

Portraits Of Queen Elizabeth The First

Susan Frye

Gloriana Roy Strong, 2003 To examine the portraits of Elizabeth I is to witness the creation of the legend of the Virgin Queen, of Gloriana and her burgeoning empire. The history of the portraiture is that of the deliberate manufacture of an image powerful enough to hold together a people divided by both rigid hierarchy and religious belief. When Elizabeth came to the throne in 1558, her subjects had an all-too-vivid memory of military defeat and religious turmoil. Restoring stability to the kingdom involved the image of the Queen herself--over the years, she was transmuted from an elegant aristocrat into a cosmic vision. In *Gloriana*, Roy Strong provides a richly detailed analysis of all the major portraits.

History's Beauties Lara Perry, 2006 The 'beauties' - women of note - who were welcomed to the National Portrait Gallery's early collection were those whose lives and portraits were recognized as significant to the 'civil, ecclesiastical and literary history of the nation'. This brief was interpreted to include figures as diverse as the devout Lady Margaret Beaufort, and the entertaining Lady Emma Hamilton. *History's Beauties*, the first detailed study of this collection, maps a culture of femininity that reframes the Victorian fascination with women's domestic and sentimental presence by locating it within a Parliament-centred 'national' culture.

The Cult of Elizabeth Roy C. Strong, 1986-01-01 No other woman in world history has been of such compulsive interest as Elizabeth Tudor. While the rest of the 16th-century Europe was subject to the bloodshed of religious war, Tudor peace brought England its great flowering of the arts. Central to that flowering was the enigmatic legend of the Queen herself, a myth deliberately created and sustained over four decades by public spectacle and courtly chivalry, by private sonnet and official oration.

Elizabeth I Susan Frye, 1996-11-28 Elizabeth I is perhaps the most visible woman in early modern Europe, yet little attention has been paid to what she said about the difficulties of constructing her power in a patriarchal society. This revisionist study examines her struggle for authority through the representation of her female body. Based on a variety of extant historical and literary materials, Frye's interpretation focuses on three representational crises spaced fifteen years apart: the London coronation of 1559, the Kenilworth entertainments of 1575, and the publication of *The Faerie Queene* in 1590. In ways which varied with social class and historical circumstance, the London merchants, the members of the Protestant faction, courtly artists, and artful courtiers all sought to stabilize their own gendered identities by constructing the queen within the natural definitions of the feminine as passive and weak. Elizabeth fought back, acting as a discursive agent by crossing, and thus disrupting, these definitions. She and those closely identified with her interests evolved a number of strategies through which to express her political control in terms of the ownership of her body, including her elaborate iconography and a mythic biography upon which most accounts of Elizabeth's life have been based. The more authoritative her image became, the more vigorously it was contested in a process which this study examines and consciously perpetuates.

Notes on the Early British Engraved Royal Portraits Issued in Various Series from 1521 to the End of the Eighteenth Century Howard Coppuck Levis, 1917

Royal Portraits in Hollywood Elizabeth A. Ford, Deborah C. Mitchell, 2009-06-26 Few lives provide as much history or drama as those of monarchs. Filmmakers from the silent era to onward have displayed a deep fascination with the lives of royalty and with queens in particular. Still, the question remains: what do these films really tell us about the women beneath the crowns? Drawing on films from the 1930s to those of today, *Royal Portraits in Hollywood: Filming the Lives of Queens* investigates the ways in which these films reproduce history and represent women. Though hardly progressive in nature, many early films offered an acceptable, nonthreatening way to present strong female characters in an economic and social

landscape run almost exclusively by men. Authors Elizabeth Ford and Deborah Mitchell track the evolution of queens on film, noting how depictions of prominent women have changed over the past several decades and calling attention to the ways in which films both reflect and dictate the social norms of their eras. By comparing historical records of monarchs such as Queen Christina of Sweden, Catherine the Great, Cleopatra, and Elizabeth I with their onscreen personas, and examining the biographical details of the actresses who portrayed these women, Ford and Mitchell present a fascinating inquiry into issues of historical accuracy and gender politics in film.

Photography John Ingledew, 2005 John Ingledew: Photography provides a basic introduction for students across the visual arts. This accessible, inspirational guide to creative photography explores the subjects and themes that have always obsessed photographers and explains technique in a clear and simple way. Embracing the whole spectrum of photography from traditional to digital, it introduces the work of the masters of the art as well as showing fresh, dynamic images created by young photographers from all over the world. An essential resource, the book also provides a valuable overview of careers in photography and a comprehensive reference section, including a glossary of technical vocabulary.--BOOK JACKET.

web sinopsis de nana en el tejado
premio sgae de teatro infantil 2016

nana está durmiendo en el tejado de su
casa la ciudad entera está inundada
desde hace días es incómodo y aburrido
pero pronto conocerá a otro niño que
