Città e guerra : difese, distruzioni, permanenze delle memorie e dell'immagine urbana. Tomo II : tracce e patrimoni Maria Ines Pascariello, Alessandra Verapalumbo, Raffaele Amore, 2023-12-31 [Italiano]: In un momento così significativo per la storia europea e mondiale, questo volume vuole essere la raccolta di riflessioni scientifiche condotte sui rapporti tra le scelte politiche, le azioni militari e la fisionomia delle città e del paesaggio urbano, sull'evoluzione delle strutture e delle tecniche di difesa, sulla rappresentazione della guerra e dei suoi effetti sull'immagine urbana, sul recupero delle tracce della memoria cittadina. Da una parte il campo delle Digital Humanities apre nuove prospettive per studiare l'immagine della città prima, durante e dopo la guerra, dall'altro le tecnologie digitali impegnano studiosi e ricercatori di varie discipline: in particolare nell'ambito del disegno viene esplorato il ruolo della rappresentazione nella formulazione dei progetti urbani di difesa e nella documentazione degli eventi bellici e delle tracce lasciate dai conflitti, mentre nell'ambito del restauro vengono approfondite le sfide teoriche e pratiche imposte dai danni arrecati dai conflitti ai centri storici, passando in rassegna casi studio, soluzioni e dibattiti relativi alla conservazione del patrimonio urbano coinvolto in azioni di guerra, con un'attenzione particolare all'identità e alla memoria collettiva./[English]: At such a significant moment in European and world history, this volume aims to be a collection of scientific reflections about the relationships between political choices, military actions and the physiognomy of cities and the urban landscape, about the evolution of defence structures and techniques, about the representation of war and its effects on the urban image, and about the recovery of the traces of city memory. On the one hand the field of Digital Humanities opens up new perspectives to study the image of the city before, during and after the war, on the other hand digital technologies engage academics and researchers from various disciplines: In particular, in the area of drawing, the role of representation in the formulation of urban defence projects and in the documentation of wartime events and the traces left behind by conflicts is explored, while in the area of conservation, the theoretical and practical challenges imposed by the damage caused by conflicts to historic centres are explored, reviewing case studies, solutions and debates relating to the conservation of urban heritage involved in wartime actions, with a focus on identity and collective memory.

Sicily Jeremy Dummett, 2020-05-28 A guide to the fascinating and diverse history and culture of Sicily. The book includes key events, places and artists highlighted in wide-ranging articles presented in four parts: History, Cities, Ancient Sites and Artists. A rich tapestry emerges of an island that has experienced dramatic changes of fortune while becoming a melting-pot of cultural influences from the eastern Mediterranean, North Africa and mainland Italy. It also includes commentary on the monuments and works of art to be seen today, linking Sicily past and present. Follow the stories of Dionysius' castle, the foundation of the cathedral at Monreale, the Sicilian poets who invented the sonnet and the British merchants who made Marsala wine an international brand. Tour the big cities of Catania and Messina, the resorts of Taormina and Cefalù, and the baroque hilltowns of south-eastern Sicily. Explore the ancient sites, among them Segesta, Selinunte and Agrigento. Witness the originality of the island's culture through the profiles of eight artists, sculptors and architects from the Renaissance to the twentieth century including Antonello da Messina, Giacomo Serpotta and Renato Guttuso, as well as Caravaggio, who left some of his last masterpieces on the island. This book complements the author's previous work on Syracuse and Palermo, filling in gaps in the island's story, to form a comprehensive trilogy on Sicily.

Space, Place, and Motion: Locating Confraternities in the Late Medieval and Early Modern City ,2017-04-11

Space, Place, and Motion: Locating Confraternities in the Late Medieval and Early Modern City offers the first sustained comparative examination of the relationship between confraternal life and the spaces of the late medieval and early modern city. By considering cities large (Rome) and small (Aalst) in regions as disparate as Ireland and Mexico, the essays collected here seek to uncover the commonalities and differences in confraternal practice as they played out on the urban stage. From the candlelit oratory to the bustling piazza, from the hospital ward to the festal table, from the processional route to the execution grounds, late medieval and early modern cities, this interdisciplinary book contends, were made up of fluid and contested 'confraternal spaces.' Contributors are: Kira Maye Albinsky, Meryl Bailey, Cormac Begadon, Caroline Blondeau-Morizot, Danielle Carrabino, Andrew Chen, Ellen Decraene, Laura Dierksmeier, Ellen Alexandra Dooley, Douglas N. Dow, Anu Mänd, Rebekah Perry, Pamela A.V. Stewart, Arie van Steensel, and Barbara Wisch.
