After reading each quote, the authors would like the readers to think about a time when they have felt that way or a person who has displayed those qualities. I'm growing up, and yes I'm going to be someone in life because you only live once, and I'm not gonna sit here to just watch it just pass me by so easy. I'ma be a fighter till the end and never doubt myself because if I give everything- I do all I can, there's nothing that I can't accomplish in life... when the world takes all you care about away, you have to get up and try again because each time you get back up, you're an even stronger person than before (50). A special thanks to the Freedom Writers for inspiring us This book is dedicated to all the kids out there with a dream, may the world never forget that you are

still surviving. This book is our autobiography. These are our stories and the things we are still surviving.

Ten Ways to Weave the World: Matter, Mind, and God, Volume 1 Ross Thompson, 2022-12-20 The idea of an ideological war between science and religion, Thompson argues, is founded on a mistake. But this does not mean that there is nothing at stake. For behind the ill-conceived conflict lie complex issues about the nature of mind, consciousness, experience, subjectivity, quality, value, and the like, all of which need to be disentangled and assessed in their own right. *Outgrowing Materialism* leads the reader through a sequence of five Worlds, each of which offers a distinct way of understanding (or failing to understand) these issues, and where God might belong (or not). Writing accessibly, but with a sharp eye for detail, Thompson sheds new light on the familiar territory of materialism, dualism, and structural realism, and evaluates the growing attraction of the multiverse. He argues that dualism mechanized the material world; then materialism exorcised the mental ghost from the machine; and finally, this machine is evaporating into pure mathematics. *Outgrowing Materialism* is half of *Ten Ways to Weave the World: Matter, Mind, and God*. The sequel, *Embodying Mind*, discusses five Worlds that precede and follow those discussed here. However, *Outgrowing Materialism* stands in its own right as a critique of the modern science v. religion dilemma.

The Yogic View of Consciousness (HQ) Donald J. DeGracia, 2015-11-21 Patanjali's Yoga Sutras are mysterious and cryptic and exert hypnotic fascination on all whose minds they touch. In *The Yogic View of Consciousness*, Don DeGracia unfolds the theory of consciousness enshrined in the obtuse aphorisms of the Yoga Sutras. Yoga describes the mind as a multi-leveled system closed in on itself yet illuminated from within its innermost depth by a divine spark that gives life and consciousness to every individual. Drawing on ideas Eastern and Western, ancient and modern, from Abhinavagupta to Leibniz, Mahaprabhu to George Berkeley, IKTaimni to Hermann Weyl, DeGracia weaves an intellectual tapestry harmonizing science, philosophy, religion, mathematics, and the mystical. Compared to the grandeur of *The Yogic View of Consciousness* the hostilities of secular science and philosophy appear as little more than the psycho-babble of lunatics and an affront to the sublime majesty of existence. Take the wild ride to the very source of being revealed by *The Yogic View of Consciousness*.

The Kybalion William Walker Atkinson, Three Initiates, Philip Deslippe, 2011-04-28 Here is the flagship edition of the most popular occult work of the past century, now published with a groundbreaking historical introduction that establishes its authentic authorship and a lost bonus work by the original author. It is one of the most mysterious and hotly debated occult works ever written-and without question the most popular and widely influential book of arcane philosophy of the twentieth century: The Kybalion has been credited only to the cryptic Three Initiates since its first appearance in 1908. Debate rages over the identity of the Three Initiates, the origin of the book's mysterious title and insights, and the nature of the Hermetic teachings on which it is thought to be based. Now the veil is parted. The Kybalion: The Definitive Edition presents the first full-scale analysis of this work of practical occult wisdom. It features the complete text of The Kybalion and the first-ever publication of Atkinson's previously unknown post-Kybalion work: The Seven Cosmic Laws. In an engaging introduction to this unique volume, religious scholar Philip Deslippe surveys the work's context, history, and impact (including as a source of spiritual insight to communities ranging from New Thought to Black Nationalism), and provides a biographical sketch of its elusive author, the New Thought pioneer William Walker Atkinson. As valuable to new fans as it is to longtime readers who crave more knowledge about Atkinson and his work, The Kybalion: The Definitive Edition illuminates the remarkable history of this long-cherished text.

The Complete Works of William Walker Atkinson William Walker Atkinson, 2023-12-07 In 'The Complete Works of William Walker Atkinson,' readers are presented with a comprehensive anthology of one of the most influential figures in the New Thought movement. This collection encapsulates Atkinson's diverse literary style, marked by clarity and an accessible approach to metaphysical concepts. Spanning multiple genres, including self-help, philosophy, and occult, Atkinson's writings interrogate the nature of the mind, the principles of success, and the pathways to personal empowerment. Contextually, his work emerges during a time of societal change in the early 20th century, as spiritualism and mysticism gained traction in Western thought, reflecting the era's evolving attitudes towards consciousness and self-realization. William Walker Atkinson, a prolific author, lawyer, and lecturer, played a pivotal role in shaping modern esoteric thought. His varied life experiences, including a brush with adversity that led him to seek deeper meaning, provided the impetus for his explorations into the human psyche and metaphysical disciplines. Educated in the principles of both Eastern and Western philosophies, Atkinson synthesized these traditions to create a holistic approach to personal development. This anthology is highly recommended for anyone interested in the intersections of psychology, spirituality, and self-improvement. Atkinson's writings not only provide valuable insights into human potential but also serve as a practical guide for those seeking to enhance their lives through the understanding of mind and consciousness, making it an essential read for scholars and

enthusiasts alike.

New Science Theory and On The Magnet Vincent Wilmot, William Gilbert, 2015-07-22 The first book is basically the New-Science-Theory.com site as on 1 January 2018, for changes since then visit the website with its Sitemap noting updates. It is especially good for those interested in physics theory, concentrating chiefly on the four great physicists William Gilbert, Rene Descartes, Isaac Newton and Albert Einstein - and also having fine sections on Galileo, Kepler, History of Science, Gravity, Light, String Theory, Standard Model Physics, Probability Science, Philosophy of Science and General Image Theory Science. The second book is a new improved English translation of William Gilbert's banned Latin 1600 'De Magnete' or 'On The Magnet'. This is rather easier to read than its two earlier translations, and significantly helps to clarify Gilbert's 'attraction' physics which Newton put as one of the two mathematized physics options and which he is believed to have privately favoured. It is basically a novel signal-response or remote-control physics that may still have relevance.
