Spaces of Masculinities Kathrin Hörschelmann, Bettina van Hoven, 2013-03-07 Changing circumstances in Western and global societies have introduced new constraints and opportunities for men and the formation of male identities. Meanwhile, the emerging diversity of 'atypical' identities ('atypical' when compared with traditional conceptions of middle-class, white, heterosexual men) poses new challenges for the production and use of spaces. *Spaces of Masculinities* provides a comprehensive introduction to the innovative and diverse research on spaces of masculinity. Drawing on a variety of geographical research projects, the central concern of the book is to highlight the significance of research on masculinity in sociological and geographical work dealing with constructions of gender.

Tattoo Culture Lee Barron, 2017-05-31 Tattoos are a highly visible social and cultural sight, from TV series that represent the lives of tattoo artists and their interactions with clients, to world-class sports stars and the social actors we meet on a daily basis who display visible tattoo designs. Whereas in the not-to-distant past tattoos were commonly culturally perceived to represent an outward sign of social non-conformity or even deviance, tattoos now increasingly transcend class, gender, and age boundaries and arguably are now more culturally acceptable than they have ever been. But why is this the case, and why do so many social actors elect to wear tattoos? *Tattoo Culture* explores these questions from historical, cultural and media perspectives, but also from the heart of the culture itself, from the dynamics of the tattoo studio, the work of the artist and the world of the tattoo convention, to the perspective of the social actors who bear designs to investigate the meanings which lie behind the images. It critically examines the ways in which tattoos alter social actors' sense of being and their relationship with time in the semiotic ways with which they communicate, to themselves or to the wider world, key elements of their bodily and personal identity and sense of being.

Inked: Tattoos and Body Art around the World Margo DeMello, 2014-05-30 In recent decades, tattoos have gone from being a subculture curiosity in Western culture to mainstream and commonplace. This two-volume set provides broad coverage of tattooing and body art in the United States today as well as around the world and throughout human history. In the 1960s, tattooing was illegal in many parts of the United States. Today, tattooing is fully ingrained in mainstream culture and is estimated to be a multi-billion-dollar industry. This exhaustive work contains approximately 400 entries on tattooing, providing historical information that enables readers to fully understand the methods employed, the meanings of, and the

motivations behind tattooing—one of the most ancient ways humans mark themselves. The encyclopedia covers all important aspects of the topic of tattooing: the major types of tattooing, the cultural groups associated with tattooing, the regions of the world where tattooing has been performed, the origins of modern tattooing in prehistory, and the meaning of each society's use of tattoos. Major historical and contemporary figures associated with tattooing—including tattooists, tattooed people, and tattoo promoters—receive due attention for their contributions. The entries and sidebars also address the sociological movements involved with tattooing; the organizations; the media dedicated to tattooing, such as television shows, movies, magazines, websites, and books; and the popular conventions, carnivals, and fairs that have showcased tattooing.

Tattoos in American Visual Culture M. Fenske, 2007-11-26 In analyses of tattoo contests, advertising, and modern primitive photographs, the book shows how images of tattooed bodies communicate and disrupt notions of gender, class, and exoticism through their discursive performances. Fenske suggests working within dominant discourse to represent and subvert oppressive gender and class evaluations.

Melville's Anatomies Samuel Otter, 1999-03-05 In fascinating new contextual readings of four of Herman Melville's novels—Typee, White-Jacket, Moby-Dick, and Pierre—Samuel Otter delves into Melville's exorbitant prose to show how he anatomizes ideology, making it palpable and strange. Otter portrays Melville as deeply concerned with issues of race, the body, gender, sentiment, and national identity. He articulates a range of contemporary texts (narratives of travelers, seamen, and slaves; racial and aesthetic treatises; fiction; poetry; and essays) in order to flesh out Melville's discursive world. Otter presents Melville's works as inside narratives offering material analyses of consciousness. Chapters center on the tattooed faces in Typee, the flogged bodies in White-Jacket, the scrutinized heads in Moby-Dick, and the desiring eyes and eloquent, constricted hearts of Pierre. Otter shows how Melville's books tell of the epic quest to know the secrets of the human body. Rather than dismiss contemporary beliefs about race, self, and nation, Melville inhabits them, acknowledging their appeal and examining their sway. Meticulously researched and brilliantly argued, this groundbreaking study links Melville's words to his world and presses the relations between discourse and ideology. It will deeply influence all future studies of Melville and his work.

Criminal Subculture in the Gulag Mark Vincent, 2020-05-14 Despite growing academic interest in the Gulag, our knowledge of the camps as a lived experience remains relatively incomplete. *Criminal Subculture in the Gulag*, in its sophisticated analysis of crime, punishment and everyday life in Soviet labour camps, rectifies this. From Gulag journals and song collections to tattoo drawings and dictionaries of slang, Mark Vincent draws on often-overlooked archival material from the Moscow Criminological Bureau to reconstruct a fuller picture of Gulag daily life and society. In thematic chapters, Vincent maps the Gulag 'penal arc' of prisoners across initiation tests, means of communication, the importance of card playing, punishment rituals and the notorious 1948-52 *cyka* ('bitches') internal prison war between military veterans and *vory-v-zakone*. Most importantly, this timely examination of crime and punishment in modern Russia also highlights the lines of continuity between the Gulag systems, late Imperial *Katorga*, and today's Russian mafia. As such, this impressively interdisciplinary volume is important reading for all scholars of 20th-century Russia as well as those interested in international criminality and penology.
