Ruins of Symbaroum ,2019 The Monster Codex makes the settlements, woods and vales of the Davokar region more dangerous than ever before! More than a hundred creatures, monsters and abominations are crammed together between these covers - some of them well known, others only mentioned in legends and fairy tales; some unstoppably hungry, others open to negotiations; some presented in detail, others with only short descriptions. Combined with the guidelines on how to create creatures of your own, the content of this bestiary should provide material for hundreds of hours at the gaming table! Inside this book, you'll find: More than thirty fully described and illustrated creatures with the potential to be at the center of unique adventures and challenges in Symbaroum.

The sword quivered in his hand, hungering for tainted flesh and blood. Soon my dear, soon, he whispered. For this enemy, simpler steel will do. He put the hallowed sword back in its scabbard and drew the shorter blade that had belonged to his sister. Soon he lunged through the forest, with Strigi soaring at his side. The first enemy fell before any of the cultists realized that the avenger had come.
