*Chinese Discourses on Happiness* Gerda Wielander, Derek Hird, 2018-11-01 Happiness is on China's agenda. From Xi Jinping's "Chinese Dream" to online chat forums, the conspicuous references to happiness are hard to miss. This groundbreaking volume analyzes how different social groups make use of the concept and shows how closely official discourses on happiness are intertwined with popular sentiments. The Chinese Communist Party's attempts to define happiness and well-being around family-focused Han Chinese cultural traditions clearly strike a chord with the wider population. The collection highlights the links connecting the ideologies promoted by the government and the way they inform, and are in turn informed by, various deliberations and feelings circulating in the society. Contributors analyze the government's "happiness maximization strategies," including public service advertising campaigns, Confucian and Daoist-inflected discourses adapted for the self-help market, and the promotion of positive psychology as well as "happy housewives." They also discuss forces countering the hegemonic discourse: different forms of happiness in the LGBTQ community, teachings of Tibetan Buddhism that subvert the material culture propagated by the government, and the cynical messages in online novels that expose the fictitious nature of propaganda. Collectively, the authors bring out contemporary

Chinese voices engaging with different philosophies, practices, and idealistic imaginings on what it means to be happy. “This distinctive volume creates sustained dialogues around a substantive debate. Rejecting the conventional contrasts between China and the West, and yet deeply immersed in sinophone media, the authors understand Chinese discourse on happiness as multiple but interconnected conversations within a globally shared production of knowledge. Equally concerned with text and image, they exhibit an ethnographic eye as sharp as any orthodox ethnography.” —Deborah Davis, Yale University

“Wielander and Hird have put together a superbly researched and thoughtfully written set of essays on the multiple ways in which that most elusive of all states—happiness—is understood and pursued in contemporary China. A volume that should become required reading for all interested in Chinese society today.” —Julia C. Strauss, SOAS, University of London “Chinese Discourses on Happiness is a timely new collection of essays edited by two sinologists based in Britain, Gerda Wielander and Derek Hird. It explores how China’s propaganda machine devotes extraordinary efforts to promoting the idea that the Chinese people enjoy good and meaningful lives under Communism—precisely because economic growth alone does a poor job of generating happiness.” —The Economist

*Lean Out* Tara Henley, 2020-03-24 INSTANT NATIONAL BESTSELLER Travel to the land of Couldn't Be More Timely.-- Margaret Atwood on *Lean Out*, in the West End Phoenix What begins as one woman's critique of our culture of overwork and productivity ultimately becomes an investigation into our most urgent problems: vast inequality, loneliness, economic precarity, and isolation from the natural world. Henley punctures the myths of the meritocracy in a way few writers have. This is an essential book for our time. --Mandy Len Catron, author of *How to Fall in Love with Anyone* A deeply personal and informed reflection on the modern world--and why so many feel disillusioned by it. In 2016, journalist Tara Henley was at the top of her game working in Canadian media. She had traveled the world, from Soweto to Bangkok and Borneo to Brooklyn, interviewing authors and community leaders, politicians and Hollywood celebrities. But when she started getting chest pains at her desk in the newsroom, none of that seemed to matter. The health crisis--not cardiac, it turned out, but anxiety--forced her to step off the media treadmill and examine her life and the stressful twenty-first century world around her. Henley was not alone; North America was facing an epidemic of lifestyle-related health problems. And yet, the culture was continually celebrating the elite few who thrived in the always-on work world, those who perpetually leaned in. Henley realized that if we wanted innovative solutions to the wave of burnout and stress-related illness, it was time to talk to those who had leaned out. Part memoir, part travelogue, and part investigation, *Lean Out* tracks Henley's journey from the heart of the connected city to the fringe communities that surround it. From early retirement enthusiasts in urban British Columbia to moneyless men in rural Ireland, Henley uncovers a parallel track in which everyday citizens are quietly dropping out of the mainstream and reclaiming their lives from overwork. Underlying these disparate movements is a rejection of consumerism, a growing appetite for social contribution, and a quest for meaningful connection in this era of extreme isolation and loneliness. As she

connects the dots between anxiety and overwork, Henley confronts the biggest issues of our time.

**Reinventing Tradition** Klavdia Smola, 2024-02-20 How was the Jewish tradition reinvented in Russian-Jewish literature after a long period of assimilation, the Holocaust, and decades of Communism? The process of reinventing the tradition began in the counter-culture of Jewish dissidents, in the midst of the late-Soviet underground of the 1960-1970s, and it continues to the present day. In this period, Jewish literature addresses the reader of the 'post-human' epoch, when the knowledge about traditional Jewry and Judaism is received not from the family members or the collective environment, but rather from books, paintings, museums and popular culture. Klavdia Smola explores how contemporary Russian-Jewish literature turns to the traditions of Jewish writing, from biblical Judaism to early-Soviet (anti-)Zionist novels, and how it 're-writes' Haskalah satire, Hassidic Midrash or Yiddish travelogues.

**Design and Spirituality** Stuart Walker, 2020-12-30 Design and Spirituality examines the philosophical context of our current situation and its implications for design. It explores how modernity and our constricted notions of progress have contributed to today's crisis of values, and argues for a re-establishment and re-affirmation of self-transcending priorities, together with an ethos of moderation and sufficiency. A wide range of topics are covered, including material culture and spiritual teachings; sustainability and the spiritual perspective; traditional and indigenous knowledge; technology and spirituality; notions of meaningful design; and how particular material things can have deeper, symbolic significance. There are also reflections on areas such as the language of design; busyness and its relationship to wisdom; design and social disparity; and traditional sacred practices. While not avoiding issues that are controversial, and sometimes hard-hitting, Design and Spirituality gets to the heart of the key issues affecting us today and presents them in a highly readable and accessible format. The author is a leading thinker in the field and he presents his arguments in a manner that invites the reader to reflect and think about where we are going, why we are going there and what really matters. **Employability via Higher Education: Sustainability as Scholarship** Alice Diver, 2019-09-23 This book discusses the topic of graduate employability from the premise that in this era of 'massification,' economic austerity, and political

uncertainties, higher education (HE) no longer guarantees a clear 'work place advantage.' Divided into three sections, the book offers theoretical and philosophical discourses on the 'HE quandary,' whilst taking into account - and critiquing - political, temporal, and national contexts. It culminates in an investigation into specific discipline areas. It offers insights into the way that institutions, decision-makers, academics, and professional support staff can work together towards ensuring that our graduates are able to cope with the varied demands and challenges of modern job markets. It harnesses arguments and reflections on the breadth and depth of the functions of HE, such as social transformation, promoting principles of social justice, and providing opportunities. It grounds these in a triadic model for enhancing student engagement and holistic learning, namely, the emotional, cognitive, and behavioural aspects. As an anthology, it is forward-gazing in terms of the sustainability debate, whilst still offering evidence-based, research-grounded, practical suggestions to readers looking for tips and tools of the trade.

Introduction to Development Economics Marco Missaglia, Gianni Vaggi, 2025-03-21 This textbook provides an introduction to development economics that examines both the drivers of economic growth and sustainable development. It initially presents development economics within a historical and political context, before widening its attention to theories of growth and development, the importance of the Sustainable Development Goals, the imbalance of power between the Global North and South, global development policies, and the role of international finance in development. Rather than focusing primarily on neoclassical growth theories, qualitative and quantitative aspects of the development process are both highlighted. This book aims to give readers a broad understanding of the economic drivers of development and the economic theories that underpin them. It will be relevant to undergraduate and postgraduate students interested in development economics and sustainable development.
