Tunnel in the Sky Robert A. Heinlein, 2005-03-15 High school students enter a time gate to an unknown planet for a survival test, but something goes wrong and they have to learn to survive by their own resourcefulness.

Tunnel in the Sky Robert Anson Heinlein, 1985 What was to have been a standard ten-day survival course had become an indefinite life-or-death nightmare. A group of young people were stranded somewhere in the universe, beyond contact with earth. They were being forced to forge a future where sometimes not even the fittest could survive.

*Virtual and Adaptive Environments* Lawrence J. Hettinger, Michael W. Haas, 2003-06-01 With contributions from a collection of authors consisting of many recognizable experts in the field of virtual and adaptive environments, as well as many up and coming young researchers, this book illustrates the many ways in which psychological science contributes to and benefits from the increased development and application of these nascent systems. Discussing issues from both a user- and technology-based standpoint, the volume examines the use of human perception, cognition, and behavior. The book builds a foundation on the assumption that these systems are first and foremost human-centered technologies, in that their purpose is to complement and extend human capabilities across a wide variety of domains.

**Concept of Operations for Commercial and Business Aircraft Synthetic Vision Systems** Daniel M. Williams, 2001 A concept of operations (CONOPS) for the Commercial and Business (CaB) aircraft synthetic vision systems (SVS) is described. The CaB SVS is expected to provide increased safety and operational benefits in normal and low visibility conditions. Providing operational benefits will promote SVS implementation in the fleet, improve aviation safety, and assist in meeting the national aviation safety goal. SVS will enhance safety and enable consistent gate-to-gate aircraft operations in normal and low visibility conditions. The goal for developing SVS is to support operational minima as low as Category IIIB in a variety of environments. For departure and ground operations, the SVS goal is to enable operations with a runway visual range of 300 feet. The system is an integrated display concept that provides a virtual visual environment. The SVS virtual

visual environment is composed of three components: an enhanced intuitive view of the flight environment, hazard and obstacle detection and display.

**The Transcendent** Nathan K. Battles,2014-08-19 Osiris had quite the reputation in the gaming community but was somewhat of a social square. But when he discovers a portal to a virtual reality that is more real than meets the eye his entire world is turned upside down and he learns he can do anything...even disappear.

**Engineering Psychology and Cognitive Ergonomics** Don Harris,2020-03-26 This book is the third in the series and describes some of the most recent advances and examines emerging problems in engineering psychology and cognitive ergonomics. It bridges the gap between the academic theoreticians, who are developing models of human performance, and practitioners in the industrial sector, responsible for the design, development and testing of new equipment and working practices.

**The Clearing** Judy Romero,2019-09-19 A fictional story based on mysteries of the afterlife, ascended masters, life after death, absence of time and all things in between. A beautiful meadow in a clearing in the woods. An ugly pit of darkness and fear. What mysteries do they hold? Young Eva Carson faces these questions in a long summer in May, visiting her grandparents' cabin on the majestic Grand Mesa in Colorado. Her reality is questioned when she is confronted by numerous unexplained phenomena embarking upon her stable life. Soon she is engulfed in a torrent of mysteries and struggling for a sanity she believed she already possessed. All is chaos when she soon discovers life is a massive question mark of fear, but all questions are answered at one time or another.

*Human Performance Modeling in Aviation* David C. Foyle,Becky L. Hooey,2007-12-07 Based on the research activities of the six-year NASA human performance modeling project, Human Performance Modeling in Aviation provides an in-depth look at cognitive modeling of human operators for aviation problems. This book presents specific solutions to aviation safety problems and explores methods for integrating human performance modeling into the aviation design process. The text compares the application of five different models to two classes of aviation problems: pilot navigation errors during airport taxi operations and approach and landing performance with synthetic vision systems. This results in a comprehensive summary of the capabilities of each model and of the field in general.

**Second Chance King of The New World** R. Richard,2014-06-02 Dorset, to the immediate North of Avern, faces a problem, bankruptcy or become one of Justin Imperiale's Kingdoms. Justin is forced to fight a being from Zarel, a high gravity world. The challenge makes no sense, as the high gravity world mog can't get close enough to Justin to hurt him; unless the

high gravity world mog uses paranormal skills. Justin then manages to set up a visit to an eastern nation called Shindhu. The visit is supposedly about trade and child labour. However, Justin seeks to steal a Lord Vorell scroll from Shindhu. He is then faced with two micro revolts in New World Kingdoms. The problem is off world interference almost certainly orchestrated by Arvion, demigod of the sky. The off worlders have set a trap that Justin avoids. Using ideas from the new Lord Vorell scroll, the mind of a would be assassin and a machine, intended to trap him, Justin builds a working interplanetary gate. He then has to fight a war in Mande. Justin fights a mind battle with a paranormal talent, almost certainly sent by Arvion. A maybe ghost, maybe God, visits Justin. The Nation of Dunvar is preparing to invade the Kingdoms of Bjornmark, Kjelder and Nordveg. Justin manages to blackmail Dunvar politicians and delay the war. He then arranges for the assassination of the Leader of Dunvar and pushes the war further back. Finally Justin manages to elevate the President of Dunvar from figurehead to a position of power. University radicals invade Justin's Palace and are dealt with. He then prepares to set up a new Kingdom of Nordheim, in the North of the Old World.

**Britain's Canals** Anthony Burton,Derek Pratt,2020-05-14 Britain's Canals is a charming and insightful exploration into the amazing architecture and engineering wonders that surround Britain's inland waterways – from the awe-inspiring 30-lock flight on the Worcester and Birmingham Canal, to the delightful chocolate-box lock-keepers' cottages that line the cut of every canal, to masterpieces such as the 18-arch Pontcysyllte aqueduct, the highest aqueduct in the world, to beautiful bridges, grand company buildings, the social hubs that were, and still are, canal-side pubs, plus so much more. In contrast to many inland waterways books which are organised geographically by canal, Britain's Canals is structured thematically, with chapters covering the line (the shape of the canal), locks and lock cottages, bridges, aqueducts, lifts and planes, company buildings, wharves, basins and quays and finally the canal-side pub. Each chapter explores how these features were created and have changed through history, right through to the present, with plenty of ideas for places to visit – plus full information on how to get to them. An abundance of full-colour photography throughout, both historical and modern-day, will delight readers and inspire them to explore Britain's wondrous inland waterways, whether on boat, by foot or by bike. In Britain's Canals, two inland waterways experts and admired authors come together to produce the definitive word on the man-made wonders that make Britain's canals so special, so loved and enjoyed by so many.
