Mediante la interpretación de los hechos, la historia nos ayuda a conocer el entorno social, el arte, la cultura, la política, las creencias y al manera en que la hemos vivido; asimismo, a reconocer cuáles han sido nuestros aspiraciones, y cuáles nuestros logros y perspectivas a través del tiempo. No obstante, la interpretación no será única ni absoluta, por lo que la fundamentación teórica de este libro apoyará el proceso de aprendizaje del lector, y le servirá para que construya su propia interpretación de los aconteci.

Historia de Mexico Íñigo Fernández Fernández,2004

Historia de Mexico I Inigo Fernandez,2005 This work has excellent presentation, brief, concise and based on what has been the past of our country, from the populating of America through 1821. Beginning with a constructive methodology on how the book was designed, the student can construct using his own objective vision of the facts and principal players of history. A color presentation covers 100% of the new program of The History of Mexico I, making it a very attractive presentation.

Historia de América en perspectiva latinoamericana Carlos Araya Pochet,1995

La Independencia Antonio Annino,Rafael Rojas,2019-01-10 La independencia de México es el acontecimiento fundacional que ha producido casi todos los símbolos patrios y muchas de las ideas e instituciones centrales de la nación moderna. Casi desde su origen, y hasta la fecha, cientos de libros han dado cuenta de la lucha emancipatoria y sus consecuencias, pero pocos han hecho una síntesis tan acertada y reunido tan amplia bibliografía como esta obra. La bibliografía que acompaña a estos dos ensayos conforma una guía para transitar por los textos clave generados en los siglos XIX y XX.

La construcción del héroe en España y México (1789-1847) Víctor Mínguez,Germán Carrera Damas,2003 Los últimos años del siglo XVIII y las primeras décadas del XIX son tiempos apropiados para las gestas cívicas y militares: el desmembramiento del Antiguo Régimen, las revoluciones burguesas, las guerras napoleónicas, los procesos insurgentes y la construcción de las nuevas naciones americanas establecen las condiciones idóneas para el surgimiento de los héroes modernos. El proceso de fabricación y mitificación de estos héroes en España y México, su instrumentalización por la clase dirigente y la aparición de los respectivos panteones heroicos sobre los que cimentar ambas naciones son aspectos

analizados en este libro. El estudio comparado de estos dos espacios, divergentes y a la vez complementarios, permite responder a preguntas tan importantes como ¿qué es un héroe?, ¿quién construye a los héroes? o ¿para qué sirven los héroes?

**La vida constitucional de México: t. 3-4. Textos preconstitucionales** Fernando Serrano Migallón,2007-01-01 A lo largo de la historia de México, la Constitución ha sido mucho más que un conjunto de leyes y normas: es también, y muy especialmente, un proyecto político, un ideal de nación. Tan es así, que es posible leer el proceso histórico de conformación y consolidación del Estado en las leyes fundamentales que han regido su destino. Cada Carta Magna nos habla de un contexto en que se enmarca su promulgación, pero sobre todo, del país que los diputados de cada Congreso Constituyente se aron construir.

El gran norte de México Alfredo Jiménez Núñez,2006 La presencia de Europa en las Américas creó muchas fronteras, ninguna más compleja y dinámica que la frontera que hoy une y separa México y los Estados Unidos. Este libro se centra en la frontera septentrional de México o Nueva España, tres siglos de historia en un espacio mucho mayor que la península ibérica.

**Empires to Nations** Max Savelle,1974-09-06 Empires to Nations was first published in 1974. Minnesota Archive Editions uses digital technology to make long-unavailable books once again accessible, and are published unaltered from the original University of Minnesota Press editions. This history traces the growth of the Euroamerican societies in the Western Hemisphere during the eighteenth-century period of European expansion. Professor Savelle reviews the continuation and completion of the exploration of the American continent and describes the evolution of the New World empires of the English, French, Spanish, Portuguese, and Dutch. He devotes separate chapters to the development of the political structures of the colonies and the rivalries, wars, and diplomatic exchanges among the empires. He also reviews and analyzes the economic history of the colonial societies in their three-way relationships - with their mother countries, with each other, and within themselves as regional or local entities. Final chapters are devoted to the birth and growth of national self-

consciousness among the new societies.

**Forging Mexico, 1821-1835** Timothy E. Anna, 2001-09-01 No struggle has been more contentious or of longer duration in Mexican national history than that between a centripetal power in the capital and the centrifugal federalism of the Mexican states. Much as they do in the United States, such tensions still endure in Mexico, despite the centralising effect of the Mexican Revolution of 1910-20. Timothy E. Anna turns his attention upon the crucial postindependence period of 1821-35 to understand both the theoretical and the practical causes of the development of this polarity. He attempts to determine how much influence can be ascribed to such causes as the model of the United States, the effect of European thinkers, and the shifting self-interest of various leaders and groups in Mexican society. The result is a nuanced and thoughtful analysis of the development of one of the defining characteristics of the Mexican nation: regional power and sovereignty of the state. *Forging Mexico, 1821-1835* is a study both of the political history of the first republic and of the struggle to forge nationhood. Timothy E. Anna is Distinguished Professor of History at the University of Manitoba. His books include *The Fall of the Royal Government in Mexico City* and *The Mexican Empire of Iturbide*.

*Historia y Patrimonio Cultural* Alcántara, Manuel, García Montero, Mercedes, Sánchez López, Francisco, 2018-07-01 El Comité Organizador del 56º Congreso Internacional de Americanistas (ICA) publica las actas del encuentro celebrado en la Universidad de Salamanca el 15 al 20 de julio de 2018. Bajo el lema «Universalidad y particularismo en las Américas», reflexionó sobre la dialéctica entre la universalidad y los particularismos en la producción de conocimiento, un diálogo en el que la necesidad de conocer los particularismos de los fenómenos sociales, políticos, artísticos y culturales obliga a formular nuevas hipótesis que enriquecen y replantean las grandes teorías generales de las ciencias y las humanidades. El carácter interdisciplinario e inclusivo que ha caracterizado al ICA desde su inicio en 1875, como un congreso de estudios de área en sentido completo, hace aún más significativa esa dinámica de producción de conocimiento. Con un planteamiento interdisciplinario e inclusivo, ICA reúne a investigadores que estudian el continente americano, desde Alaska hasta Tierra de Fuego, incluyendo el territorio del Caribe, a partir del análisis de su política, economía, cultural, lenguas, historia y prehistoria. Así, el Comité Organizador les invitó participar en el análisis y la reflexión sobre las especificidades de las Américas y el Caribe con el objetivo de enriquecer las grandes teorías generales.
