The Big Book of Whole School Wellbeing Kimberley Evans,Thérèse Hoyle,Frederika Roberts,Bukky Yusuf,2021-10-27 Your essential guide to wellbeing in education. Despite many school leaders and teaching and non-teaching staff working hard to support children's and their own wellbeing, more needs to be done. This book provides you with the necessary tools and strategies to navigate your way through the changing educational landscape and shape the schools of the future. Written by a diverse range of experts in the field, it explores how all school staff can support their own, their colleagues' and their students' wellbeing, how leaders can lead well and be well, and the importance of relationships within the entire school community to promote personal, academic and professional flourishing. This book will make you think and take you out of your comfort zone. It will inspire discussions and support you - whatever your role in school is - to bring positive change to school policy and culture. Kimberley Evans is an experience teacher and founder of Nourish the Workplace. Thérèse Hoyle is an education consultant, leadership coach and trainer. Frederika Roberts is a Positive Education advocate and former teacher. Bukky Yusuf is a senior leader, science teacher and consultant.

Empowering Settings and Voices for Social Change Mark S. Aber,Kenneth I. Maton,Edward Seidman,2010-11-17 Empowering Settings and Voices for Social Change combines a focus on understanding social settings as loci for empowering intervention with a focus on understanding and giving voice to citizens. Volume chapters illuminate advances in theory and method relevant to changing a broad spectrum of social settings from a strengths-based perspective.

Sustainable Smart Cities and Smart Villages Research Miltiadis D. Lytras,Anna Visvizi,2020-03-16 Over the last years, sophisticated policy making propositions for sustainable rural and urban development have been recorded. The smart village and smart city concepts promote a human-centric vision for a new era of technology-driven social innovation. This Special Issue offers a useful overview of the most recent developments in the frequently overlapping fields of smart city and smart village research. A variety of topics including well-being, happiness, security, open democracy, open government, smart education, smart innovation, and migration have been addressed in this Special Issue. They define the direction for future research in both domains. The organization of the relevant debate is aligned around three pillars: Section A: Sustainable Smart City and Smart Village Research: Foundations • Clustering Smart City Services: Perceptions, Expectations, and Responses • Smart City Development and Residents' Well-Being • Analysis of Social Networking Service

Data for Smart Urban Planning Section B: Sustainable Smart City and Smart Village Research: Case Studies on Rethinking Security, Safety, Well-being, and Happiness • Exploring a Stakeholder-Based Urban Densification and Greening Agenda for Rotterdam Inner City—Accelerating the Transition to a Liveable Low Carbon City • The Impact of the Comprehensive Rural Village Development Program on Rural Sustainability in Korea • Analyzing the Level of Accessibility of Public Urban Green Spaces to Different Socially Vulnerable Groups of People • Consumers' Preference and Factors Influencing Offal Consumption in the Amathole District Eastern Cape, South Africa • Sustainable Tourism: A Hidden Theory of the Cinematic Image? A Theoretical and Visual Analysis of the Way of St. James • Future Development of Taiwan's Smart Cities from an Information Security Perspective • Towards a Smart and Sustainable City with the Involvement of Public Participation—The Case of Wroclaw Section C: Sustainable Smart City and Smart Village Research: Technical Issues • Detection and Localization of Water Leaks in Water Nets Supported by an ICT System with Artificial Intelligence Methods as a Way Forward for Smart Cities • A Study of the Public Landscape Order of Xinye Village • Spatio-Temporal Changes and Dependencies of Land Prices: A Case Study of the City of Olomouc • Geographical Assessment of Low-Carbon Transportation Modes: A Case Study from a Commuter University • Performance Analysis of a Polling-Based Access Control Combined with the Sleeping Schema in V2I VANETs for Smart Cities.

Father Ed Dowling Glenn F. Chesnut,2015-07-17 The story of Father Ed Dowling, S.J., the Jesuit priest who served for twenty years as sponsor and spiritual guide to Bill Wilson, the co-founder of Alcoholics Anonymous. An icy evening in December 1940 saw the first meeting of two extraordinary spiritual leaders. Father Ed said that the graces he received from meeting Bill Wilson were as great as those he had received from his ordination as a priest, and Bill in turn described encountering the Jesuit as being like a second conversion experience, where he could feel the transcendent presence of God filling the entire room with grace. The good priest taught Wilson about St. Ignatius Loyolas Spiritual Exercises, about the eternal battle between good and evil which the Spanish saint described in that book, and explained the Jesuit understanding of the way we can use our deepest emotions to receive guidance from God while serving on that battlefield. The co-founder of the twelve step movement in turn supplied Father Ed with some of the most valuable tools he possessed for carrying out small group therapy on a wide range of different kinds of troubled people. Together the two men discussed Poulains Graces of Interior Prayer and Bills attempts to make spiritual contact with both spooks and saints, and explored the world of LSD experiences and the teachings of the Catholic, Hindu, and Buddhist mystics in Aldous Huxleys Perennial Philosophy. And we will see how Father Ed, with his deep social conscience, helped Bill W. turn his book on the Twelve Traditions into a Bill of Rights for the twelve step movement, and how he laid out his own spiritual vision of Alcoholics Anonymous at the A.A. International in St. Louis in 1955.

m_Health Current and Future Applications Giuseppe Andreoni,Paolo Perego,Enrico Frumento,2019-02-25 This book

describes current trends in m_Health technology, systems, and applications. The book proposes a multifaceted view on m-Health opportunities and requirements starting from four aspects: patient, technology, design and innovation. The analysis is completed by a market segmentation overview and by the most recent research experiences to offer a complete benchmark and vision of m_Health for today and tomorrow. The contributions are based on the outcomes of initiatives on the future of healthcare, funded by the EU in the frame of FP7 and Horizon 2020 and their deployment into real clinical practice. Throughout the book, clinicians, technicians, researchers, and end-users debate their experience, needs, risks, opportunities, and available solutions in this fast moving field.

Applied Machine Learning for Data Science Practitioners Vidya Subramanian,2025-04-01 A single-volume reference on data science techniques for evaluating and solving business problems using Applied Machine Learning (ML). Applied Machine Learning for Data Science Practitioners offers a practical, step-by-step guide to building end-to-end ML solutions for real-world business challenges, empowering data science practitioners to make informed decisions and select the right techniques for any use case. Unlike many data science books that focus on popular algorithms and coding, this book takes a holistic approach. It equips you with the knowledge to evaluate a range of techniques and algorithms. The book balances theoretical concepts with practical examples to illustrate key concepts, derive insights, and demonstrate applications. In addition to code snippets and reviewing output, the book provides guidance on interpreting results. This book is an essential resource if you are looking to elevate your understanding of ML and your technical capabilities, combining theoretical and practical coding examples. A basic understanding of using data to solve business problems, high school-level math and statistics, and basic Python coding skills are assumed. Written by a recognized data science expert, Applied Machine Learning for Data Science Practitioners covers essential topics, including: Data Science Fundamentals that provide you with an overview of core concepts, laying the foundation for understanding ML. Data Preparation covers the process of framing ML problems and preparing data and features for modeling. ML Problem Solving introduces you to a range of ML algorithms, including Regression, Classification, Ranking, Clustering, Patterns, Time Series, and Anomaly Detection. Model Optimization explores frameworks, decision trees, and ensemble methods to enhance performance and guide the selection of the most effective model. ML Ethics addresses ethical considerations, including fairness, accountability, transparency, and ethics. Model Deployment and Monitoring focuses on production deployment, performance monitoring, and adapting to model drift.

Energy Efficiency Steven Fawkes,2016-04-29 Energy risk has reappeared on the corporate and social agenda with a bang and the complexity of the issues has increased many-fold since the days of the last great wave of concern following the oil crises of the 1970s. Steven Fawkes' Energy Efficiency is a comprehensive guide for managers and policy-makers to the fundamental questions underpinning energy-efficiency and our responses to it: ¢ what do we really mean by energy efficiency? ¢ what is the potential (in different dimensions)? ¢ why it is important? ¢ what management processes lead to

optimisation of energy efficiency? ¢ what technologies are useful for improving energy efficiency? ¢ what policies can be used to promote energy efficiency? ¢ how can energy efficiency be financed? ¢ how can energy suppliers engage with energy efficiency? The result is the most comprehensive review to-date of the barriers and opportunities associated with improving energy efficiency. Clearly written and erudite, Steven Fawkes addresses every aspect of energy efficiency, including the huge and vitally important untapped potential offered by effective energy management and the application of existing technology. He also identifies barriers, such as the rebound effect and how they can be mitigated and he provides a comprehensive review of innovative energy efficiency financing options. This book is a 'must read' for anyone with an interest in energy supply and demand reduction.

Learner Interactions in Massive Private Online Courses Di Sun,Gang Cheng,2022-08-11 By employing learning analytics methodology and big data in Learning Management Systems (LMSs), this volume conducts data-driven research to identify and compare learner interaction patterns in Massive Private Online Courses (MPOCs). The uncertainties about the temporal and sequential patterns of online interaction, and the lack of specific knowledge and methods to investigate details of LMSs' dynamic interaction traces have affected the improvement of online learning effectiveness. While most research focuses on Massive Open Online Courses (MOOCs), little is investigating the learners' interaction behaviors in MPOCs. This book attempts to fill in the gaps by including research in the past decades, big data in education presenting micro-level interaction traces, analytics-based learner interaction in massive private open courses, and a case study. Aiming to bring greater efficiency and deeper engagement to individual learners, instructors, and administrators, the title provides a reference to those who need to evaluate their learning and teaching strategies in online learning. It will be particularly useful to students and researchers in the field of Education. This research was funded by Liaoning Social Science Planning Fund Program in China, grant number [L21BSH002].

Models for Improving and Optimizing Online and Blended Learning in Higher Education Keengwe, Jared,Agamba, Joachim Jack,2014-07-31 This book examines the benefits and costs associated with the utilization of technology-mediated instructional environments, recognizing that instructional technology could offer alternative means of communication for understanding--Provided by publisher.

Advances in Information Communication Technology and Computing Vishal Goar,Manoj Kuri,Rajesh Kumar,Tomonobu Senjyu,2020-08-18 This book features selected research papers presented at the International Conference on Advances in Information Communication Technology and Computing (AICTC 2019), held at the Government Engineering College Bikaner, Bikaner, India, on 8–9 November 2019. It covers ICT-based approaches in the areas ICT for energy efficiency, life cycle assessment of ICT, green IT, green information systems, environmental informatics, energy informatics, sustainable HCI and computational sustainability.

Web Services: Concepts, Methodologies, Tools, and Applications Management Association, Information Resources,2018-12-07 Web service technologies are redefining the way that large and small companies are doing business and exchanging information. Due to the critical need for furthering automation, engagement, and efficiency, systems and workflows are becoming increasingly more web-based. Web Services: Concepts, Methodologies, Tools, and Applications is an innovative reference source that examines relevant theoretical frameworks, current practice guidelines, industry standards and standardization, and the latest empirical research findings in web services. Highlighting a range of topics such as cloud computing, quality of service, and semantic web, this multi-volume book is designed for computer engineers, IT specialists, software designers, professionals, researchers, and upper-level students interested in web services architecture, frameworks, and security.

Sustainable, Innovative and Intelligent Societies and Cities Carlos Filipe da Silva Portela,2023-06-09 This book combines two main topics applied to cities and societies: innovation and sustainability. The book begins by showing a brief overview of the book's main topics; then, the book addresses four main areas which allow our communities to be more attractive, engaging and fun; analytical, descriptive and predictive; healthy, secure and sustainable; and innovative, connected and monitored. This book represents a union of inputs from researchers and practitioners where each chapter has distinct, valuable and practical contributions that turn it unique. The content ranges from theoretical, like studies or analyses to practical, like industrial solutions or engaging systems. Both branches focus on turning our society more attractive, intelligent, inclusive, sustainable, and ready for the future.

Pioneer Stories in Alcoholics Anonymous Dick B.,Ken B.,2012-12-20 Pioneer Stories in Alcoholics Anonymous: God's Role in Recovery Confirmed! by Dick B. and Ken B. presents many quotations from the 29 personal stories included in the first edition of Alcoholics Anonymous. Those stories by many of A.A.'s pioneers testify to roles played by God, His Son Jesus Christ, and the Bible in early A.A.'s astonishing successes with medically-incurable alcoholics.

Assessment in Online and Blended Learning Environments Selma Koç,Xiongyi Liu,Patrick Wachira,2015-03-01 Online and blended learning requires the reconstruction of instructor and learner roles, relations, and practices in many aspects. Assessment becomes an important issue in non-traditional learning environments. Assessment literacy, i.e., understanding assessment and assessment strategies, is critical for both instructors and students in creating online and blended environments that are effective for teaching and learning. Instructors need to identify and implement assessment strategies and methods appropriate to online or blended learning. This includes an understanding of the potential of a variety of technology tools for monitoring student learning and improving their teaching effectiveness. From the students' perspective, good assessment practices can show them what is important to learn and how they should approach learning; hence, engaging them in goal-oriented and self-regulatory cognitions and behaviors. The book targets instructors,

instructional designers, and educational leaders who are interested in understanding and implementing either summative or formative assessment in online and blended learning environments. This book will assist the relevant audience in the theory and practice of assessment in online and blended learning environments. Providing both a research and practice perspective, this book can help instructors make the connection between pedagogy and technology tools to maximize their teaching and student learning. Among the questions addressed in this book are: • What assessment strategies can be used in online or blended learning? • How can instructors design effective assessment strategies? • What methods or technology tools can be used for assessment in online or blended learning? • How does peer-assessment work in online or blended learning environments?

The Change Agent - Paradigm Shift in Consciousness Bruce Barcomb,2022-05-06 The Change Agent - Paradigm Shift in Consciousness is an evolutionary look at who we are in the universal consciousness. As imperfect as we are as a species, we share a common thread of belief systems predicated on learned, internalized data. What have we seen, learned, practiced, and become? Are we capable of self-examination? Without the ability to examine our thoughts, ideas, or learned practices, we are forever bound to arcane ideas or behaviors that do not reflect our natural ability to adapt. The Change Agent - Paradigm Shift in Consciousness reflects our collective and individual human condition spanning a few millennia. In correlating the foundations of our collective, concepts from books, films, history, facts, and conspiracies are incorporated, all backed by supporting referential materials.

Father Ralph Pfau and the Golden Books Glenn F. Chesnut,2017-01-04 Father Ralph Pfau was one of AAs four most-published and most-formative authors (along with Bill Wilson, Richmond Walker, and Ed Webster) during the new movements earliest thirty years, during which it grew from only 100 members to almost 300,000. In the first ten years Pfau spent working to spread AA, he said I have traveled nearly 750,000 miles .... I have spoken before nearly two hundred thousand members of AA at retreats, meetings and conventions, and personally discussed problems with more than ten thousand alcoholics. He produced fourteen extremely popular books, called the Golden Books, under the pen name Father John Doe, along with other books and recordings. When he joined Alcoholics Anonymous in 1943, he became the first Roman Catholic priest to get sober in the newly formed movement. An alcoholic and drug addict, he had spent the previous ten years being removed from parish after parish, as his drinking and addiction to downers got out of control over and over again. He taught the spirituality of imperfection, drawing from St. Thrse of Lisieuxs Little Way and St. Augustines teaching of God as Truth Itself the forgiving God who touches us in our fallenness, in acts of sudden psychological insight in which our whole perspective on life undergoes sweeping positive quantum changes. Over and over he calmed peoples fear of God by reminding them that perfection was a myth, and that no human being could do it all. He was one of the most creative and interesting American Catholic theologians of his era.

Proceedings of the International Conference on Business and Management Dynamics 2016: Sustainable economies in the information economy Joy E. Akahome,Michael Twum-Darko,Cyril Ogbokor,Nyaniso Mfusi Zonke,T. Sethibe,R. Steyn,Esme Mohammed,Renier Steyn,L.B. Nguenang,Mamorena Lucia Matsoso,Henry N. Ozuru,Julius Akaba,Patient Rambe,Edem Korku Agbobli,Henri-Vincent Ndjave-Ndjoy,Regis Muchemwa,Andre de la Harpe,Konosoang Mpiti,Ayodeji Afolayan,2016-12-31 Cape Town, South Africa, 7 Sept. 2016 – 8 Sept. 2016. Theme: Sustainable economies in the information economy. Purpose: To share the quality academic papers presented at the International Conference on Business and Management Dynamics (ICBMD) held from 7 to 8 September 2016 at African Pride Crystal Hotel and Spa in Cape Town. As grey literature, the proceedings are the contributions made by researchers at the conference and are considered the written record of the work that was presented to fellow conference delegates. Methodology: The methodology used varies from researcher to researcher but are suitable for the studies conducted. Thus, on the one hand, studies that were subjective in nature used the interpretive paradigm, where the qualitative approach adopted made used of the interview method to collect data. On the other hand, studies that were objectively inclined adopted the positivist philosophy and used survey questionnaires to collect data. However, there were some academic papers which used mixed methodology because of the nature of the study. Whatever methodology used adhered to the ethos of the philosophies underpinning the methodology. Contribution made to scholarship: The articles come from individual researchers and each article in the proceedings is unique. Mostly, there is no general argument leading from one contribution to the next. However, it is interesting to note that in the area of economic performance it was evident that real exchange rate and net foreign direct investment contribute more towards innovations in economic growth. With regard to human capital development, papers presented evidence that there exists a definite need to explore the phenomenon of personal branding as limited scientific academic research has been done within the field of personal branding or on elements of the topic. Thus, the outcome argues that personal branding has an influence on leadership style which in turn impacts on organisational performance and related hygiene factors. Furthermore, it was demonstrated that current methods or strategies for enforcing institutionalisation of knowledge sharing within an organisation have not been successful, and, as such, new strategies are needed to reinforce efforts to nurture and invigorate the institutionalisation of knowledge sharing within an organisation. With regard to technology and big data impact on organisational performance, it was evident that system performance, memory consumption and CPU utilisation can be used as criteria to compare and evaluate big data technologies to improve organisational performance. Most of the articles' contribution reemphasised technology education and training as a means of digitising business and improving effectiveness. Target audience: The target readership is academic researchers and business leaders who require access to the latest developments in the fields of economics, information management, business, education, development studies, social sciences and technology. It is also for policymakers and other stakeholders who need a better understanding of the impact of new

developments on existing policies and regulations for their review or amendment.

Generating test scenarios for assessing automated driving systems using scenario fusion (Band 28) Maximilian Bäumler, This thesis presents the find-unify-synthesize-evaluate for representativity (FUSE4Rep) process model, a novel approach to the safety evaluation of automated driving systems (ADS). Designed to make road traffic safer by preventing accidents, ADS must demonstrate a higher level of safety than human drivers. FUSE4Rep addresses the challenge of unifying divergent information from sources such as police accident data and video-based traffic observations to ensure a comprehensive scenario representation. Through scenario fusion, the process synthesises diverse traffic data into a representative scenario catalogue, enabling a thorough assessment of ADS over a wide scenario space. Using statistical matching, it derives and varies logical scenarios to cover potential real-world conditions in stochastic simulations. A case study shows how German police accident data and video-based observations are used to create a fused scenario catalogue, demonstrating the practical application of FUSE4Rep. As part of the comprehensive "Dresden Method" for ADS evaluation, this approach provides a reliable framework for the development of safer ADS and contributes to improved road safety.

Topological Structures via Interval-Valued Neutrosophic Crisp Sets Dongsik Jo, S. Saleh,Jeong-Gon Lee, Kul Hur, Chen Xueyou, In this paper, we introduce the new notion of interval-valued neutrosophic crisp sets providing a tool for approximating undefinable or complex concepts in real world. First, we deal with some of its algebraic structures. We also define an interval-valued neutrosophic crisp (vanishing) point and obtain some of its properties. Next, we define an interval-valued neutrosophic crisp topology, base (subbase), neighborhood, and interior (closure), respectively and investigate some of each property, and give some examples. Finally, we define an interval-valued neutrosophic crisp continuity and quotient topology and study some of each property.

The Oxford Handbook of Methods for Public Scholarship Patricia Leavy PhD,2019-08-26 The Oxford Handbook of Methods for Public Scholarship presents the first comprehensive overview of research methods and practices for engaging in public scholarship. Public scholarship, which has been on the rise over the past 25 years, produces knowledge that is available outside of the academy, is useful to relevant stakeholders, and addresses publicly identified needs. By involving stakeholders in the entire process, and making the findings accessible, public scholars contribute to a crucial democratization of research. The Oxford Handbook of Methods for Public Scholarship features a wealth of highly respected interdisciplinary contributors, as well as emerging scholars, and chapters include robust examples from real world research in varied fields and cultures. The volume features ample discussion of working with non-academic stakeholders, coverage of traditional and emergent methods including those that draw from the arts, the internet, social media, and digital technologies, and coverage of key issues such as writing, publicity, and funding.
