So Many Books, So Little Time Sara Nelson,2004-10-05 “Will make many readers smile with recognition.”—The New Yorker “Readaholics, meet your new best friend.”—People “This book is bliss.”—The Boston Globe Sometimes subtle, sometimes striking, the interplay between our lives and our books is the subject of this unique memoir by well-known publishing correspondent and self-described “readaholic” Sara Nelson. The project began as an experiment with a simple plan—fifty-two weeks, fifty-two books—that fell apart in the first week. It was then that Sara realized the books chose her as much as she chose them, and the rewards and frustrations they brought were nothing she could plan for. From Solzhenitsyn to Laura Zigman, Catherine M. to Captain Underpants, the result is a personal chronicle of insight, wit, and enough infectious enthusiasm to make a passionate reader out of anybody.

In-Between Fiction and Non-Fiction Michelangelo Paganopoulos, 2019-01-15 This volume invites the reader to join in with the recent focus on subjectivity and self-reflection, as the means of understanding and engaging with the social and historical changes in the world through storytelling. It examines the symbiosis between anthropology and fiction, on the one hand, by looking at various ways in which the two fields co-emerge in a fruitful manner, and, on the other, by re-examining their political, aesthetic, and social relevance to world history. Following the intellectual crisis of the 1970s, anthropology has been criticized for losing its ethnographic authority and vocation. However, as a consequence of this, ethnographic scope has opened towards more subjective and self-reflexive forms of knowledge and representations, such as the crossing of the boundaries between autobiography and ethnography. The collection of essays re-introduces the importance of authorship in relationship to readership, making a ground-breaking move towards the study of fictional texts and images as cultural, sociological, and political reflections of the time and place in which they were produced. In this way, the contributors here contribute to the widening of the ethnographic scope of contemporary anthropology. A number of the chapters were presented as papers in two conferences organised by the Association of Social Anthropologists of the UK and Commonwealth at Jawaharlal Nehru University, New Delhi, entitled "Arts and aesthetics in a globalising world" (2012), and at the University of Exeter, entitled "Symbiotic Anthropologies" (2015). Each chapter offers a unique method of working in the grey area between and beyond the categories of fiction and non-fiction, while creatively reflecting upon current methodological, ethical, and theoretical issues, in anthropology and cultural studies. This is an important book for undergraduate and post-graduate students of anthropology, cultural and media studies, art theory, and creative writing, as well as academic researchers in these fields.

Jeremiah Kathleen M. O'Connor, 2011 Whether dealing with collective catastrophe or intimate trauma, recovering from emotional and physical hurt is hard. Kathleen O'Connor shows that although Jeremiah's emotionally wrought language can aggravate readers' memories of pain, it also documents the ways an ancient community, and the prophet personally, sought to restore their collapsed social world. Both prophet and book provide a traumatized community language to articulate disaster; move self-understanding from delusional security to identity as survivors; constitute individuals as responsible moral agents; portray God as equally afflicted by disaster; and invite a reconstruction of reality -- Publisher description.

The Birds That Audubon Missed Kenn Kaufman, 2025-05-20 Renowned naturalist Kenn Kaufman examines the scientific discoveries of John James Audubon and his artistic and ornithologist peers in this fascinating “blend of history, science, art, biography, and memoir” (Booklist, starred review) that is “a bird lovers’ delight” (Kirkus Reviews). Raging ambition. Towering egos. Competition under a veneer of courtesy. Heroic effort combined with plagiarism, theft, exaggeration, and fraud. This was the state of bird study in eastern North America during the early 1800s, as a handful of intrepid men raced to find the last few birds that were still unknown to science. The most famous name in the bird world was John James Audubon, who painted spectacular portraits of birds. But although his images were beautiful, creating great art was not his main goal. Instead, he aimed to illustrate (and write about) as many different species as possible, obsessed with trying to outdo his rival, Alexander Wilson. George Ord, a fan and protégé of Wilson, held a bitter grudge against Audubon for years, claiming he had

faked much of his information and his scientific claims. A few of Audubon's birds were pure fiction, and some of his writing was invented or plagiarized. Other naturalists of the era, including Charles Bonaparte (nephew of Napoleon), John Townsend, and Thomas Nuttall, also became entangled in the scientific derby, as they stumbled toward an understanding of the natural world—an endeavor that continues to this day. Despite this intense competition, a few species—including some surprisingly common songbirds, hawks, sandpipers, and more—managed to evade discovery for years. Here, renowned bird expert and artist Kenn Kaufman explores this period in history from a new angle, by considering the birds these people discovered and, especially, the ones they missed. Kaufman has created portraits of the birds that Audubon never saw, attempting to paint them in that artist's own stunning style, showing how our understanding of birds continues to gain clarity, even as some mysteries persist from Audubon's time until ours.

With Roots in Heaven Tirzah Firestone, 2024-03-12 A riveting story of how one brave and adventurous woman turned her life upside down for God. Firestone teaches us, through the joys and sorrows of her life, how our ancient traditions are calling out to us for renewal, and how, through faith, honesty, and struggle, we are learning to respond. At age seventeen, Tirzah Firestone left the oppressive home of her Orthodox Jewish parents and set off on a spiritual odyssey. *With Roots in Heaven* is the story of that journey, a fascinating and moving account of her evolution from rebellious young seeker to renegade rabbi. This is an inspiring, true account of a courageous woman with strong convictions and a passion to know and feel God. It is also a book that goes beyond one person's story of wandering and redemption to explore the dangers of modern religion and the joys and conflicts of intermarriage and raising interfaith children. An unforgettable story of love, sacrifice, and transformation—of grace sought and found—*With Roots in Heaven* offers hope, wisdom, and encouragement to anyone seeking deeper spiritual meaning in today's world.

Shadowlands Anthony McCann, 2019-07-02 Los Angeles Times Bestseller An "epic exploration" of the 2016 right-wing Oregon Occupation-an excellent microcosm by which we might better understand our difficult national history and distressing political moment" (Maggie Nelson). In 2016, a group of armed, divinely inspired right-wing protestors led by Ammon Bundy occupied the Malheur National Wildlife Refuge in the high desert of eastern Oregon. Encamped in the shadowlands of the republic, insisting that the Federal government had no right to own public land, the occupiers were seen by a divided country as either dangerous extremists dressed up as cowboys, or as heroes insisting on restoring the rule of the Constitution. From the Occupation's beginnings, to the trials of the occupiers in federal court in downtown Portland and their tumultuous aftermaths, *Shadowlands* is the resonant, multifaceted story of one of the most dramatic flashpoints in the year that gave us Donald Trump. Sharing the expansive stage with the occupiers are a host of others-Native American tribal leaders, public-lands ranchers, militia members, environmentalists, federal defense attorneys, and Black Lives Matter activists-each contending in their different ways with the meaning of the American promise of Liberty. Gathering into its vortex the realities of social media technology, history, religion, race, and the environment-this piercing work by Anthony

McCann offers us a combination of beautiful writing and high-stakes analysis of our current cultural and political moment. *Shadowlands* is a clarifying, exhilarating story of a nation facing an uncertain future and a murky past in a time of great collective reckoning.

The Labor of Care Valerie Francisco-Menchavez, 2018-03-27 For generations, migration moved in one direction at a time: migrants to host countries, and money to families left behind. *The Labor of Care* argues that globalization has changed all that. Valerie Francisco-Menchavez spent five years alongside a group of working migrant mothers. Drawing on interviews and up-close collaboration with these women, Francisco-Menchavez looks at the sacrifices, emotional and material consequences, and recasting of roles that emerge from family separation. She pays particular attention to how technologies like Facebook, Skype, and recorded video open up transformative ways of bridging distances while still supporting traditional family dynamics. As she shows, migrants also build communities of care in their host countries. These chosen families provide an essential form of mutual support. What emerges is a fascinating portrait of today's transnational family—sundered, yet inexorably linked over the distances by timeless emotions and new forms of intimacy.

Teaching Children's Literature Christine Leland, Mitzi Lewison, Jerome Charles Harste, 2013 Offers a fresh perspective on how to implement children's literature across the curriculum in ways that are both effective and purposeful. It invites multiple ways of engaging with literature that extend beyond the genre and elements approach and also addresses potential problems or issues that teachers may confront.

Veils, Nudity, and Tattoos Thorsten Botz-Bornstein, 2015-08-27 At first sight, tattoos, nudity, and veils do not seem to have much in common except for the fact that all three have become more frequent, more visible, and more dominant in connection with aesthetic presentations of women over the past thirty years. No longer restricted to biker and sailor culture, tattoos have been sanctioned by the mainstream of liberal societies. Nudity has become more visible than ever on European beaches or on the internet. The increased use of the veil by women in Muslim and non-Muslim countries has developed in parallel with the aforementioned phenomena and is just as striking. Through the means of conceptual analysis, *Veils, Nudity, and Tattoos: The New Feminine Aesthetics* reveals that these three phenomena can be both private and public, humiliating and empowering, and backward and progressive. This unorthodox approach is traced by the three's similar social and psychological patterns, and by doing so, *Veils, Nudity, and Tattoos* hopes to sketch the image of a woman who is not only sexually emancipated and confident, but also more and more aware of her cultural heritage.

Revolutionary Acts Lynn Mally, 2016-11-01 During the Russian Revolution and Civil War, amateur theater groups sprang up in cities across the country. Workers, peasants, students, soldiers, and sailors provided entertainment ranging from improvisations to gymnastics and from propaganda sketches to the plays of Chekhov. In *Revolutionary Acts*, Lynn Mally reconstructs the history of the amateur stage in Soviet Russia from 1917 to the height of the Stalinist purges. Her book

illustrates in fascinating detail how Soviet culture was transformed during the new regime's first two decades in power. Of all the arts, theater had a special appeal for mass audiences in Russia, and with the coming of the revolution it took on an important role in the dissemination of the new socialist culture. Mally's analysis of amateur theater as a space where performers, their audiences, and the political authorities came into contact enables her to explore whether this culture emerged spontaneously from below or was imposed by the revolutionary elite. She shows that by the late 1920s, Soviet leaders had come to distrust the initiatives of the lower classes, and the amateur theaters fell increasingly under the guidance of artistic professionals. Within a few years, state agencies intervened to homogenize repertoire and performance style, and with the institutionalization of Socialist Realist principles, only those works in a unified Soviet canon were presented.

A War for the Soul of America Andrew Hartman, 2019-04-26 The “unrivaled” history of America’s divided politics, now in a fully updated edition that examines the rise of Trump—and what comes next (New Republic). When it was published in 2015, Andrew Hartman’s history of the culture wars was widely praised for its compelling and even-handed account of how they came to define American politics at the close of the twentieth century. But it also garnered attention for Hartman’s declaration that the culture wars were over—and that the left had won. In the wake of Trump’s rise, driven by an aggressive fanning of those culture war flames, Hartman has brought *A War for the Soul of America* fully up to date, detailing the ways in which Trump’s success, while undeniable, represents the last gasp of culture war politics—and how the reaction he has elicited can show us early signs of the very different politics to come. “As a guide to the late twentieth-century culture wars, Hartman is unrivalled Incisive portraits of individual players in the culture wars dramas Reading Hartman sometimes feels like debriefing with friends after a raucous night out, an experience punctuated by laughter, head-scratching, and moments of regret for the excesses involved.” —New Republic
