American Documentary Film Jeffrey Geiger, 2011-06-29 Richard Wall Memorial Award 2012 - Finalist. What key concerns are reflected in documentaries produced in and about the United States? How have documentaries engaged with competing visions of US history, culture, politics, and national identity? This book examines how documentary films have contributed to the American public sphere - creating a kind of public space, serving as sites for community-building, public expression, and social innovation. Geiger focuses on how documentaries have been significant in forming ideas of the nation, both as an imagined space and a real place. Moving from the dawn of cinema to the present day, this is the first full-length study to focus on the extensive range and history of American non-fiction filmmaking. Combining comprehensive overviews with in-depth case studies, Geiger maps American documentary's intricate histories, examining the impact of pre- and early cinema, travelogues, the avant-garde, 1930s social documentary, propaganda, direct cinema, postmodernism, and 'new' documentary. Offering detailed close analyses and fresh insights, this book provides students and scholars with a stimulating guide to American documentary, reminding us of its important place in cinema history.

An Aristocracy of Critics Stephen Bates, 2020-10-27 The story behind the 1940s Commission on Freedom of the Press—groundbreaking then, timelier than ever now A well-constructed, timely study, clearly relevant to current debates.—Kirkus, starred review In 1943, Time Inc. editor-in-chief Henry R. Luce sponsored the greatest collaboration of intellectuals in the twentieth century. He and University of Chicago president Robert Maynard Hutchins summoned the theologian Reinhold Niebuhr, the Pulitzer-winning poet Archibald MacLeish, and ten other preeminent thinkers to join the Commission on Freedom of the Press. They spent three years wrestling with subjects that are as pertinent as ever: partisan media and distorted news, activists who silence rather than rebut their opponents, conspiracy theories spread by shadowy groups, and the survivability of American democracy in a post-truth age. The report that emerged, A Free and Responsible Press, is a classic, but many of the commission's sharpest insights never made it into print. Journalist and First Amendment scholar Stephen Bates reveals how these towering intellects debated some of the most vital questions of their time—and

reached conclusions urgently relevant today.

The Routledge Companion to Film History William Guynn, 2010-09-13 The Routledge Companion to Film History is an indispensable guide for anyone studying film history for the first time. Incorporating a series of 11 introductory, critical essays on key subject areas, with a dictionary of key names and terms, it serves to introduce the reader to the field of film history in a comprehensive and well-rounded manner.

Screening Reality Jon Wilkman, 2020-02-18 "A towering achievement, and a volume I know I'll be consulting on a regular basis."-Leonard Maltin Authoritative, accessible, and elegantly written, Screening Reality is the history of American documentary film we have been waiting for. --Kenneth Turan, Los Angeles Times film critic From Edison to IMAX, Ken Burns to virtual environments, the first comprehensive history of American documentary film and the remarkable men and women who changed the way we view the world. Amidst claims of a new "post-truth" era, documentary filmmaking has experienced a golden age. Today, more documentaries are made and widely viewed than ever before, illuminating our increasingly fraught relationship with what's true in politics and culture. For most of our history, Americans have depended on motion pictures to bring the realities of the world into view. And yet the richly complex, ever-evolving relationship between nonfiction movies and American history is virtually unexplored. Screening Reality is a widescreen view of how American "truth" has been discovered, defined, projected, televised, and streamed during more than one hundred years of dramatic change, through World Wars I and II, the dawn of mass media, the social and political turmoil of the sixties and seventies, and the communications revolution that led to a twenty-first century of empowered yet divided Americans. In the telling, professional filmmaker Jon Wilkman draws on his own experience, as well as the stories of inventors, adventurers, journalists, entrepreneurs, artists, and activists who framed and filtered the world to inform, persuade, awe, and entertain. Interweaving American and motion picture history, and an inquiry into the nature of truth on screen, Screening Reality is essential and fascinating reading for anyone looking to expand an understanding of the American experience and today's truth-challenged times.

The Queens of Animation Nathalia Holt, 2019-10-22 From the bestselling author of Rise of the Rocket Girls, the untold, richly detailed story of the women of Walt Disney Studios, who shaped the iconic films that have enthralled generations (Margot Lee Shetterly, New York Times bestselling author of Hidden Figures). From Snow White to Moana, from Pinocchio to Frozen, the animated films of Walt Disney Studios have moved and entertained millions. But few fans know that behind these groundbreaking features was an incredibly influential group of women who fought for respect in an often ruthless male-dominated industry and who have slipped under the radar for decades. In The Queens of Animation, bestselling author Nathalia Holt tells their dramatic stories for the first time, showing how these women infiltrated the boys' club of Disney's story and animation departments and used early technologies to create the rich artwork and unforgettable narratives that

have become part of the American canon. As the influence of Walt Disney Studios grew -- and while battling sexism, domestic abuse, and workplace intimidation -- these women also fought to transform the way female characters are depicted to young audiences. With gripping storytelling, and based on extensive interviews and exclusive access to archival and personal documents, *The Queens of Animation* reveals the vital contributions these women made to Disney's Golden Age and their continued impact on animated filmmaking, culminating in the record-shattering *Frozen*, Disney's first female-directed full-length feature film. The New Historical Dictionary of the American Film Industry Anthony Slide, 2014-02-25 The New Historical Dictionary of the American Film Industry is a completely revised and updated edition of Anthony Slide's *The American Film Industry*, originally published in 1986 and recipient of the American Library Association's Outstanding Reference Book award for that year. More than 200 new entries have been added, and all original entries have been updated; each entry is followed by a short bibliography. As its predecessor, the new dictionary is unique in that it is not a who's who of the industry, but rather a what's what: a dictionary of producing and releasing companies, technical innovations, industry terms, studios, genres, color systems, institutions and organizations, etc. More than 800 entries include everything from Academy of Motion Pictures Arts and Sciences to Zoom Lens, from Astoria Studios to Zoetrope. Outstanding Reference Source - American Library Association

Blockbusters and the Ancient World Chris Davies, 2019-03-21 Following the release of Ridley Scott's *Gladiator* in 2000 the ancient world epic has experienced a revival in studio and audience interest. Building on existing scholarship on the Cold War epics of the 1950s-60s, including *Ben-Hur*, *Spartacus* and *The Robe*, this original study explores the current cycle of ancient world epics in cinema within the social and political climate created by September 11th 2001. Examining films produced against the backdrop of the War on Terror and subsequent invasions of Iraq and Afghanistan, this book assesses the relationship between mainstream cinema and American society through depictions of the ancient world, conflict and faith. Davies explores how these films evoke depictions of the Second World War, the Vietnam War and the Western in portraying warfare in the ancient world, as well as discussing the influence of genre hybridisation, narration and reception theory. He questions the extent to which ancient world epics utilise allegory, analogy and allusion to parallel past and present in an industry often dictated by market forces. Featuring analysis of *Alexander*, *Troy*, *300*, *Centurion*, *The Eagle*, *The Passion of the Christ* and more, this book offers new insight on the continued evolution of the ancient world epic in cinema.

Language and Gender in Children's Animated Films Carmen Fought, Karen Eisenhauer, 2022-09-08 Disney and Pixar films are beloved by children and adults alike. However, what linguistic messages, both positive and negative, do these films send to children about gender roles? How do characters of different genders talk, and how are they talked about? And do patterns of representation change over time? Using an accessible mix of statistics and in-depth qualitative analysis, the authors bring their expertise to the study of this very popular media behemoth. Looking closely at five different language features -

talkativeness, compliments, directives, insults, and apologies – the authors uncover the biases buried in scripted language, and explore how language is used to construct tropes of femininity, masculinity, and queerness. Working with a large body of films reveals wide-scale patterns that might fly under the radar when the films are viewed individually, as well as demonstrating how different linguistic tools and techniques can be used to better understand popular children's media.

A Philosophical History of Documentary, 1895–1959 Dan Geva,2021-09-15 This book presents a chronology of thirty definitions attributed to the word, term, phrase, and concept of “documentary” between the years 1895 and 1959. The book dedicates one chapter to each of the thirty definitions, scrutinizing their idiosyncratic language games from close range while focusing on their historical roots and concealed philosophical sources of inspiration. Dan Geva's principal argument is twofold: first, that each definition is an original ethical premise of documentary; and second, that only the structured assemblage of the entire set of definitions successfully depicts the true ethical nature of documentary insofar as we agree to consider its philosophical history as a reflective object of thought in a perpetual state of being-self-defined: an ethics sui generis.

The Psychosocial Implications of Disney Movies Lauren Dundes,2019-07-11 In this volume of 15 articles, contributors from a wide range of disciplines present their analyses of Disney movies and Disney music, which are mainstays of popular culture. The power of the Disney brand has heightened the need for academics to question whether Disney’s films and music function as a tool of the Western elite that shapes the views of those less empowered. Given its global reach, how the Walt Disney Company handles the role of race, gender, and sexuality in social structural inequality merits serious reflection according to a number of the articles in the volume. On the other hand, other authors argue that Disney productions can help individuals cope with difficult situations or embrace progressive thinking. The different approaches to the assessment of Disney films as cultural artifacts also vary according to the theoretical perspectives guiding the interpretation of both overt and latent symbolic meaning in the movies. The authors of the 15 articles encourage readers to engage with the material, showcasing a variety of views about the good, the bad, and the best way forward.

Minority Languages and Cultures in Audiovisual Translation Eleonora Sasso,2025-08-19 This collection explores the range of approaches and frameworks used in the study of minority languages and cultures in audiovisual translation (AVT), encouraging interdisciplinary conversations toward fostering linguistic diversity on screen. The volume is organized

around five parts, looking at examples from across the Americas, Europe, the Middle East, and China as well as issues around sign languages in AVT. Chapters explore innovative strategies in subtitling, dubbing, and fansubbing to address non-standard varieties, ethnolinguistic diversities, and multilingualism, among other key themes, across different forms of media. The volume also looks ahead to how the study and practice of AVT might be re-envisioned in relation to minority languages, societies, and cultures in the future. This book will be of interest to scholars in translation studies, audiovisual translation, media accessibility, and media studies.

Connected Worlds Ann Curthoys, Marilyn Lake, 2006-03-01 This volume brings together historians of imperialism and race, travel and modernity, Islam and India, the Pacific and the Atlantic to show how a 'transnational' approach to history offers fresh insights into the past. Transnational history is a form of scholarship that has been revolutionising our understanding of history in the last decade. With a focus on interconnectedness across national borders of ideas, events, technologies and individual lives, it moves beyond the national frames of analysis that so often blinker and restrict our understanding of the past. Many of the essays also show how expertise in 'Australian history' can contribute to and benefit from new transnational approaches to history. Through an examination of such diverse subjects as film, modernity, immigration, politics and romance, *Connected Worlds* weaves an historical matrix which transports the reader beyond the local into a realm which re-defines the meaning of humanity in all its complexity. Contributors include Tony Ballantyne, Desley Deacon, John Fitzgerald, Patrick Wolfe and Angela Woollacott.

The Bible in Motion Rhonda Burnette-Bletsch, 2016-09-12 This two-part volume contains a comprehensive collection of original studies by well-known scholars focusing on the Bible's wide-ranging reception in world cinema. It is organized into sections examining the rich cinematic afterlives of selected characters from the Hebrew Bible and New Testament; considering issues of biblical reception across a wide array of film genres, ranging from noir to anime; featuring directors, from Lee Chang-dong to the Coen brothers, whose body of work reveals an enduring fascination with biblical texts and motifs; and offering topical essays on cinema's treatment of selected biblical themes (e.g., lament, apocalyptic), particular interpretive lenses (e.g., feminist interpretation, queer theory), and windows into biblical reception in a variety of world cinemas (e.g., Indian, Israeli, and Third Cinema). This handbook is intended for scholars of the Bible, religion, and film as well as for a wider general audience.
