Drug Trafficking in Mexico and the United States Gabriel Ferreyra, 2020-06-22 Gabriel Ferreyra presents a comprehensive analysis of drug trafficking in Mexico and the United States by examining the roots, development, consolidation, and cultural ramifications of this phenomenon in the past century as well as its negative consequences in contemporary Mexico. Ferreyra discusses the most devastating effects correlated to drug trafficking such as high murder rates, gruesome violence, disappearances, and mass graves to emphasize how Mexican society bears the brunt of this phenomenon while the United States insists on the futility of drug prohibition. Unlike other publications, this book provides an interdisciplinary social science approach where drug trafficking is conceptualized as a multifaceted social, political, economic, and cultural problem, rather than just a criminal justice issue. Drug Trafficking in Mexico and the United States also revisits the war on drugs and provides an argument how drug control is the primary force behind drug trafficking. In that respect, there is an analysis on how the DEA has reinforced the war on drugs model and why it became a reactionary agency that opposes any comprehensive alternative to the American drug problem besides drug control. The author concludes with recommendations to implement forward-thinking measures such as decriminalization, reclassification, and legalization of drugs to effectively address the illicit drug trade.

When I Wear My Alligator Boots Shaylih Muehlmann, 2013-11-09 This book tells the story of the poor, often indigenous workers living in the borderlands who are recruited to work in the lowest echelons of the drug trade, as *burreros* (mules) and *narcotraficantes* (traffickers). Shayleh Muehlmann spent over a year researching in a small community in the borderlands. This book brings her stories to a wider public, narrating the experiences of a group of indigenous fishermen in northern Mexico who have become involved in the drug trade, and exploring how the narco-economy has provided a reprieve for men and women attempting to survive while their primary form of livelihood, fishing, has been criminalized by the state because of its alleged negative environmental impact. The book examines the rise of narcotrafficking as one of the economic alternatives sought by local people and how this work is seen by many as a way of resisting forms of domination imposed on them by both the Mexican and U.S. governments. Muehlmann explores a tension at the heart of the war on drugs. For many men and women living in poverty, the narco-economy represents an alternative to the exploitation and alienation they experience trying to work in the borderland's legal economy which has been increasingly dominated by the presence of U.S.-owned *maquiladoras* (assembly plants) and ravaged by environmental degradation. Despite the lawlessness and violence of the cartels and the ruinous consequences this process has had for some of the most vulnerable people involved, narcotrafficking represents one of the few promises of upward mobility for the indigenous poor in Mexico's north. --Provided by publisher.

Feminicidio y principales delitos de violencia contra las mujeres que le anteceden Blanca Ivonne Olvera Lezama, 2024-11-15 ¿Cuáles son los instrumentos internacionales que inciden en la normatividad mexicana que regulan la violencia contra las mujeres? ¿Qué tipos y modalidades de violencia contra las mujeres establece la Ley General de Acceso de las Mujeres a una Vida Libre de Violencia? ¿Qué tipos de violencia en materia penal se contemplan como agravantes y/o razones de género en los delitos que constituyen violencia contra las mujeres? ¿Qué explica el incremento de los índices delictivos registrados por el Secretariado Ejecutivo del Sistema Nacional de Seguridad Pública en delitos de violencia contra las mujeres? La respuesta a estas y otras preguntas las encontrará el lector en la presente obra, así como un análisis dogmático de los delitos de acoso, hostigamiento sexual, violación, violencia familiar, cómo estos se relacionan y en ocasiones anteceden al delito de feminicidio. El objetivo de esta obra es constituir una herramienta de consulta que contribuya al esclarecimiento de las investigaciones de los delitos de violencia de género, y la más grave de todas: la violencia feminicida.

Green Crime in the Global South David R. Goyes, 2023-06-24 This book presents a socio-criminological study of environmental crime in the global South. It gathers contributors from all the regions of the geographical global South (Africa, Asia, Oceania, and Latin America) to discuss instances of environmental crime and conflict. Overall, it seeks to further decolonise the knowledge production of green criminology. It considers the legacy of colonisation, North-South and the core-periphery divides in the production of environmental crime, the epistemological contributions of the marginalised, impoverished, and oppressed, and the unique contexts of the global South. This book has three sections: drivers of green crime in the global South; responses to environmental harm in the global South; and global dialogues about crime and destruction in the global South. The first two sections represent the breadth of the topics that green criminologists have historically studied but from unique perspectives. The third section explores ethical and decolonial ways for Southern green criminology to collaborate with Western academia. This book speaks to scholars in criminology, political ecology, decolonial theory, along with the many readers interested in the interactions between humans and nature.

La violencia de género desde un enfoque multidisciplinario Diana Molina, Andrea Casanova, Jimena Cardona, Ana Negrete, 2019-04-09 En este libro se parte del concepto que tiene la Organización Mundial de la Salud (OMS) sobre la violencia contra la mujer, en el cual se reconoce que puede existir violación en el matrimonio, en citas amorosas, o practicada por un desconocido, así mismo, las insinuaciones sexuales no deseadas, el acoso sexual, la esclavitud sexual, fecundación forzada, y el matrimonio forzado, entre otros, son manifestaciones que se incluyen en el marco de la violencia sexual contra las mujeres (OMS, 2013). El primer capítulo señala el grado de violencia contra la mujer que se ha vivido en los últimos años en la ciudad de Montería, se presentan datos oficiales sobre las denuncias presentadas por las mujeres y se hace un análisis de las medidas de protección que impone el Estado en estos casos. El segundo capítulo analiza cómo la justicia subvalora la violencia sexual contra la mujer y la señala como un acto normal de cortejo entre hombres y mujeres. El

tercer capítulo expone la influencia que ha tenido el narcotráfico en la normalización de la violencia contra la mujer y en su cosificación, partiendo de la historia de los carteles que han influenciado en la ciudad de Cartago.

The Femicide Machine Sergio Gonzalez Rodriguez, 2012-01-13 An account and analysis of the systematic murder of women and girls in the Mexican border town of Ciudad Juárez. In Ciudad Juarez, a territorial power normalized barbarism. This anomalous ecology mutated into a femicide machine: an apparatus that didn't just create the conditions for the murders of dozens of women and little girls, but developed the institutions that guarantee impunity for those crimes and even legalize them. A lawless city sponsored by a State in crisis. The facts speak for themselves. —from *The Femicide Machine* Best known to American readers for his cameo appearances as The Journalist in Roberto Bolano's 2666 and as a literary detective in Javier Marías's novel *Dark Back of Time*, Sergio González Rodríguez is one of Mexico's most important contemporary writers. He is the author of *Bones in the Desert*, the most definitive work on the murders of women and girls in Juárez, Mexico, as well as *The Headless Man*, a sharp meditation on the recurrent uses of symbolic violence; *Infectious*, a novel; and *Original Evil*, a long essay. *The Femicide Machine* is the first book by González Rodríguez to appear in English translation. Written especially for Semiotext(e) Intervention series, *The Femicide Machine* synthesizes González Rodríguez's documentation of the Juárez crimes, his analysis of the unique urban conditions in which they take place, and a discussion of the terror techniques of narco-warfare that have spread to both sides of the border. The result is a gripping polemic. *The Femicide Machine* probes the anarchic confluence of global capital with corrupt national politics and displaced, transient labor, and introduces the work of one of Mexico's most eminent writers to American readers.

Courage, Resistance, and Women in Ciudad Juárez Kathleen Staudt, Zulma Y. Méndez, 2015-01-15 Ciudad Juárez has recently become infamous for its murder rate, which topped 3,000 in 2010 as competing drug cartels grew increasingly violent and the military responded with violence as well. Despite the atmosphere of intimidation by troops, police, and organized criminals, women have led the way in civil society activism, spurring the Juárez Resistance and forging powerful alliances with anti-militarization activists. An in-depth examination of la Resistencia Juarense, *Courage, Resistance, and Women in Ciudad Juárez* draws on ethnographic research to analyze the resistance's focus on violence against women, as well as its clash with the war against drugs championed by Mexican President Felipe Calderón with the support of the United States. Through grounded insights, the authors trace the transformation of hidden discourses into public discourses that openly challenge the militarized border regimes. The authors also explore the advocacy carried on by social media, faith-based organizations, and peace-and-justice activist Javier Sicilia while Calderón faced U.S. political schisms over the role of border trade in this global manufacturing site. Bringing to light on-the-ground strategies as well as current theories from the fields of sociology, political anthropology, and human rights, this illuminating study is particularly significant because of its emphasis on the role of women in local and transnational attempts to extinguish a hot zone. As they overcome intimidation to

become game-changing activists, the figures featured in *Courage, Resistance, and Women in Ciudad Juárez* offer the possibility of peace and justice in the wake of seemingly irreconcilable conflict.

Latin America's Global Border System Beatriz Zepeda, Fernando Carrión Mena, Francisco Enríquez Bermeo, 2022-05-05 Latin America's Global Border System is the opening volume in the first collection of academic works devoted exclusively to borders and illegal markets in Latin America. This volume features expert discussions on border issues of Argentina, Brazil, Bolivia, Ecuador, Guatemala, Italy, Mexico and Peru, as well as studies on illegal markets, cities, and gender as a first step to understanding the intricacies of the global border system of illegal markets and Latin America's role in it. The book constitutes a valuable source of information on the geographic, economic, demographic, and social characteristics of the most important Latin American border regions, and their relation to global illegal markets, while also offering valuable insights into the ways illegal markets are organized in each country and how they connect across borders to create the global border system. This book will not only be a valuable resource for academics and students of international relations, security studies, border studies and contemporary Latin America, but will also prove relevant to national and international policy-makers devoted to foreign, security and development policies.

¿Cómo se investiga el feminicidio en el Sistema de Justicia Penal? Blanca Ivonne Olvera Lezama, 2023-12-27 El feminicidio es un tema que se encuentra en la agenda nacional por el gran dolor que genera a la población. Uno de los retos para prevenirlo y erradicarlo se encuentra en su investigación. Si bien es cierto existen diversos protocolos de investigación a nivel federal y del fuero común del delito de feminicidio, también lo es que fueron creados años anteriores al actual Código Nacional de Procedimientos Penales y a las leyes de reciente creación de seguridad pública, por lo que no integraron en su contenido la actuación de los guardias nacionales y elementos de las Fuerzas Armadas que, en conjunto con las policías, peritos, ministerios públicos y jueces, hoy en día se ocupan de la investigación y persecución del delito de feminicidio. La presente obra contiene un análisis de la normatividad que integra el Sistema Nacional de Seguridad Pública, el Sistema de Justicia Penal y la Ley General de Acceso de las Mujeres a una Vida Libre de Violencia, para ofrecer al lector una guía de diligencias con perspectiva de género a seguir en la investigación de mujeres privadas violentamente de la vida, para que de forma clara estos operadores del sistema de justicia acrediten la verdad jurídica de los hechos constitutivos de este delito, que les permita ubicar el modo, tiempo, lugar y circunstancia en que se consumó un feminicidio y de esta forma no confundirlo con otros tipos penales. Lo cual, sin duda, contribuirá en la debida diligencia para la investigación y procuración de justicia del delito de feminicidio.

Failure of the State Lene Guercke, 2025-03-29 This Open Access book explores an issue that has received little attention in human rights research: organised criminal groups (OCGs) as perpetrators of human rights violations, especially disappearances. It takes an interdisciplinary approach, combining doctrinal legal research with a qualitative study on

present-day disappearances in Mexico. Disappearances are a complex human rights violation that impacts not only the disappeared person but also their relatives, who are left in a limbo of uncertainty about their loved one's fate. Originally part of state-led repression, today disappearances occur in varied contexts, often involving OCGs and other non-state actors. However, disappearances committed by non-state actors are not human rights violations under International Human Rights Law (IHRL), thereby potentially leaving a gap in the legal protection of victims. The book first analyses state obligations and case law involving state responsibility for human rights violations committed by non-state actors and applies the analysis to OCGs. This 'internal' legal perspective is complemented by an 'external' study based on interviews with human rights practitioners working on disappearances in Mexico, which often involve OCGs. The qualitative study offers a unique perspective on human rights protection 'in reality'. The book adds to scholarship on non-state actors and disappearances, and to incipient international legal scholarship on the issue of organised crime and international law. Moreover, the study on Mexico provides a richer understanding of challenges faced by practitioners 'on the ground' where OCGs commit human rights violations alongside, or in collusion with, state forces and against the backdrop of an overall failure of the state. The book may be of interest to a diverse audience, including legal scholars and practitioners, human rights scholars in fields such as political science, international relations, or socio-legal studies, as well as funders supporting the work of NGOs in Mexico and similar contexts, and NGOs themselves.

Media Practices, Social Movements, and Performativity Susanne Foellmer, Margreth Lünenborg, Christoph Raetzsch, 2017-09-13 As individuals incorporate new forms of media into their daily routines, these media transform individuals' engagement with networks of heterogeneous actors. Using the concept of media practices, this volume looks at processes of social and political transformation in diverse regions of the world to argue that media change and social change converge on a redefinition of the relations of individuals to larger collective bodies. To this end, contributors examine new collective actors emerging in the public arena through digital media or established actors adjusting to a diversified communication environment. The book offers an important contribution to a vibrant, transdisciplinary, and international field of research emerging at the intersections of communication, performance and social movement studies.

The Politics of Technology in Latin America (Volume 2) David Ramírez Plascencia, Barbara Carvalho Gurgel, Avery Plaw, 2020-12-31 This volume focuses on the hyper-mediatization of Latin America from the citizen's perspective, considering the social impact and how people embrace information technologies to improve their living conditions, engage in political issues and the role of digital journalism in promoting democratic values in Latin America. The book is divided into three parts: 'Digital Media and Daily Life in Latin America' explores cases related to the integration of digital media such as mobile devices, social platforms and, even, drones to diverse commercial, private and social activities. 'Information technologies and civic engagement' gives special attention to the new political practices triggered by the irruption of smartphones and

platforms, especially inside organizations and social movements in Latin America. 'Journalism and Media Integrity in the Age of Post-truth' centers on the study of digital journalism and the new media landscape, and related issues like precarization of labor conditions and the crisis of reliability in media. This second volume in a two volume set will be important reading for scholars and students of social use of digital media in Latin America, civic engagement, and the connections between politics, journalism and technology.

Música, alteridad y riesgo Doctor José Joel Lara González, Doctora Marina Alonso Bolaños, Doctor Juan José Atilano Flores, Reyes Luciano Álvarez Fabela, Doctor Benjamín Muratalla, 2023-10-03 Música, alteridad y riesgo. Etnografía en contextos críticos pone en evidencia y analiza los riesgos que comporta el trabajo de campo según los distintos contextos en que se realiza, muchas veces frente a la crudeza de una realidad que sorprende, perturba y asombra. Se trata de cuatro reflexiones que pretenden comprender, con diferentes enfoques, la experiencia antropológica de frente a las otredades, como por ejemplo la sumisión prevaleciente entre grupos sociales con visos coloniales; los tabúes en torno a labor de la mujer antropóloga; los lugares donde la violencia es la lucha diaria por la vida misma y el allanamiento del narco en la industria de la producción musical. En esta obra la música y la celebración son los protagonistas esenciales. Pero no narran sólo lo vivido, sino las distintas rutas metodológicas que surgen a partir de la confrontación con el sí mismo y la intuición, la teoría, la pericia. José Joel Lara González es Licenciado en Etnología por la Escuela Nacional de Antropología e Historia. Doctorando en Antropología y Maestro en Antropología Social por el CIESAS. Marina Alonso Bolaños es Maestra y Doctora en Historia por El Colegio de México; Maestra en Antropología por la UNAM y Licenciada en Etnología por la ENAH. Investigadora de la de la Fonoteca INAH. Juan José Atilano Flores es Doctor en Antropología Social por la Escuela Nacional de Antropología e Historia. Subdirector de investigación en el INAH. Reyes Luciano Álvarez Fabela es Licenciado en Antropología Social por la Universidad Autónoma del Estado de México. The Rise of Necro/Narco Citizenship Carlos G. Vélez-Ibáñez, 2025-03-18 Carlos G. Vélez-Ibáñez's latest work, *The Rise of Necro/Narco Citizenship* investigates the intricate and often harrowing dynamics that define the borderlands between the United States, Mexico, and beyond. This groundbreaking book provides a comprehensive cultural, economic, social, and political-ecological analysis, illustrating how various forms of violence and militarization have reshaped the daily lives and identities of the region's inhabitants. Through meticulous ethnographic fieldwork, extensive archival research, and rigorous statistical data, Vélez-Ibáñez exposes the deeply entrenched networks of exploitation and conflict that have emerged in response to global capitalism's pressures. Vélez-Ibáñez builds on theorization about necrocitizenship to introduce the concept of necro/narco citizenship, which argues that pervasive violence and socioeconomic disruptions create a unique form of existence on both sides of the border. The author examines the dislocation of thousands, the persistent threat of violence,

and the ways in which these forces compel individuals to navigate a reality steeped in addiction, self-destruction, and civil deterioration. This book reveals the transnational networks and the morally compromised political economies that sustain them, offering readers an unflinching look at the cost of survival in this tumultuous region. This essential volume is not only a critical addition to the field of anthropology but also an invaluable resource for those interested in the sociopolitical landscape of the U.S.-Mexico border. Vélez-Ibáñez's insights will resonate with scholars, students, and policymakers alike. The Rise of Necro/Narco Citizenship challenges us to rethink the narratives of violence, militarization, and resistance that define our understanding of the Southwest North American Region.

Cash, Clothes, and Construction Kate Maclean, 2023-11-28 A groundbreaking feminist perspective on Movimiento al Socialismo (MAS) rule in Bolivia and the country's radical transformation under Evo Morales The presidency of Evo Morales in Bolivia (2006–2019) has produced considerable academic scholarship, much of it focused on indigenous social movements or extractivism, and often triumphalist about the successes of Morales's Movimiento al Socialismo (MAS). Turning a new lens on the movement, *Cash, Clothes, and Construction* presents the first gender-based analysis of "pluri-economy," a central pillar of Bolivia's program under Morales, evaluating the potential of this vision of "an economy where all economies fit" to embrace feminist critiques of capitalism and economic diversity. Based on more than twelve years of empirical research exploring the remarkable transformations in Bolivia since 2006, this book focuses on three sectors—finance, clothing, and construction—in which indigenous women have defied gendered expectations. Kate Maclean presents detailed case studies of women selling secondhand high street clothes from the United States in the vast, peri-urban markets of Bolivian cities; Aymaran designers of new pollera (traditional Andean dress) fashions, one of whom exhibited her collection in New York City; and the powerful and rich chola paceña, whose real estate investments have transformed the cultural maps of La Paz and El Alto. *Cash, Clothes, and Construction* offers a gendered analysis of the mission of MAS to dismantle neoliberalism and decolonize politics and economy from the perspective of the Indigenous women who have radically transformed Bolivia's economy from the ground up.

Fieldnotes from Mexico Olof Ohlson, 2024-08-28 This experimental monograph is a portrayal of contemporary Mexican activism, written to voice activists' experiences and perspectives when protesting state, criminal, and capitalist violence. It consists of edited fieldnotes about Mexican activist movements involved in the indignation for Ayotzinapa, which was a popular uprising protesting state violence. The book covers a period of 18 months during 2014-15, and a short field stay in October to November in 2022. It is told through (i) short biographies of activists, (ii) transcribed speeches, interviews, protest songs and slogans, and (iii) commemorative stories written in first person as if told by Mexico's many missing people as retold by their surviving family and memorized at a memorial site in Mexico City.

60 años bajo el signo de la prohibición: balances críticos de la política de drogas e iniciativas de cambio

Varios,2022-09-21 Más de 100.000 personas, entre ellas millares de menores de edad, mueren anualmente debido a sobredosis de fentanilo en los Estados Unidos. Esta sustancia, en sus diferentes presentaciones, encabeza la Lista I que la Convención Única de 1961 sobre Estupefacientes cataloga como estupefacientes sujetos a todas las medidas de fiscalización. Aunque de otra índole, en Colombia los problemas que ha arrastrado esta lista resultan igualmente inquietantes. En ella se encuentran tanto la cocaína como las hojas de coca, y en las otras dos listas hay fármacos para los que estas medidas no son tan drásticas. Luego de seis décadas bajo el signo de la prohibición, el balance de la política de drogas es negativo desde donde se le mire. más adictos y más víctimas incautas que han muerto por sobredosis están asociadas positivamente por el engrosamiento de los carteles cuyos miembros asesinan, deforestan, blanquean millones de dólares ilegales en nuestra economía y corrompen por doquier en defensa de sus ganancias ilegales. La sociedad colombiana, por décadas víctima indefensa de la acción deletérea de estas organizaciones criminales, aún padece y contempla a diario la secuela de daños que arrastra el narcotráfico y la lucha que por años ha venido librando el Estado en su contra, con fútiles resultados pero a unos costos inestimables. En este libro se proponen balances y se sugieren iniciativas de cambio a la política a fin de contener los circuitos perversos de la prohibición, comenzando por proponer un nuevo relato que ya este en boga: coca no es cocaína.
