**John Maxwell Hamilton**

**The Mother of All Booklists** William Patrick Martin, 2014-12-24 The Mother of All Booklists: The 500 Most Recommended Nonfiction Reads for Ages 3 to 103 is written for parents, grandparents, and teachers unfamiliar with the bewildering array of award and recommended reading lists. This book is a long overdue composite of all the major booklists. It brings together over 100 of the most influential book awards and reading lists from leading magazines, newspapers, reference books, schools, libraries, parenting organizations, and professional groups from across the country. The Mother of All Booklists is to reading books what the website Rotten Tomatoes is to watching movies—the ultimate, one-stop, synthesizing resource for finding out what is best. Mother is not the opinion of one book critic, but the aggregate opinion of an army of critics. Organized into five age group lists each with one hundred books—preschoolers (ages 3-5), early readers (ages 5-9), middle readers (ages 9-13), young adults (ages 13-17), and adults (ages 18+)—The Mother of All Booklists amalgamates the knowledge of the best English-language booklists in the United States, including a few from Canada and Great Britain. Each of the 500 books is annotated, describing the contents of the book and suggesting why the book is unique and important. Each includes a picture of the book cover.

**The Best of 2018-2019. Men & Women of the Year** Maximilien de Lafayette, 2019 The Best of 2018-2019. Men & Women of the Year. Personalités et Stars de l'Année. *The World's Greatest Olympians* Michael Hurley, 2011-07 The World's Greatest Olympians looks at great Olympians through the history of the modern Olympics and reasons why these athletes were/are so great. It also includes Fact Files fact boxes of top athletes and charts and tables to help illustrate their amazing talents and achievements.

**Casanova Was A Book Lover** John Maxwell Hamilton, 2000-04 Everyone knows which books people buy; they can just look at the best-seller lists. But who knows which books people steal? Who, for that matter, knows that authors ruin the book

market by writing too much? Or why book critics are not critical? Or why librarians need to throw out more books? Who, indeed, knows the answer to that all-important question in our democracy: should presidents and presidential candidates write books? (The answer is no.) In this irreverent analysis of the book industry, John Maxwell Hamilton -- a longtime journalist and public radio commentator -- answers these questions and many more, proving that the best way to study books is not to take them too seriously. He provides a rich history of the book -- from the days when monks laboriously hand-copied texts to the tidal wave of Titanic tie-ins -- and gives a succinct overview of the state of the industry today, including writing, marketing, promoting, reviewing, ghostwriting, and collecting. Throughout, Hamilton peppers his prose with spicy tidbits of information that will fascinate bibliophiles everywhere. For instance, did you know that Walt Whitman was fired from a government job because his boss found *Leaves of Grass*, and its author, immoral? Or that the most stolen book in the United States is the Bible, followed by *The Joy of Sex*? How about that Dan Quayle's 1989 Christmas card read, May our nation continue to be a beacon of hope to the world? Or that Casanova was an ardent lover of books as well as women? Hamilton offers an inside look at the history and business of book reviewing, explaining why, more often than not, reviewers resemble counselors at a self-esteem camp and examining the enormous impact of the Oprah effect on the market. As the self-appointed Emily Post of the book world, he advises publishers, authors, and readers on proper etiquette for everything from book parties (Feel free to build a party around a theme in a book, no matter how tacky) and jacket photos (You should not show off your new baby unless [your] book [is] about raising kids), to book signings (Just because an author has given you an autograph does not mean they want to become your pen pal) and promotion by friends and relatives (They should carry the book at all times on public transportation with the cover showing). Both edifying and enjoyable, *Casanova Was a Book Lover* fills a Grand Canyon--sized void in the literature on literature. It is indispensable for book enthusiasts who want to know the naked truth about reading, writing, and publishing.

Modern American Environmentalists George A. Cevasco, Richard P. Harmond, 2009-04-27 *Modern American Environmentalists* profiles the lives and contributions of nearly 140 major figures during the twentieth-century environmental movement. Included are iconic environmentalists such as Rachel Carson, E. O. Wilson, Gifford Pinchot, and Al Gore, and important but less expected names, including John Steinbeck and Allen Ginsberg. The entries recount how each individual became active in environmental conservation, detail his or her significant contributions, trace the influence of each on future efforts, and discuss the person's legacy. The individuals selected for the book displayed either an unparalleled commitment to the conservation, preservation, restoration, and enhancement of the natural environment or made a major contribution to the growth of environmentalism during its first century. With a foreword by environmental historian Everett I. Mendelsohn, a time line of key environmental events, a bibliography of groundbreaking works, and an index organized by specialization, this biographical encyclopedia is a handy and complete guide to the major people involved in the modern American

environmental movement. -- Mark Harvey

*When Texas Prison Scams Religion* Michael G. Maness, 2023-05-22 When Texas Prison Scams Religion exposes corruption in the Texas Department of Criminal Justice, especially in the abuse of religion. In many ways, this book is a literature review of 1,800-plus works that defends freedom of conscience in prison while exposing the unconstitutionality of the seminary program that “buys faith with favor” from prisoners. The state veritably ordains the prisoner a “Field Minister” that represents the offices of the Governor, TDCJ Director, and wardens throughout the prison. Therein, TDCJ lies about neutrality in a program all about Christian missions and lies again in falsely certifying elementary Bible students as counselors. Why is the director sponsoring psychopaths counseling psychopaths? In fact, TDCJ pays \$314 million a year to UTMB for psychiatric care and receives not a single report of the care given, and worse, for UTMB generates no reports itself. The underbelly TDCJ’s executive culture of cover up is exposed. TDCJ has hired the lowest qualified of the applicant pool many times in the last 25 years and regularly destroys statistics on violence. TDCJ Dir. Collier led the prison to model Louisiana Warden Burl Cain, the most scandal-ridden in penal history according to a host of published news stories for 20 years. Therein, Collier led TDCJ to favor the smallest segment of religious society within Evangelical Dominionism. Texas has no business endorsing the truth of any religion over another. We close with a proposal that utilizes the 400,000,000 hours of officer contact over ten years as a definitive influence in contrast to a commissioner that spends less than 10 minutes on each decision. Maness has been lobbying Austin for 15 years to definitively access staff for his “100,000 Mothers’ 1% Certainty Parole Texas Constitutional Amendment,” which would revolutionize prison culture and save Texans millions of the dollars.

End the Biggest Educational and Intellectual Blunder in History Norman W. Edmund, 2005 This book discusses misunderstandings related to the scientific method of creative problem solving and decision-making. The author has conducted extensive research in this field for more than 15 years and shows that the misunderstandings have created great harms in the educational field and in most other fields. This book will be important reading for all those interested in better education, better thinking, and a better society.

**Gellhorn** Caroline Moorehead, 2007-04-01 The first major biography of legendary war correspondent Martha Gellhorn, whose life provides a unique and thrilling perspective on world history in an extraordinary time Martha Gellhorn's heroic career as a reporter brought her to the front lines of virtually every significant international conflict between the Spanish Civil War and the end of the Cold War. The preeminent-and often the only-female correspondent on the scene, she broke new ground for women in the male preserve of journalism. Her wartime dispatches, marked by a passionate desire to expose suffering in its many guises and an inimitable immediacy, rank among the best of the twentieth century. A deep-seated love of travel complemented this interest in world affairs. From her birth in St. Louis in 1908 to her death in London in 1998, Gellhorn passed through Africa, Cuba, China, and most of the great cities of Europe, recording her experiences in first-rate

travel writing and fiction. A tall, glamorous blonde, she made friends easily-among the boldface names that populated her life were Eleanor Roosevelt, Leonard Bernstein, and H. G. Wells-but she was as incapable of settling into comfortable long-term relationships as she was of sitting still, and happiness often eluded her despite her professional success. Both of her marriages ended badly-the first, to Ernest Hemingway, publicly so. Drawn from extensive interviews and with exclusive access to Gellhorn's papers and correspondence, this seminal biography spans half the globe and almost an entire century to offer an exhilarating, intimate portrait of one of the defining women of our times.

**Selected Letters of Martha Gellhorn** Martha Gellhorn, Caroline Moorehead, 2024-05-01 A literary landmark that spans the author's complex life and career—Gellhorn's prose . . . is at its finest in the letter form (Francine du Plessix Gray, *The New York Times Book Review*). Martha Gellhorn's reporting brought her to the front lines of virtually every significant conflict from the Spanish Civil War to the end of the cold war. While Gellhorn's wartime dispatches rank among the best of the twentieth century, her personal letters are their equal: as vivid and fascinating as her reporting was trenchant. Gellhorn's correspondence introduces us to the woman behind the often-inscrutable journalist, chronicling her friendships with world-famous luminaries as well as her tempestuous marriage to Ernest Hemingway. Caroline Moorehead, Gellhorn's critically acclaimed biographer, was granted exclusive access to the letters. This expertly edited volume contextualizes Gellhorn's correspondence within the arc of her entire life; the result is an intimate portrait of one of the most accomplished women of modern times. Lessons from a Dark Time and Other Essays Adam Hochschild, 2018-10-02 In this rich collection, bestselling author Adam Hochschild has selected and updated over two dozen essays and pieces of reporting from his long career. Threaded through them all is his concern for social justice and the people who have fought for it. The articles here range from a California gun show to a Finnish prison, from a Congolese center for rape victims to the ruins of gulag camps in the Soviet Arctic, from a stroll through construction sites with an ecologically pioneering architect in India to a day on the campaign trail with Nelson Mandela. Hochschild also talks about the writers he loves, from Mark Twain to John McPhee, and explores such far-reaching topics as why so much history is badly written, what bookshelves tell us about their owners, and his front-row seat for the shocking revelation in the 1960s that the CIA had been secretly controlling dozens of supposedly independent organizations. With the skills of a journalist, the knowledge of a historian, and the heart of an activist, Hochschild shares the stories of people who took a stand against despotism, spoke out against unjust wars and government surveillance, and dared to dream of a better and more just world.

**Twentieth-Century and Contemporary American Literature in Context** Linda De Roche, 2021-06-04 This four-volume reference work surveys American literature from the early 20th century to the present day, featuring a diverse range of American works and authors and an expansive selection of primary source materials. Bringing useful and engaging material into the classroom, this four-volume set covers more than a century of American literary history—from 1900 to the present. Twentieth-Century and Contemporary American Literature in Context profiles authors and their works and provides overviews of literary movements and genres through which readers will understand the historical, cultural, and political contexts that have shaped American writing. Twentieth-Century and Contemporary American Literature in Context provides wide coverage of authors, works, genres, and movements that are emblematic of the diversity of modern America. Not only are major literary movements represented, such as the Beats, but this work also highlights the emergence and development of modern Native American literature, African American literature, and other representative groups that showcase the diversity of American letters. A rich selection of primary documents and background material provides indispensable information for student research.

**Jesus** Tim LaHaye, 2010-01-01 Jesus. Love Him or hate Him, He's everywhere. On our t-shirts, bumper stickers, and even on the covers of leading news magazines, year after year. We see Him on the silver screen, in the headline crawl on the TV news, and on the homemade signs held up at ball games. Hotly debated, He remains the most conspicuous figure of all time, even twenty decades after His inglorious death. Best-selling author Tim LaHaye, together with coauthor David Minasian, looks back through history and peers into the prophetic future to show us why the world's Jesus Fascination should come as no surprise. After reading about Jesus' life, legacy, and pervasive influence, you may find yourself connecting the dots of your own spiritual journey and answering the timeless question that came from the lips of Jesus Himself: Who do you say that I am?

*The Vampire in Folklore, History, Literature, Film and Television*, 2015-10-07 This comprehensive bibliography covers writings about vampires and related creatures from the 19th century to the present. More than 6,000 entries document the vampire's penetration of Western culture, from scholarly discourse, to popular culture, politics and cook books. Sections by topic list works covering various aspects, including general sources, folklore and history, vampires in literature, music and art, metaphorical vampires and the contemporary vampire community. Vampires from film and television--from Bela Lugosi's Dracula to Buffy the Vampire Slayer, True Blood and the Twilight Saga--are well represented.

**Toward a 21st-Century School Library Media Program** Esther Rosenfeld, David V. Loertscher, 2007-10-15 This collection of enlightening and stimulating articles, written by some of the most important figures in school librarianship, demonstrates how teacher-librarians, classroom teachers, and administrators can work together to create a 21st century school library media program. With topics that emphasize student success, leadership, partnerships, curriculum design, collaborative planning and teaching, literacy, 21st century skills, emerging technologies, and so much more, this compendium brings together the best of the best discussions. The practicing teacher-librarian, as well as the student seeking to expand his or her knowledge of the field, will find this compilation especially beneficial in providing an overview of the most critical issues related to the role the teacher-librarian plays in their school. The articles, previously published in the peer-reviewed Teacher Librarian: The Journal for School Library Professionals with several included from the magazine

VOYA: Voice of Youth Advocates, reveal how school libraries and teacher-librarians are moving forward to meet the challenges of this new century.

*A Century of Geneticists* Krishna Dronamraju, 2018-12-07 Genetics, like all scientific disciplines, is a human endeavor. Thus, the lives of geneticists - their friendships, colleagues and associations - play an important role in the historical development of the science. This book summarizes the history of genetics by reviewing the lives of the prominent and influential researchers beginning with the earliest and simplest branches of genetics (studies of inheritance and mutation) and ending with the human genome project - the pinnacle of genetics research of the 20th century. Key selling features: Summarizes the lives of important genetics researchers Reviews the development of important foundational concepts Highlights the way new technologies and methods have advanced the study of genetics Explores the influence of genetics in other biomedical fields Avoids simplistic chronological summary of genetics

*The Rotarian*, 1955-02 Established in 1911, The Rotarian is the official magazine of Rotary International and is circulated worldwide. Each issue contains feature articles, columns, and departments about, or of interest to, Rotarians. Seventeen Nobel Prize winners and 19 Pulitzer Prize winners - from Mahatma Gandhi to Kurt Vonnegut Jr. - have written for the magazine.

*Public Opinion and Polling around the World* John G. Geer, 2004-07-21 Covering the intricate facets of America's most important democratic tradition, this book serves as an important resource to understand how citizens' views are translated into governmental action. Public Opinion and Polling around the World presents a thorough review of public opinion from its roots in colonial America to its role in today's emerging democracies. More than 100 entries prepared by top scholars examine the 200-year history of public opinion, measurement methodologies with an emphasis on telephone interviews and Internet polls, and key figures like George Gallup and Elmo Roper, who created their own polling systems. An analysis of theories compares schools of thought from the fields of psychology, sociology, and economics and explores how people form opinions. A fascinating snapshot of the public's current views on economic issues, foreign policy, gender, gay rights, and other hot-button topics observes patterns across genders, race, ethnic origins, class, and religion in regions all over the world. Students, academicians, and political observers will discover answers to such questions as, does public opinion shape the behavior of government?
