The Life of Learning Douglas Greenberg, Stanley N. Katz, 1994-06-02 Each year since 1983 the American Council of Learned Societies has invited one of America's leading scholars to deliver the Haskins Lecture, in honor of Charles Homer Haskins, a distinguished scholar and teacher who was instrumental in the founding of the ACLS. In this volume, which commemorates the 75th anniversary of the ACLS, Douglas Greenberg and Stanley Katz bring together the lectures presented by ten of America's most distinguished scholars. Each lecture is a personal and intellectual glimpse into the life of learning of such leading scholars as Maynard Mack, Annemarie Schimmel, and John Hope Franklin. The lectures focus on self-reflection of lives dedicated to learning, rather than on scholarship in the usual sense of the term. Ranging from being forced to learn Latin to painful memories of war and racism, the lecturers all recount stories from their eventful lives. Each offers thoughts on the body of work he or she has produced and the forces, personal and intellectual, that have shaped it. The scholars bring something of their disciplines to the lecture, sharing not only personal anecdotes but their love of learning.

Behind Bars - Britain's Most Notorious Prisoner Reveals What Life is Like Inside Charles Bronson, 2007-02-28 Charlie has taken his 24 years of experience of prison dwelling and condensed it into one handy and comprehensive volume. Moved regularly around the prisons of the British Isles he has sampled all that prison life has to offer, taking in both the historic and pre-historic buildings that comprise Britain's infamous prison system. It's all in here from the correct way to brew vintage prison 'hooch' and how to keep the screws from finding it, to the indispensable culinary methods required to make prison food edible. Read about Charlie's special taming techniques for prison wildlife such as spiders, rats and cockroaches, creatures that may be your only friends on long stretches in solitary. Also Charlie shows how to plan and prepare for marriage inside what can be seen as a less than romantic setting. With over 70,000 people (and rising) currently residing at Her Majesty's pleasure, Charlie Bronson's Good Prison Guide is essential for young offenders and 'old lags' alike. Make sure you don't get nicked without it.

The Prison Psychiatrist's Wife Sue Johnson, 2023-02-07 The Prison Psychiatrist's Wife is a gripping true story of a Herculean project as Sue Johnson's husband Bob, recruited to work with notorious offenders at Parkhurst Prison, sets out to discover whether he can change dangerous and violent men. What begins as a bold and enlightened experiment leads Dr Bob into clashes with prison culture and eventually to the High Court with threats to invoke the Official Secrets Act. From her

unique point of view as an unfettered outsider, the author casts a searingly moving eye onto the workings of our deepest dungeons and the politics that feed them. This book is an unforgettable account from the perspective of the unseen wife. A rare 'outsider' view of prison which casts new light on hidden events. Of wide professional, penal and general interest - a woman's voice in a strongly male setting. Reviews 'A tremendous book. A perspective that needs to be heard'— Oliver James, author, broadcaster and clinical psychologist. 'A rollercoaster ride of emotion, courage, and political chicanery ... I was held by the power of the narrative'— Dave Marteau, former Head of the Prison Drug Addiction Service. 'I was gripped ... a great read I would recommend to Prison Service colleagues'— Tim Newell, former Governor of HMP Grendon. 'Captivating and most beautifully written'— Jerome Carson, Professor of Psychology, University of Bolton. 'This is phenomenology... women's writing like Virginia Woolf'— Professor Emerita Eleanor Godway, Central Connecticut State University. 'I nearly stood up and clapped'— Andrew Holden, film and TV scriptwriter.

The Sinik's Sneezes Geoff Schultz, 2022-12-27 How do you form your opinions about various issues? Do you let others tell you how you ought to think or what your opinions ought to be? Or do you make an effort to learn as much as you can about an issue and make your own decisions about what seems to make the most sense to you? This book attempts to provide you with some sides of issues that are not usually presented in the schools or the media. For example: A publication of Planned Parenthood stated, "An abortion kills the life of a baby after it has begun." America is named in honor of a pickle peddler. "Two percent of the world's population - Americans - use 60 percent of the world's illicit drugs." Abigail Adams wrote in 1776, "If particular care and attention is not made to the Ladies we are determined to foment a Rebellion, and will not hold ourselves bound by any Laws in which we have no voice, or Representation." A 17 year psychological study came to the conclusion, "Crime is a moral problem." Margaret Sanger wrote: "[The poor and handicapped are] sinister forces of the hordes of irresponsibility and imbecility . . . [those less privileged in society are] a dead weight of human waste." Barry Goldwater pointed out, "A government that is big enough to give you all you want is big enough to take it all away." Benjamin Franklin wrote, "They that can give up essential liberty to purchase a little temporary safety, deserve neither liberty nor safety." Thomas Jefferson claimed that blacks would never be ready to be assimilated into a European type civilization. President Roosevelt said, "To educate a man in mind and not in morals is to educate a menace to society." "In the United States on May 20, 1895, income tax was declared unconstitutional." Charles Darwin stated, "I have tried lately to read Shakespeare, and found it so intolerably dull that it nauseated me." C. S. Lewis declared, "If you want a religion to make you feel really comfortable, I certainly don't recommend Christianity." Robert Heinlein said, "An armed society is a polite society." Hawaiian lava flows known to have happened around 1800 were dated by the potassium-argon method at up to 3 billion years old. "[t]he Gun Control Act of 1968 was passed not to control guns, but to control blacks." Albert Einstein said, "Science without religion is lame." "The Barbie doll is a scale model of a woman who tapes 39-23-33." "[T]he National

Association of Police Organization's report on averages of criminals' sentences: For burglary, 5.4 days. For auto theft, 3.8 days. For murder, 2.3 years." A young man received a university football scholarship yet couldn't multiply 9 times 6. Nikita Khrushchev said, "Politicians are the same all over. They promise to build a bridge where there is no river." Mao Tse-Tung wrote, "Every Communist must grasp the truth, 'Political power grows out of the barrel of a gun'." The Wall Street Journal reported that of the reported AIDS cases, homosexuals and intravenous drug users accounted for 83%. Thomas Jefferson stated, "I think we have more machinery of government than is necessary." Jesse L. Jackson said, "Your children need your presence more than your presents." John Marshall, Chief Justice wrote, "The power to tax involves the power to destroy." Mark Twain said, "All you need in this life is ignorance and confidence; then success is sure." An ancient philosophy said, "Children today are tyrants. They contradict their parents, gobble their food and tyrannize their teachers." "Although intellect and genetic characteristics may influence behavior, crime is a function of individual choice." "In 1658, the Virginia Legislature passed a law to expel all lawyers." An early white explorer said, "[Indians] have always been kinder to me than the whites." Louis Pasteur proved that the very basis of evolution is wrong. Charley Reese stated, "Gun control is not about guns or crime. It is about an elite that fears and despises the common people." The above and more are inside The Sinik's Sneezes.

The Apartment on Midwest Boulevard Joanne Edwards, 2021-03-22 The great experiment of the worldwide web of the internet has connected the world globally and recreated the world into a global village. The outcome of this experiment remains a mystery. A civilized and progressive society succeeds when it remains private. A savage and regressive society succeeds when it remains public and is governed by the laws of the tribe. Will artificial intelligence one day do all our thinking for us? The invention of the television was the world's first addiction to screens. And like the internet, is now open twenty-four, seven, every day of the year. Both inventions are used by societies in homes and businesses for entertainment, communication, information, and shopping. Now we live in the modern world of the digital age of handheld mobile devices of screens that are also open twenty-four, seven, every day of the year. We can now access entertainment, communication, information, and shopping while moving around in public places and riding metro buses and subways. The availability of screens has moved the global village to a more socially isolated global village rather than a more connected global village. Face to face conversations are becoming rarer simply because it is easier to use a screen. I have found myself to feel frightfully alone among a crowd of people who are looking at their handheld mobile devices while in public places and riding metro buses or subways. Physical diseases can be controlled or cured with medicines. The only cure for hopelessness, despair, and loneliness is human companionship, love, and a hug. Perhaps our modern lives have too many different pieces which are changing too fast for many of us to understand. A wise old owl lived in an oak; The more he saw, the less he spoke; The less he spoke, the more he heard; Why can't we all be like that bird? -Edward Hersey Richards

Weird World War: China Sean Patrick Hazlett, 2024-01-02 When the United States and China clash, the world will never be the same, especially when forces beyond reality threaten to intervene. What if the United States went to war with the People's Republic of China? How would these rivals fight for supremacy on land, sea, air, and across the stochastic streams of time? What wonder weapons would be unleashed? What horrors would emerge from the irradiated sludge of the South China Sea? What heroes would rise and forever change the course of history? Tread into the deepest and darkest dimensions of the multiverse, gaze through a kaleidoscope of fractured realities, and bear witness to the disturbing visions of World War III from today's greatest minds in science fiction, fantasy, and horror. Stories by: Larry Correia, Steve Diamond, David Drake, Nick Mamatas, Brian Trent, Martin L. Shoemaker, Blaine L. Pardoe, Kevin Andrew Murphy, Julian Michael Carver, D.J. Butler, David J. West, Sean Patrick Hazlett, Deborah A. Wolf, Stephen Lawson, Erica L. Satifka, Rob McMonigal, Brenda Clough, Kevin Ikenberry, Brad R. Torgersen, T.C. Self-Study and Diversity Deborah L. Tidwell, Linda Fitzgerald, 2006 Educators have a responsibility to address equity and access issues inherent in teaching. To that end, individual chapters address such areas of diversity as race, ethnicity, gender, disability, and power, as well as broader areas of social justice, multiculturalism, and ways of knowing. A Little Book of Unknowing Jennifer Kavanagh, 2015-03-27 What if the facts on which we base our lives are shown to be unreliable? What if our expectations are confounded? What if we let go of those assumptions and expectations? What if we let go of our familiar, habitual ways of thinking? What if we let go of the very need to know? Unknowing is at the centre of spiritual life. It is only by creating a space in which anything can happen that we allow God to speak; only by stepping back that we allow space for that unpredictable Spirit that brings us gifts beyond any of our imaginings... God dwells only where man steps back to give him room.

UNDERSTANDING HUMANITY - THE ALIGNMENT MIHAI ILIOI, 2025-06-18 Understanding Humanity – The Alignment Humanity's relentless quest for meaning and purpose stretches far beyond individual beliefs or the prevailing opinions of society. This journey is rooted in a profound paradox, one that is anchored in the timeless fabric of eternity. At its core lies an unseen, uncreated force, an essential energy that underpins every facet of our existence. Within the chambers of our human complete consciousness lies the ongoing battle of influence. The heart may send impulses of emotion, desire, or pain to the

mind, seeking immediate action. The spirit, on the other hand, seeks alignment, discernment, and divine timing. This creates tension within the self-consciousness, the interface where action is initiated. If the mind is not attuned to the spirit, it may default to fulfilling the heart's own demands, and in doing so, is bypassing the voice of divine wisdom." As sojourners in this temporary manifestation of existence, traversing the vast and majestic landscape of life, we are often confronted with profound questions: Who are we? Why are we here? What is the true meaning and purpose of our existence? Some of these questions may remain unanswered in our lifetimes, yet the journey itself; the search, the wonder, and the mysteries of life; should never cease to inspire us, to awaken our curiosity, and to fuel our deepest desires to seek and uncover truth. The power to freely express one's thoughts is a real transformative force; one that shapes history, ignites change, and empowers humanity. It is the catalyst for innovation, the foundation of wisdom, and the resounding voice of the human spirit yearning to be heard. This book stands as a testament to the courage required to voice one's innermost beliefs, to challenge the status quo, and to inspire others to seek their own truths. To all who embark on the journey of understanding humanity, this book is yours. With heartfelt gratitude to all my readers, your reflections, insights, and feedback are deeply valued and appreciated. Sincerely, Mihai Ilioi
