Rosina Ehmann

*La fabrique du consommateur* Anthony Galluzzo, 2023 Vers 1800, la plupart des Français étaient des paysans qui construisaient eux-mêmes leur maison, récoltaient leurs céréales, pétrissaient leur pain et tissaient leurs vêtements. Aujourd'hui, l'essentiel de ce que nous consommons est produit par un réseau de grandes et lointaines entreprises. En deux siècles à peine, la communauté paysanne autarcique s'est effacée pour laisser place à une myriade de consommateurs urbains et connectés. Cet ouvrage retrace les grandes étapes de cette conversion à la consommation. Comment s'est constitué le pouvoir marchand ? Quels changements sociaux ont accompagné la circulation massive des marchandises ? En parcourant l'Europe et l'Amérique du Nord des XIXe et XXe siècles, ce livre retrace l'histoire de multiples dispositifs de marché : la marque insufflant à la marchandise sa valeur-signe, les mises en scène inventées par les grands magasins, l'ingénierie symbolique déployée par les relations publiques et la publicité... Il raconte la conversion des populations à la consommation et la fulgurante prise de pouvoir des marchands.

**Private International Law Aspects of Corporate Social Responsibility** Catherine Kessedjian,Humberto Cantú Rivera,2020-03-06 This book addresses one of the core challenges in the corporate social responsibility (or business and human rights) debate: how to ensure adequate access to remedy for victims of corporate abuses that infringe upon their human rights. However, ensuring access to remedy depends on a series of normative and judicial elements that become highly complex when disputes are transnational. In such cases, courts need to consider and apply different laws that relate to company governance, to determine the competent forum, to define which bodies of law to apply, and to ensure the adequate execution of judgments. The book also discusses how alternative methods of dispute settlement can relate to this topic, and the important role that private international law plays in access to remedy for corporate-related human rights abuses. This collection comprises 20 national reports from jurisdictions in Europe, North America, Latin America and Asia, addressing the private international law aspects of corporate social responsibility. They provide an overview of the legal differences between

geographical areas, and offer numerous examples of how states and their courts have resolved disputes involving private international law elements. The book draws two preliminary conclusions: that there is a need for a better understanding of the role that private international law plays in cases involving transnational elements, in order to better design transnational solutions to the issues posed by economic globalisation; and that the treaty negotiations on business and human rights in the United Nations could offer a forum to clarify and unify several of the elements that underpin transnational disputes involving corporate human rights abuses, which could also help to identify and bridge the existing gaps that limit effective access to remedy. Adopting a comparative approach, this book appeals to academics, lawyers, judges and legislators concerned with the issue of access to remedy and reparation for corporate abuses under the prism of private international law.
