Experiencias sobre la propiedad temperatura Rodolfo Acevedo Chávez,María Eugenia Costas Basín,2024-05-22 La propiedad de estado temperatura forma parte del edificio de la Termodinámica. Es también una de las propiedades fundamentales de la materia, en sus diferentes formas asociativas y organizativas. La caracterización anterior justifica el estudio de su medición elemental. La colección de experimentos que conforma el dossier presente, pretende contribuir a dicho estudio. Los experimentos fueron diseñados, articulados y ejecutados en un laboratorio convencional. Aunque cada uno de los experimentos es independiente, la secuencia en que se presentan aspira a seguir un orden ascendente de integración conceptual y operacional. De esta forma, la meta es que un ejecutante interesado pueda adquirir las herramientas conceptuales y operacionales, no sólo en la medición de dicha propiedad, sino incluso en la construcción y verificación de un instrumento de medición, como lo es un sistema termométrico.
