**The Holy Koran of The Moorish Science Temple of America** Divinely Prepared by the Noble Prophet Drew Ali,2019-10-08 The Prophet Noble Drew Ali has spent many hours preparing the latest edition of the Koran, which will be a masterpiece of Religious Literature. To Americanize the Oriental idea of Islam involves many changes that are more or less negative to the main purpose of the Islamic Religion. Such changes are carefully considered with the idea to avoid changing the complexion of the original text.

**Elijah Muhammad and Islam** Herbert Berg,2009-03-01 Elijah Muhammad is arguably the most significant figure in the history of Islam in the United States. Successor to W. D. Fard, the founder of the Nation of Islam, and a mentor to Malcolm X, Elijah Muhammad led the Nation of Islam for over forty years. In *Elijah Muhammad and Islam*, Herbert Berg focuses on Elijah Muhammad's religiosity, which is frequently brought into question as the authenticity of the Nation of Islam as truly Islamic remains hotly debated. To better comprehend this powerful and controversial figure, Berg contextualizes Elijah Muhammad and his religious approach within the larger Islamic tradition, exploring his use of the Qur'an, his interpretation of Islam, and his relationships with other Muslims. Above all, Berg seeks to understand—not define or label—Muhammad as a Muslim. To do otherwise, he argues, is to misunderstand and distort the man, his teachings, his movement, and his legacy.

*Black Crescent* Michael A. Gomez, 2005-03-21 Beginning with Latin America in the fifteenth century, this book, first published in 2005, is a social history of the experiences of African Muslims and their descendants throughout the Americas, including the Caribbean. The record under slavery is examined, as is the post-slavery period into the twentieth century. The experiences vary, arguably due to some extent to the Old World context. Muslim revolts in Brazil are also discussed, especially in 1835, by way of a nuanced analysis. The second part of the book looks at the emergence of Islam among the African-descended in the United States in the twentieth century, with successive chapters on Noble Drew Ali, Elijah Muhammad, and Malcolm X, with a view to explaining how orthodoxy arose from varied unorthodox roots.

**Five Percenter Rap** Felicia M. Miyakawa, 2005 Hip-hop evangelism--a compelling look at a rap subgroup that explores its musical, social, and political contexts.

Moorish Circle 7 Keith Moore 32, 2005-05-04 This book is based on the theory that the black Muslim movement was created from the knowledge of the Masonic order. In the early decades of the 20th century, noble drew ali established a political and religious organization known today as the Moorish Science Temple of America. It was this organization that exposed black to something other than the normal Christian influences of that day. Ali a high degree freemason, incorporated various Masonic teachings from an auxiliary group. Known as the AEAONMS ancient Egyptian Arabic order of noble of the mystic shrine A pseudo Islamic/Arabic oriental organization that served as a wake up call to a lost knowledge. A knowledge that was taken away from Africans during the slave trades. The theory behind this book is that the majority of the slaves that were taken from the west coast of Africa were practicing Muslims, and these Muslims were forced to convert to Christianity under the strong oppression of slavery. At one time Afro-Americans were the biggest minority in the American society. About 90% of the todays population of blacks are descendants of slaves that were brought to America for working on plantations since the 16th century. At the beginning of the 19th century most of the so-called Negroes lived in the plantation areas of the Southern States. After the Civil War and the abolition of slavery it wasnt until the early 1920s and 30s that blacks were beginning to experiment with other faiths. Of all the faiths Islam became the fastest growing religion and the most popular. This book by far is in no way a research into black history, instead it covers a more deeper aspect of history in which I call the history behind the history. It explores the true Asiatic origins of the ancient religions of Hinduism, Buddhism well as the

Islamic faith. Finally It explores the Masonic symbolisms of alis Moorish science dogma digging deeper into the esoteric side of his Aquarian/Masonic teaching explaining their origins and discovering an age old wisdom that had been kept hidden from the human eye. One would think that Africans in the Americas would have rejected the religious tradition of their European oppressors taking into consideration that African religions are far older & they possess more sources of knowledge & spiritual salvation. Yet there are those who have turned away from traditional Christian dominated environments in order to find a greater understanding of themselves and the world in which they live. One alternative has been to seek knowledge in the various religious groups that arose in the 20th century.

New World A-Coming Judith Weisenfeld, 2017-02-07 Albert J. Raboteau Prize, Best Book in Africana Religions: "Impeccably researched . . . paints a colorful picture of religious diversity among Black people." —Journal of Africana Religions When Joseph Nathaniel Beckles registered for the draft in 1942, he rejected the racial categories presented to him and persuaded the registrar to cross out the check mark she had placed next to Negro and substitute "Ethiopian Hebrew." "God did not make us Negroes," declared religious leaders in black communities of the early twentieth-century urban North. They insisted that so-called Negroes are, in reality, Ethiopian Hebrews, Asiatic Muslims, or raceless children of God. Rejecting conventional American racial classification, many black southern migrants and immigrants from the Caribbean embraced these alternative visions of black history, racial identity, and collective future, thereby reshaping the black religious and racial landscape. Focusing on the Moorish Science Temple, the Nation of Islam, Father Divine's Peace Mission Movement, and a number of congregations of Ethiopian Hebrews, Judith Weisenfeld argues that the appeal of these groups lay not only in the new religious opportunities membership provided, but also in the novel ways they formulated a religio-racial identity. Arguing that members of these groups understood their religious and racial identities as divinely ordained and inseparable, the book examines how this sense of self shaped their conceptions of their bodies, families, religious and social communities, space and place, and political sensibilities. Drawing on extensive archival research and incorporating a rich array of sources to highlight the experiences of average members, the book demonstrates that the efforts by members of these movements to contest conventional racial categorization contributed to broader discussions in black America about the nature of racial identity and the collective future of black people that still resonate today. "A masterful work of religious history . . . a significant contribution to the study of religious narratives and their role in shaping African-American identity and community in the past and the present." —Journal for the Scientific Study of Religion

*Reading and Writing Scripture in New Religious Movements* E. Gallagher, 2014-07-24 New religious movements both read the Bible in creative ways and produce their own texts that aspire to scriptural status. From the creation stories in Genesis and the Ten Commandments to the life of Jesus and the apocalypse, they develop their self-understandings through reading and writing scripture.

The Bible in American Life Philip Goff, Arthur E. Farnsley II, Peter J. Thuesen, 2017-03-01 There is a paradox in American Christianity. According to Gallup, nearly eight in ten Americans regard the Bible as either the literal word of God or inspired by God. At the same time, surveys have revealed gaps in these same Americans' biblical literacy. These discrepancies reveal the complex relationship between American Christians and Holy Writ, a subject that is widely acknowledged but rarely investigated. The Bible in American Life is a sustained, collaborative reflection on the ways Americans use the Bible in their personal lives. It also considers how other influences, including religious communities and the Internet, shape individuals' comprehension of scripture. Employing both quantitative methods (the General Social Survey and the National Congregations Study) and qualitative research (historical studies for context), The Bible in American Life provides an unprecedented perspective on the Bible's role outside of worship, in the lived religion of a broad cross-section of Americans both now and in the past. The Bible has been central to Christian practice, and has functioned as a cultural touchstone. From the broadest scale imaginable, national survey data about all Americans, down to the smallest details, such as the portrayal of Noah and his ark in children's Bibles, this book offers insight and illumination from scholars across the intellectual spectrum. It will be useful and informative for scholars seeking to understand changes in American Christianity as well as clergy seeking more effective ways to preach and teach about scripture in a changing environment.

**Islamic Studies Today: Essays in Honor of Andrew Rippin** Majid Daneshgar, Walid Saleh, 2016-12-20 Islamic Studies Today: Essays in Honor of Andrew Rippin, is a collection of essays on the Qur'ān, qur'anic exegesis, the early history of Islam, the relationship of the qur'anic text to writings from other religious traditions, and the use of the Qur'ān in modern discussions and debates. Its scope is medieval and modern contexts and it covers regions right across the Muslim world. The essays are based on and reflect Rippin's broad interests and methodological innovations; his studies of text transmissions, hermeneutical studies of the Qur'ān; careful unpacking of the complex relations between qur'anic exegesis and historical contexts; and exploring potential new methodologies for future research. With contributions by: Herbert Berg, Stefano Bigliardi, Majid Daneshgar, Bruce Fudge, Claude Gilliot, Andreas Görke, Feras Hamza, Gerald Hawting, Aaron W. Hughes, Tariq Jaffer, Marianna Klar, Jane McAuliffe, Arnold Yasin Mol, Angelika Neuwirth, Gordon Nickel, Johanna Pink, Michael E. Pregill, Gabriel S. Reynolds, Peter G. Riddell, Walid A. Saleh, Nicolai Sinai, Roberto Tottoli

**Global Garveyism** Ronald J. Stephens, Adam Ewing, 2024-10-15 Illuminating the global impact of Marcus Garvey's Black nationalist philosophy. Arguing that the accomplishments of Jamaican activist Marcus Garvey and his followers have been marginalized in narratives of the Black freedom struggle, this volume builds on decades of overlooked research to reveal the profound impact of Garvey's post-World War I Black nationalist philosophy around the globe and across the twentieth century. These essays point to the breadth of Garveyism's spread and its reception in communities across the African diaspora, examining the influence of Garvey's Universal Negro Improvement Association (UNIA) in Africa, Australia, North

America, and the Caribbean. They highlight the underrecognized work of many Garveyite women and show how the UNIA played a key role in shaping labor unions, political organizations, churches, and schools. In addition, contributors describe the importance of grassroots efforts for expanding the global movement—the UNIA trained leaders to organize local centers of power, whose political activism outside the movement helped Garvey’s message escape its organizational bounds during the 1920s. They trace the imprint of the movement on long-term developments such as decolonization in Africa and the Caribbean, the pan-Aboriginal fight for land rights in Australia, the civil rights and Black Power movements in the United States, and the radical pan-African movement. Rejecting the idea that Garveyism was a brief and misguided phenomenon, this volume exposes its scope, significance, and endurance. Together, contributors assert that Garvey initiated the most important mass movement in the history of the African diaspora, and they urge readers to rethink the emergence of modern Black politics with Garveyism at the center. **Atlantic Crescent** Alaina M. Morgan, 2025-07-29 In the period between the twentieth century’s two world wars, Black and Muslim people from the United States, South Asia, and the Caribbean collided across an expansive diasporic geography. As these people and their ideas came into contact, they reignited the practice of Islam among people of African descent living in the United States and the Anglophone Caribbean and prompted them to adopt new understandings of their place in the world. As the freedom dreams of these diasporic communities met the realities and limitations of colonialism and race in the Atlantic world, Islam presented new strategies for combating oppression and introduced new allies in the struggle. Envisioning the geography and significance of this encounter within what she calls the Atlantic Crescent, Alaina M. Morgan draws on an expansive archive to show how Black and Muslim people imagined, understood, and acted on their religious and racial identities. Morgan reveals how her subjects’ overlapping diasporic encounters with Islam led to varied local adaptation as well as common ground to pursue liberation from racial subjugation and white supremacy.

**Routledge Handbook of Islam in the West** Roberto Tottoli, 2022-02-21 With new topics and contributions, this updated second edition discusses the history and contemporary presence of Islam in Europe and America. The book debates the relevance and multi-faceted participation of Muslims in the dynamics of Western societies, challenging the changing perception on both sides. Collating over 30 chapters, written by experts from around the world, the volume presents a wide range of perspectives. Case studies from the Muslim presence in the Iberian Peninsula between the Middle Ages and the modern age set off the Handbook, along with an outline of Muslims in America up to the twentieth century. The second part covers concepts around new conditions in terms of consolidating identities, the emergence of new Muslim actors, the appearance of institutions and institutional attitudes, the effects of Islamic presence on the arts and landscapes of the West,

and the relational dynamics like ethics and gender. Exploring the influence of Islam, particularly its impact on society, culture and politics, this interdisciplinary volume is a key resource for policymakers, academics and students interested in the history of Islam, religion and the contemporary relationship between Islam and the West.

Elijah Muhammad Herbert Berg, 2013-10-01 Almost four decades after his death Elijah Muhammad (1897-1975) remains by far the most influential African American Muslim. Leader of the Nation of Islam movement for over thirty years and a mentor to Malcolm X, Muhammad was responsible for introducing hundreds of thousands of African Americans to Islam. In this fascinating biography Herbert Berg assesses the impact of Muhammad's unique and intriguing perspective on Islam, and seeks to understand why he formulated it. Careful to consider Muhammad's career within the context of the significant racial tensions of his time, this volume investigates a figure whose formulation of Islam, however divisive, forced Muslims and scholars alike to evaluate their often normative definitions of this religious tradition.

**New Religions** Eugene V. Gallagher, Lydia Willsky-Ciollo, 2021-02-15 A valuable resource for students and general audiences, this book provides a unique global perspective on the history, beliefs, and practices of emergent faith communities; new religious traditions; and religious movements worldwide, from the 19th century to the present. *New Religions: Emerging Faiths and Religious Cultures in the Modern World* provides insightful global perspectives on the emergent faith communities and new traditions and movements of the last two centuries. Readers will gain access to the information necessary to explore the significance, complexities, and challenges that modern religious traditions have faced throughout their history and that continue to impact society today. The work identifies the themes and issues that have often brought new religions into conflict with the larger societies of which they are a part. Coverage includes new religious groups that emerged in America, such as the Seventh-day Adventists, the Latter-day Saints, and the Jehovah's Witnesses; alternative communities around the globe that emerged from the major Western and Eastern traditions, such as Aum Shinrikyo and Al-Qaeda; and marginalized groups that came to a sudden end, such as the Peoples Temple, Heaven's Gate, and the Branch Davidians. The entries highlight thematic and broader issues that run across the individual religious traditions, and will also help students analyze and assess the common difficulties faced by emergent religious communities.

The Preeminence of Christ and the Motherland Religions Delores A. Vaughan, 2005-02 An unexamined belief is a worthless belief. That is why the effectiveness of Christian Apologetics is so vital to the Church, informing them of the dangers of Cults, the real enemy within our midst.
