Stephan Meier

The Engineer, 1860

The Meaning and Purpose of Work Christopher Michaelson, Jennifer Tosti-Kharas, 2024-10-08 Two seminal crises of the early 21st century - the 9/11 terrorist attacks and COVID-19 pandemic - have led emerging generations of workers to prioritize the meaning and purpose of work. At the same time, other social and environmental crises are threatening, capitalism is evolving, and technology is advancing. In this book, a philosopher and organizational psychologist who together research meaningful work consider what these forces mean for whether work might give meaning and purpose to our lives or take it away. The authors introduce key concepts - meaning, purpose, and work, among others - and consider how they show up in individuals' experience of work, what role organizations play in cultivating them, and the responsibilities of markets and states to the individuals and organizations working within them. Each chapter includes questions and prompts for review and reflection for students and workers who read the book. The final chapter concludes by introducing an original "6 P" framework for making sense of the functional and moral purpose of work among individuals, organizations, and systems: to pursue and perform, provide and produce, and price and protect work. Readers will emerge with an understanding of the meaning of meaning as well as a practical appreciation for the role of meaning in their own work, the managerial responsibilities they may have for serving the purpose of the organization they work for, and the societal challenges that make the quest for meaningful work a timely imperative

What Readers Do Beth Driscoll, 2024-02-21 Shining a spotlight on everyday readers of the 21st century, Beth Driscoll explores how contemporary readers of Anglophone fiction interact with the book industry, digital environments, and each other. We live in an era when book clubs, bibliomemoirs, Bookstagram and BookTok are as valuable to some readers as solitary reading moments. The product of nearly two decades of qualitative research into readers and reading culture, *What Readers Do* examines reading through three dimensions - aesthetic conduct, moral conduct, and self-care - to show how readers intertwine private and social behaviors, and both reinforce and oppose the structures of capitalism. Analyzing reading as a post-digital practice that is a synthesis of both print and digital modes and on- and offline behaviors, Driscoll presents a methodology for studying readers that connects book history, literary studies, sociology, and actor-network theory. Arguing for the vitality, agency, and creativity of readers, this book sheds light on how we read now - and on how

much more readers do than just read.

The Employee Advantage Stephan Meier, 2024-10-15 A strategic roadmap that will transform your company into an employee-first powerhouse, unlocking a competitive edge for enduring success. In an ever-shifting work landscape, leaders can no longer ignore their most overlooked stakeholders—their employees. In *The Employee Advantage*, behavioral economist Stephan Meier explains why organizations must value their employees as much as—if not more than—their customers: those that pivot toward an employee-centric model will be more profitable, innovative, and appealing to top talent. The good news? You don't need to start from scratch. The customer-centric tools that give you a competitive advantage can be repurposed to focus on employees. Through case studies of Fortune 500 companies like Costco, DHL, and Best Buy as well as smaller organizations, you will learn: Why employees care about more than just money when it comes to their jobs—the same way customers care about more than just price What two mindset shifts are essential to becoming an employee-centric workplace How improving your employee experience will benefit your business and your bottom line The future of work is human-centric. The companies that win in the marketplace will be those with the best employees. To get and stay ahead, businesses must embrace the employee advantage.

Reclaiming Colonial Architecture Tania Sengupta, Stuart King, 2024-12-23 Our world is full of lands, cities, buildings and artefacts, many of which are deposits and residues of colonial times and, more pervasively, colonial processes. *Reclaiming Colonial Architecture* unpacks the built inheritances of colonialism and re-thinks how we might understand, narrate, intervene in or act upon them as architects. Offering historical background, unpacking key concepts and presenting thematically organised and multi-scalar urban and architectural case studies, this accessible publication showcases how legacies of colonialism are being dealt with in real-world instances. Case studies involve works and actions by built environment professionals such as architects and heritage practitioners, as well as community initiatives and activism. The book aims to build confidence in practitioners, students and communities grappling with a seemingly vast and complex terrain of debates and approaches around colonial landscapes, urban areas, buildings, monuments and material culture. It also aims to be a helpful resource for architecture schools or critical heritage studies departments and organisations. Its content will provide a point of departure for graduate student inquiry and its accessible nature will help introduce undergraduate students to the concepts and questions of colonial built-environments.

The Blue Spark JOHN HOPKINS, 2024-02-13 A transformative sacrifice seals humankind's destiny at the end of a celestial path. Sometimes, history repeats. Book Three in *The Powers That Be* trilogy, *THE BLUE SPARK*, paints a thought-provoking, action-packed vision of a dystopian future world with humankind on a razor's edge between science and morality, loyalty and betrayal, hope and despair, courage and fear, evolution and extinction. * * * A supernatural visitor entrusts an enigmatic cubed artifact with maverick archeologist Professor Ian Dury. Five years later, legendary robotics pioneer Mitsuo Kobayashi

appropriates the top-secret cube, projecting a young woman's body and soul into sixteen sister replicants before the catastrophic consequences of playing God lay bare his hubris. Rachel and Owen Haig raise their precocious daughter, Hannah, out of the public eye and away from The Powers That Be (PTB) until events spiral their extraordinary lives asunder. With a vicelike grip on the PTB, a corrupted Andrew sabotages a quasi-utopian new world order, precipitating the return of an advanced alien hybrid prehuman civilization. 25-year-old Hannah Haig leads a solitary life in 2070 as a drone tech aboard Thundercorp No. 5 when terrorists destroy the moon-like orbiting warehouse. A month later, estranged from her family and stricken with survivor's guilt, Hannah's Blue Spark inheritance manifests, leading to a transformative sacrifice that seals humankind's destiny at the end of a celestial path. On a future Earth reshaped by eons of cataclysmic upheavals, something stirs within the cube long since buried under the sands of time. Sometimes, history repeats.

Jewish Law and International Law Michael J. Broyde, Yehonatan Elazar-De Mota, 2025 Jewish Law and International Law offers a timely exploration of the intricate relationship between Jewish law (or halakhah) and international legal systems. In an era marked by rising antisemitism and increasing tensions between the Israel and the international community, the book offers a deeper understanding of Jewish law's contributions to the broader legal landscape. Offering relevant analysis and a forward-looking approach, Jewish Law and International Law illuminates the significant jurisprudential and methodological parallels between the two systems. Its eight chapters weave together the connections between Jewish law and international law, from the foundational concepts and histories of both legal systems to their shared values and transnational nature. The book delves into how Jewish law incorporates local and international legal principles in areas such as war, humanitarian law, copyright law, and governance. Envisioning a future where Jewish law and international law work in concert rather than conflict, the book offers a more nuanced perspective on both systems and looks toward promoting global justice.

Veejack Robert F. Stamps, 2024-08-27 Parents - the godless anti-Bible Veejack religion is using the public schools and government funding to train our children, family, and friends to reject our Judeo-Christian values and beliefs. For the past forty years Judeo-Christians have endured relentless assaults by news reporters, talk shows, politicians, academics and educators, media influencers, and performing artists. The assault targets Judeo-Christian faiths by focusing on the negative, inflammatory, and predatory behaviors and activities of a minority of individuals in leadership positions. These incidents are widely circulated by the anti-Judeo-Christian forces in attempts to demean the faiths and influence people to believe the whole Judeo-Christian model is corrupt and should be abolished. Realization that there is an external force targeting and tarnishing the Judeo-Christian faiths fosters a secondary realization. The external force attempting to destroy Judeo-Christian faiths is actually a nontheistic, often hedonistic and self-destructive competing religion that dares not publicly announce its existence. The media purposely ignores the significantly beneficial Judeo-Christian activities that occur every day across the

United States. Judeo-Christian activities such as molding moral behavior in youths; educating oppressed and impoverished people; providing free food, shelter, and health care to the indigent; providing counseling; visiting the sick, infirm and elderly and those in hospice care; assisting addicts to regain their freedom by helping them to eliminate dependence on addictive substances; and calming gang violence. These, and a host of other unheralded and unreported positive Judeo-Christian activities are ignored by the propagandists of the new religion. The new religion and its media influencers portray the Judeo-Christian faiths in the worst light possible. The new religion's politicians legislate its religious beliefs into law. The new religion's clerics, functioning as journalists, or researchers, or academics, or broadcast personalities paint a slanted, negative, one-sided portrait of Judeo-Christian faiths and praise the tenets of the new religion.
