Entrepreneurship in Former Yugoslavia Ramo Palalić,Léo-Paul Dana,Veland Ramadani,2018-06-22 This volume offers a comprehensive state-of-the-art portrait of entrepreneurship and small business management issues in former Yugoslavian countries. Further, it provides a wealth of theoretical and empirical evidence on the role of entrepreneurship in transition economies and emerging markets. Grand Corruption Robert I. Rotberg,Fen Osler Hampson,2024-08-30 This book examines the nature, causes, and consequences of grand corruption, showing how it can be assessed, measured, and attacked from within and without. The volume brings together in a single, definitive text some of the best analyses on how to measure the costs of grand corruption and dissects the legal approaches and institutions to counter grand corruption and kleptocracy. Through a series of compelling country case studies, the book explores how corrupt political elites and public officials have stolen from the public purse for personal gain at the expense of their own people and their country's social and economic development. It also highlights the role of financial and legal intermediaries in the West in laundering these ill-gotten gains. The volume then

explores the impact of existing legal constraints on controlling corruption, some of which are still in the evolutionary stage of development. It draws lessons from different national attempts to control corruption as well as regional and international initiatives. The final section of the volume discusses a variety of new anti-corruption initiatives, including efforts to establish an International Anti-Corruption Court. This book will be of much interest to students of grand corruption, global governance, foreign policy, international law, and international relations.
