Shari J. Stenberg,Charlotte Hogg

Awakening Nathaniel Frank,2017-04-24 Some of the most divisive contests shaping the quest for marriage equality occurred not on the culture-war front lines but within the ranks of LGBTQ advocates. Nathaniel Frank tells the dramatic story of how an idea that once seemed unfathomable—and for many gays and lesbians undesirable—became a legal and moral right in just half a century.

Arab Awakening and Islamic Revival Martin Kramer,2017-07-05 Over the past decade, the political ground beneath the Middle East has shifted. Arab nationalism the political orthodoxy for most of this century has lost its grip on the imagination and allegiance of a new generation. At the same time, Islam as an ideology has spread across the region, and Islamists bid to capture the center of politics. Most Western scholars and experts once hailed the redemptive power of Arabism. Arab Awakening and Islamic Revival is a critical assessment of the contradictions of Arab nationalism and Islamic fundamentalism, and the misrepresentation of both in the West.The first part of the book argues that Arab nationalism--the so-called Arab awakening--bore within it the seeds of its own failure. Arabism as an idea drew upon foreign sources and resources. Even as it claimed to liberate the Arabs from imperialism it deepened intellectual dependence upon the West's own romanticism and radicalism. Ultimately, Arab nationalism became a force of oppression rather than liberation, and a mirror image of the imperialism it defied. Kramer's essays together form the only chronological telling and the at fully documented postmortem of Arabism. The second part of the book examines the similar failings of Islamism, whose ideas are Islamic reworkings of Western ideological radicalism. Its effect has been to give new life to old rationales for oppression, authoritarianism, and sectarian division.Arab Awakening and Islamic Revival provides an alternative view of a century of Middle Eastern history. As the region moves fitfully past ideology, Kramer's perspective is more compelling than at any time in the past--in Western academe no less than among many in the Middle. This book will be of interest to sociologists, political scientists, economists, and Middle East specialists.

Awakening to Radical Islamist Evil Monty Noam Penkower,2025-02-11 This volume offers the first daily account of the war forced upon the State of Israel by Hamas's brutal attack on its southern communities near the Gaza Strip on October 7, 2023. Focusing on the initial six months of that war, Professor Monty Penkower examines in detail its local, regional, and international significance. Joining extensive research and a limpid prose, as in his many other books on modern Jewish

history, this prize-winning historian again displays a definitive mastery of his craft.

Scroll Or the Sword ? Cohen,2014-01-02 First Published in 1997. The title of this book is derived from an ancient Jewish teaching, attributed to a certain Rabbi Eleazar of Modi'in, who lived in the land of Israel during the third century of the common era. As far as we know, Rabbi Eleazar was the first sage to take homiletic advantage of the alliteration of safra and saifa, Aramaic terms which literally translate (respectively) as 'a scroll' and 'a sword'. A plain reading of this text leaves no doubt that its author intended to project a figurative contrast between two distinct spheres of human endeavour.

Salafism in Lebanon Robert G. Rabil,2014-09-26 Salafism, comprised of fundamentalist Islamic movements whose adherents consider themselves the only “saved” sect of Islam, has been little studied, remains shrouded in misconceptions, and has provoked new interest as Salafists have recently staked a claim to power in some Arab states while spearheading battles against “infidel” Arab regimes during recent rebellions in the Arab world. Robert G. Rabil examines the emergence and development of Salafism into a prominent religious movement in Lebanon, including the ideological and sociopolitical foundation that led to the three different schools of Salafism in Lebanon: quietist Salafists, Haraki (active) Salafists; and Salafi Jihadists. Emphasizing their manhaj (methodology) toward politics, the author surveys Salafists’ ideological transformation from opponents to supporters of political engagement. Their antagonism to Hezbollah, which they denounce as the party of Satan, has risen exponentially following the party’s seizure of Beirut in 2008 and support of the tyrannical Syrian regime. Salafism in Lebanon also demonstrates how activists and jihadi Salafists, in response to the political weakness of Sunni leadership, have threatened regional and international security by endorsing violence and jihad. Drawing on field research trips, personal interviews, and Arabic primary sources, the book explores the relationship between the ideologies of the various schools of Salafism and their praxis in relation to Lebanese politics. The book should interest students and scholars of Islamic movements, international affairs, politics and religion, and radical groups and terrorism.

Building the Nation Heather Selma Gregg, 2018-12-01 *Building the Nation* draws from foreign-policy reports and interviews with U.S. military officers to investigate recent U.S.-led efforts to "nation-build" in Iraq and Afghanistan. Heather Selma Gregg argues that efforts to nation-build in both countries focused more on what should be called state-building, or how to establish a government, rule of law, security forces, and a viable economy. Considerably less attention was paid to what might truly be called nation-building—the process of developing a sense of shared identity, purpose, and destiny among a population within a state's borders and popular support for the state and its government. According to Gregg, efforts to stabilize states in the modern world require two key factors largely overlooked in Iraq and Afghanistan: popular involvement in the process of rebuilding the state that gives the population ownership of the process and its results and efforts to foster and strengthen national unity. Gregg offers a hypothetical look at how the United States and its allies could have used a population-centric approach to build viable states in Iraq and Afghanistan, focusing on initiatives that would have given the population buy-in and agency. Moving forward, Gregg proposes a six-step program for state and nation-building in the twenty-first century, stressing that these efforts are as much about how state-building is done as they are about specific goals or programs.

Shared Destiny Geremie R Barmé, Linda Jaivin, Jeremy Goldkorn, 2015-11-05 Humanity as never before shares a common destiny, whether it be in terms of the resources of the planet, the global environment, economic integration, or the movement of peoples, ideas, cultures. For better or worse humankind is a Community of Shared Destiny ??????. The People's Republic of China under the leadership of the Chinese Communist Party and its 'Chairman of Everything', Xi Jinping, has declared that it shares in the destiny of the countries of the Asia and Pacific region, as well as of nations that are part of an intertwined

national self-interest. The Party, according to Marxist-Leninist-Maoist theory, is the vanguard of progressive social forces; it cleaves to the concept of shared destiny and its historical role in shaping that destiny. Since its early days nearly a century ago it has emphasised the collective over the individual, the end rather than the means. It addresses majority opinion while guiding and moulding the agenda both for today, and for the future.

Screening Cuba Hector Amaya, 2010-09-09 Hector Amaya advances into new territory in Latin American and U.S. cinema studies in this innovative analysis of the differing critical receptions of Cuban film in Cuba and the United States during the Cold War. Synthesizing film reviews, magazine articles, and other primary documents, *Screening Cuba* compares Cuban and U.S. reactions to four Cuban films: *Memories of Underdevelopment*, *Lucia*, *One Way or Another*, and *Portrait of Teresa*. In examining cultural production through the lens of the Cold War, Amaya reveals how contrasting interpretations of Cuban and U.S. critics are the result of the political cultures in which they operated. While Cuban critics viewed the films as powerful symbols of the social promises of the Cuban revolution, liberal and leftist American critics found meaning in the films as representations of anti-establishment progressive values and Cold War discourses. By contrasting the hermeneutics of Cuban and U.S. culture, criticism, and citizenship, Amaya argues that critical receptions of political films constitute a kind of civic public behavior.

Persuasive Acts Shari J. Stenberg, Charlotte Hogg, 2020-03-03 In June 2015, Bree Newsome scaled the flagpole in front of South Carolina's state capitol and removed the Confederate flag. The following month, the Confederate flag was permanently removed from the state capitol. Newsome is a compelling example of a twenty-first-century woman rhetor, along with bloggers, writers, politicians, activists, artists, and everyday social media users, who give new meaning to Aristotle's ubiquitous definition of rhetoric as the discovery of the "available means of persuasion." Women's persuasive acts from the first two decades of the twenty-first century include new technologies and repurposed old ones, engaged not only to persuade, but also to tell their stories, to sponsor change, and to challenge cultural forces that repress and oppress.

Persuasive Acts: Women's Rhetorics in the Twenty-First Century gathers an expansive array of voices and texts from well-known figures including Hillary Rodham Clinton, Malala Yousafzai, Michelle Obama, Lindy West, Sonia Sotomayor, and Chimamanda Ngozi Adichie, so that readers may converse with them, and build rhetorics of their own. Editors Shari J. Stenberg and Charlotte Hogg have compiled timely and provocative rhetorics that represent critical issues and rhetorical affordances of the twenty-first century.

Religious Responses to Sex Work and Sex Trafficking Lauren McGrow, 2022-08-01 This book examines the history, theological beliefs and current contextual practices of faith-based NGOs who work in the area of human trafficking that involves the sex industry. There are hundreds of religious organizations around the globe who minister with human trafficking survivors and sex workers, but what is really happening on the ground and how do theological beliefs support a faith-based response? Many of these groups represent their work as a cosmic battle against evil forces, yet important structural critiques are ignored in the urgency to rescue women and children. Using perspectives from both NGO staff and sex workers, an interdisciplinary panel of contributors examine specific organizations, highlight marginalized voices, and analyze undergirding methodologies. In doing so, the authors provide clear critiques and establish best practice guidelines for faith-based NGOs and future religious leaders, affirming an intersection of justice based upon critical reflection and careful action. This book addresses with nuance an important topic that is often over-simplified. It will, therefore, be of great interest to scholars studying the interaction of religion to sex work and human trafficking, as well as academics of religious studies and theology more generally.
