly contributors to *Island Songs* provide a global review of how island songs, their lyrics, and their singers engage with the challenges of modernity, migration, and social change, uncovering common patterns notwithstanding the diversity and local specificity of their subjects. In this musical exploration of the world of islands, a shared and deep sense of place is celebrated in song. This collection of essays is no less than a sonic narrative, an attempt to sing the inherent contradictions and paradoxical modalities of island lives today. Song lyrics, along with their accompanying music, can serve as a barometer of life and major cultural markers of change. *Island Songs* is a work of sonic anthropology that does more than probe song as a part of the sociocultural life on islands. It illuminates how song performs island life. Gathered here are 15 case study chapters on islands in the Caribbean, North Atlantic, Mediterranean, Baltic, and the South Pacific, all framed by four eclectic, conceptual essay contributions. In *Island Songs*, islands are presented as distinct vantage points for observing the merger of the local and the global, as poignantly expressed through song. This book brings together the perspectives and experiences of sociologists, anthropologists, geographers, cultural studies specialists, folklorists, ethnomusicologists, singers, and musicians. *Island Songs* will interest not only ethnomusicologists but any and all scholars interested in the effects of globalization on traditional cultures.

My Sugar Island Home Sophia Georgia Brown, 2021-08-05 The narrative is written in first person intertwined with snippets of Jamaican patois and Spanish. It describes an impactful childhood filled with excitement, devotion, and gladness comparable to none. The author expresses her appreciation living a simple life in the country with her impartial grandparents who adored her but never uphold her into wrongdoings. Within a short course of time, she lived and travelled between

parishes and highlighted the development and contours of Jamaica's economy, music industry, and social infrastructure. While recounting her narrative, she underlines the ideals of respect, values, and courtesy that perpetuated the cultural climate of Jamaica's society in the '70s, '80s, and early '90s. Within the same token, she thanked the Jamaican people for their unselfish and unconditional love that was noted in the maxim: "It takes a village to raise a child."

World Music: Latin and North America, Caribbean, India, Asia and Pacific Simon Broughton, Mark Ellingham, Richard Trillo, 2000 The Rough Guide to World Music was published for the first time in 1994 and became the definitive reference. Six years on, the subject has become too big for one book- hence this new two-volume edition. History, Geography and Civics John Buchanan, 2013-09-09 History, Geography and Civics Education provides an in-depth and engaging introduction to teaching and learning socio-environmental education. Island Musics Kevin Dawe, 2020-05-26 What does the music of Madagascar or Trinidad tell us about the islands themselves and their inhabitants? Is there something unique about island musics? How does island music differ from its mainland counterparts? Drawing on a range of diverse examples from around the globe, this book examines the culture of island music and offers insight into local identities. Case studies look at how music, tradition, popular culture and islander life are linked in modern maritime societies. The islands covered include Crete, Ibiza, Zanzibar, Trinidad, Cuba, Madagascar and Papua New Guinea. In revealing the current practice behind modern island musics, the book considers the role of world music, exotica, global tourism, novels and travel writing in constructing fanciful images of islanders and island life. Island Musics throws into question some of our most basic notions and assumptions about island societies. There are a number of problems common to all island societies that vary in significance depending on an island's size, demographics and its proximity to the mainland. Problems include remoteness and insularity, peripherality to centralized sites of decision-making, a limited range of natural resources, specialization of economics, small markets, a narrow skills base, poor infrastructure and environmental fragility. These issues are discussed in relation to the creation of music in the construction of an islander

identity. Of particular interest is the way in which islanders discuss their music and how it articulates the idea of the other and diaspora. Finally, Island Musics considers the musical industry, music education and the preservation of musical cultural heritage.

Music, Society, Agency Nancy November, 2024-02-20 Musicologists have increasingly taken a wide-angled lens on the study of music in society, to explore how it can be intertwined with issues of politics, gender, religion, race, psychology, memory, and space. Recent studies of music in connection with society take in a variety of musical phenomena from diverse periods and genres—medieval, classical, opera, rock, etc. This ten-chapter book not only asks how music and society are, and have been, intertwined and mutually influential, but it also examines the agents behind these connections: who determines musical cultures in society? Which social groups are represented in particular musical contexts? Which social groups are silenced or less well represented in music's histories, and why?

Entertainment Values Stephen Harrington, 2017-08-14 This collection brings together the work of a range of scholars from around the world with different perspectives on one simple question: How can we assess the value of various entertainment products and forms? Entertainment is everywhere. The industries that produce it earn billions of dollars each year and employ hundreds of thousands of people. Its pervasiveness means almost everyone has something to say about entertainment, too, whether it be our opinion on the latest Hollywood blockbuster, a new celebrity couple, or our concerns over its place in the world of politics. And yet, in spite of its significance, entertainment has too-often been dismissed with surprising ease within the academy as a 'mindless', 'lowbrow' – even 'dangerous' – form of culture, and therefore unworthy of serious appraisal (let alone praise). Entertainment Values, challenges this assumption, offering a better understanding of what entertainment is, why we should take it seriously, as well as helping us to appreciate the significant and complex impact it has on our culture.
