**Geotechnics and Heritage** Renato Lancellotta, Alessandro Flora, Carlo Viggiani, 2017-08-15 Conservation of monuments and historic sites is one of the most challenging problems facing modern civilization. It involves various cultural, humanistic, social, technical, economical and administrative factors, intertwining in inextricable patterns. The complexity of the topic is such that guidelines or recommendations for intervention techniques and design approaches are difficult to set. The Technical Committee on the Preservation of Monuments and Historic Sites (named TC19) was established by the International Society of Soil Mechanics and Geotechnical Engineering (ISSMGE) in 1981, is supported by the Italian Geotechnical Society (AGI), and was renamed TC301 in 2010. This book assesses the role of historic towers as symbols of community identity and how to best preserve this special cultural heritage. Well-documented, exemplary case histories highlight concepts of preservation, integrity, cultural heritage, dynamic identification techniques and techniques for long-term monitoring of historic towers, as well as provide examples of appropriate intervention measures. The book will be of interest to professionals and academics in the wider fields of civil engineering, architecture and cultural resources management, and particularly those involved in art history, history of architecture, geotechnical engineering, structural engineering, archaeology, restoration and cultural heritage management.

*Panorámicas urbanas* Gorostiza López, Jorge, 2017-03-28 El cine nació cuando las ciudades comenzaron a transformarse en los complejos y problemáticos lugares que habitamos hoy en día. Las poblaciones desde entonces fueron el lugar donde se desarrollaron los argumentos de las películas, y llegaron a tener en algunos casos un papel tan crucial como el de los protagonistas de carne y hueso. En este libro se recorre desde el optimismo vivido en los años veinte del siglo pasado, con la aparición de nuevas edificaciones como los rascacielos, que transformaron las grandes ciudades, hasta las fascinantes metrópolis actuales de países con economías en expansión, que al mismo tiempo continuaban sufriendo problemas de marginalidad y delincuencia. Las 50 películas seleccionadas son primordiales para poder estudiar, y al mismo tiempo entender y llegar a conocer, cómo ha sido esa evolución de la ciudad hasta la actualidad, así como para constatar la influencia de la imagen en movimiento en esas poblaciones.

**Intihuatana** Jessie Panzera,2012-06 INTIHUATANA Del Quechua: Donde se Ata al Sol El tiempo no es más que espacio entre recuerdos de vida. Una vida de renacer diario que nos conlleva a aprender una sucesión de lecciones. Pasan los años como peldaños desde donde puedo ver mejor lo absurdo, lo verosimil, lo verdadero de lo vivido, en un tiempo que realmente no pasa. Pasamos nosotros que no encontramos el escondite para el elemento tiempo que nos devora hasta desaparecernos y sustituirnos entre sus fauces del plano de este mundo, más tenemos algo eterno dentro de nosotros que el tiempo no logra corroer porque no pertenece a este mundo y tiene una gran fuerza : el espíritu. Les dejo algunas memorias de unas porciones en del espacio de mi tiempo , del Intihuatana de mi vida. Con mucho cariño, espero que la disfruten. Salud!. Intihuatana es una misteriosa escultura irregular, localizada a un extremo del Templo de las Tres Ventanas, un observatorio Inca de la Ciudad de Macchupicchu en Perú, considerada una de las maravillas del mundo. Cuenta la Leyenda Inca, que Intihuatana era utilizado para amarrar al Sol, en un esfuerzo por evitar que se fuera, o quizá sólo para alargar el día y estirar las horas de luz. El Sol era considerado el Padre y Dios de los Incas e Intihuatana era una roca labrada ubicada en casi todas las ciudades incas. Con la llegada de los españoles al Perú todas las Intihuatanas fueron destruidas permaneciendo en el tiempo solo la que existe hoy en Macchupicchu. María Belén (Maribé) escucha últimamente indefinibles sonidos en el sótano de su casa donde por años nadie ha descendido. Su prima Mercedes, de sensibilidad especial viene para acompañarla a bajar al sótano y descubrir la procedencia de ellos. Caminando entre piezas antiguas encuentran un antiguo baúl cerrado. Después de algunos intentos logran abrirlo. Entre extrañas curiosidades encuentran unas escrituras. Quién y de qué trata todo ello? Descubren que la escritora se llama Tess. La reconocen como su antepasada. La curiosidad las distrae del objetivo por el que están en el lugar. Se entretienen leyendo rápidamente, resumiendo páginas. Tess tiene muchas cosas expresadas en papel. Casi toda una vida. Se emocionan compartiendo sus letras y vivencias . Pero no están solas. Alguien más que se manifiesta de modo incomprensible. Poco a poco se dan cuenta que son prisioneras de la realidad de si mismas y desearán escapar y vivir una nueva vida. Lo lograrán?

**The Structure of Learner Varieties** Henriëtte Hendriks, 2011-12-22 This volume brings together ten contributions to the study of untutored (mainly) second but also first language acquisition. All chapters have been written from a functionalist perspective and take as the main theoretical framework a model of spontaneous second language acquisition centered on the basic variety as proposed by Klein and Perdue. The chapters in the volume are grouped around two research themes. The first theme concerns the acquisition of scope phenomena (negation, scope particles), the second one deals with referential movement (reference to person, time and space). Both parts provide insights in the structure of learner varieties at various stages of development, and are followed by a discussion chapter. Scope phenomena, such as negation and frequency adverbials present an important learning problem, as learners have to reconcile the logical structure of their utterances with the syntactic specifics of the language being learned. Their acquisition has been relatively neglected in studies up to date, however, and we even lack detailed knowledge about the interpretation of scope particles in the target languages. The chapters in this part of the volume set out to provide more knowledge about scope phenomena in general; more detailed descriptions of the particles in the languages under consideration; and a more general understanding of how scope is acquired. Strong findings resulting from the ESF project suggested universal trends in how untutored learners deal with acquisition in the very early stages (the basic variety). Chapters in this second part of the volume on referential movement look at acquisition at more advanced stages, including the production of near native speakers. Learners who progress beyond the basic variety increasingly grammaticalise their productions. This later development is supposedly more variable, as more specific aspects of the target languages are now being acquired. Chapters in this part allow to shed more light on the question regarding universal and language-specific influences on language acquisition.

*Chilean trees around the world* Rodrigo Fernández Carbó, This book is a selection of sixty stories from around the world, encompassing some fifty Chilean trees species and over three hundred pictures. Each one of the stories confirm the knowledge and appreciation that may foreigners have of Chilean trees. It is a ten years research of the author and numerous Chilean and international collaborators. Today the book can be enjoyed by specialists, as well as people with a simple

curiosity in botanic. The stars are the Chilean trees, but the protagonists are also the places, the stories of how the trees were planted there and the people with which they coexist.

**Libertad** Pablo Gonz, 2008 Tras una serie de traumáticos episodios, la humanidad enfrenta la peor escisión de su historia: una minoría selecta maneja unos niveles extremos de tecnología, que le permite incluso disfrutar de la inmortalidad. Estos superiores viven encerrados tras los infranqueables muros de una serie de ciudades perfectas que los protegen de los inferiores, hombres de una supuesta violencia congénita. Sobre este dislocado ambiente, Libertad dibuja la experiencia de Anto, un insulso funcionario de la Ciudad de Verona que gracias a su único amigo, el irreverente P, emprende un fascinante periplo que le llevará desde su sórdido despacho en el Ministerio de Exterminio hasta enfrentar de modo ineludible una cita con la verdadera y única muerte. En este tránsito, que tiene mucho de inquisición personal, Anto descubrirá algunos de los entresijos ocultos de la sociedad superior: los infratrabajos esclavizantes, la rapiña sistemática a la que se somete a las poblaciones inferiores y hasta una conspiración política. La decepción que todo esto provoca en el protagonista le empuja por último a abandonar la Ciudad de Verona e internarse en la temida Zona Inferior. Allí conocerá la segunda mitad de la Historia, nunca contada. Atrevida alegoría de nuestra inasible sociedad globalizada, Libertad retoma, desde una perspectiva propia, la larga tradición de la socioficción, deudora de la literatura utópica de todos los tiempos.

**Obras** José Carlos Mariátegui y Martín, 2013-05-01 En este volumen de las Obras de José Carlos Mariátegui, el autor alerta sobre la necesidad de un arte nuevo —acorde con el futuro revolucionario que despunta— no limitado a simples exploraciones y conquistas formales, ni a describir la realidad mediante los parámetros de la estética realista. La obra de Mariátegui es una defensa apasionada de las vanguardias artísticas y muy especialmente del surrealismo o suprarrealismo. En este alegato se desprende una de sus concepciones más profundas sobre lo literario: su capacidad para revelar los aspectos escondidos o usurpados de la realidad. La verdad literaria es ofrecer una nueva lectura de la realidad, librándose

del bastión de la burguesía que no quiere que nadie cuestione su modo de representar el mundo. La calle, ese personaje anónimo y tentacular que la Torre de Marfil y sus macilentos hierofantes ignoran y desdeñan. La calle, o sea, el vulgo; o sea, la muchedumbre. La calle, cauce proceloso de la vida, del dolor, del placer, del bien y del mal.
