International Standard International Organization for Standardization,2007 SO 22716:2007 gives guidelines for the production, control, storage and shipment of cosmetic products. These guidelines cover the quality aspects of the product, but as a whole do not cover safety aspects for the personnel engaged in the plant, nor do they cover aspects of protection of the environment. The guidelines in ISO 22716:2007 are not applicable to research and development activities and distribution of finished products. -- Publisher description.
