

The Meaning Of Media

Rhonda Hammer,Douglas Kellner

Meaning in the Media Alan Durant,2010-03-04 Addresses the issue of what we should make of competing claims about meaning when debated in highly charged circumstances.

Meaning in the Age of Social Media G. Langlois,2014-06-05 The search for meaning is an essential human activity. It is not just about agreeing on some definitions about the world, objects, and people; it is an ethical process of opening up to find new possibilities. Langlois uses case studies of social media platforms (including Facebook, Twitter, and Amazon) to revisit traditional conceptions of meaning.

Fundamentalisms and the Media Stewart M. Hoover,Nadia Kaneva,2009-06-09 The turn of the twenty-first century has seen an ever-increasing profile for religion, contrary to long-standing predictions of its decline. Instead, the West has experienced what some call a 'realignment' of religion where it persists in conjunction with other institutions and structures. Outside the West, religion is an ever more prominent force in social and political movements of both reform and retrenchment. Across these contexts, no issue in religion is of as much concern as fundamentalism - or rather the fundamentalisms within various traditions - which are seen to be fomenting religious, social, ethnic, and political tension and conflict. The contributions to this volume represent the first effort to look at 'fundamentalisms' and 'the media' together and address the resulting relations and interactions from critical perspectives of history, technology, geography, and practice. The result lays important groundwork for scholarship on these new and increasingly important phenomena.

Muslims, Minorities, and the Media Laurens de Rooij, 2023-03-01 Inspired by overtly negative coverage by the Western mainstream press of Muslims in particular, and minorities in general, this book asks: Why are negative narratives and depictions of Muslims and other minorities so hard to change? News reports about Islam and Muslims commonly relate stories that discuss terrorism, violence or other unwelcome or irrational behaviour, or the lack of integration and compatibility of Muslims and Islam with Western values and society. Yet there is little research done on how studies on media reports about minorities seemingly fail to improve the situation. Combining empirical research with a structural analysis of the media industry, this volume presents evidence for the maligned representation of minorities by media corporations, analysing why negative narratives persist and outlining how these can be effectively transformed. It is an outstanding resource for students and scholars of media, religion, culture, sociology, and Islamic studies, and is also of benefit for journalists, media representatives, and activists looking to effect change for minority representation in the media industry specifically or in society at large.

Smallest Mimes. Defaced Representation and Media Epistemology Paul Majkut, 2014-05-20 This book proposes an alternate theory of media evolution that accounts for the appearance of a new medium in the malpractice of older media. Smallest Mimes addresses complex issues of media transition, the inherent confusion of media definition by use of metaphor instead of phenomenological description, and the impact of individual media function and structure on both textual and imagistic content. Bringing together Majkut's past speculations on media, Smallest Mimes interweaves a general theory of media, a theory of historical media change and transmission, and a theory of media genesis in technological adequacy/inadequacy.
