It includes chapters on the nature and structure of argument, the role of relevance, truth and generalizations, and the subtleties of verbal and visual language. Reading and Writing for Civic Literacy Donald Lazere, 2017-07-05 'Lazere's [book] is heaven-sent and will provide a crucial link in the chain of understanding how conflicts are structured and, most importantly, how they can be rationally addressed - a healthy antidote to the scepticism that has become so pervasive in academic life.' Alan Hausman, Hunter College This innovative book addresses the need for college students to develop critical reading, writing, and thinking skills for self-defence in the contentious arena of American civic rhetoric. In a groundbreaking reconception of composition theory, it presents a comprehensive critical perspective on American public discourse and practical methods for its analysis. Exercises following the text sections and readings help students understand the ideological positions and rhetorical patterns that underlie opposing viewpoints in current controversies - such as the growing inequality of wealth in America and its impact on the finances of college students - as expressed in paired sets of readings from the political left and right. Widely debated issues of whether objectivity is possible and whether there is a liberal or conservative bias in news and

entertainment media, as well as in education itself, are foregrounded as topics for rhetorical analysis.

Creating Scientific Controversies David Harker,2015-10-01 For decades, cigarette companies helped to promote the impression that there was no scientific consensus concerning the safety of their product. The appearance of controversy, however, was misleading, designed to confuse the public and to protect industry interests. Created scientific controversies emerge when expert communities are in broad agreement but the public perception is one of profound scientific uncertainty and doubt. In the first book-length analysis of the concept of a created scientific controversy, David Harker explores issues including climate change, Creation science, the anti-vaccine movement and genetically modified crops. Drawing on work in cognitive psychology, social epistemology, critical thinking and philosophy of science, he shows readers how to better understand, evaluate, and respond to the appearance of scientific controversy. His book will be a valuable resource for students of philosophy of science, environmental and health sciences, and social and natural sciences.

This is what happens chris wind,2020-06-14 How is it that the girl with straight As ends up scrubbing floors for minimum wage, living in a room above Vera's Hairstyling, in a god-forsaken town called Powassan? She didn't marry the wrong guy. She didn't have kids. She wasn't an immigrant, uprooted and transplanted. So what happened? Where are all the straight-A girls from high school? Why, how, have they 'disappeared'? Marriage and kids is an inadequate answer because married-with-kids straight-A boys (of which, let's acknowledge, there are fewer) are visible. Everywhere. Even the straight-B boys are out there. So what happens? This is what happens provides several answers as it traces this disappearance with a microscopic examination of one woman's life. There are three voices juxtaposed throughout the novel: the fresh, impassioned protagonist speaking through her journal entries from the age of fifteen; the sarcastic, now-fifty protagonist commenting about the events of her life, occasionally speaking to her younger self; and the dispassionate narrator. The novel's audience is primarily women-it will resonate most with older women, but it is younger women who most need to read it. Because this is what happens. An incisive reflection on how social forces constrain women's lives. Booklife/Publishers' Weekly I find the writing style very appealing ... An interesting mix of a memoir and a philosophical work, together with some amazing poetry. ... This is what happens ranks in my top five of books ever read. Mesca Elin, Psychochromatic Redemption Really enjoyed the novel. I like the use of a journal as the format to tell the story. ... The author gives the reader lots of food for thought. An intense novel. Pam FitzGerald "The self-analysis is astounding." Claudine Leonhardt "A seriously powerful novel." C. Osborne "This book is so amazing. I was so enthralled that I just kept reading" JB

Letters From an All-American Loudmouth is a collection of hilarious, many times controversial, and occasionally inspiring letters from the mind of

a working-class stiff. Laugh out loud when you read letters like *Foot in Mouth Disease*, and *Sometimes I Just Have to Laugh at Myself* when Kevin tells you about some of his most awkward moments. Hold onto your seat when he unloads on subjects like gun control, prayer in school, and evolution. No punches are pulled, and no holds are barred, when televangelists and spoiled celebrities fall victim to his off beat humor and searing sarcasm in *Kenny the Miracle Kid*, and the appropriately titled *Spoiled Celebrities*. Get marriage advice in *Happily Divorced*, and dating advice in *Blind Dates* and *Nearly Blind Dates*. Be inspired when you read about Mark's Bike Ride, and have hope when you read *A Place Where Death is Dead*. From the completely ridiculous, to the drop dead serious there's a little something for everyone in this book! So sit down, buckle up, and enjoy the ride.

Death by Theory Adrian Praetzelis, 2011-01-16 A European Neolithic burial. A large stone Venus. Nothing unusual except that it was found on an island in the Pacific Northwest. Archaeologist Hannah Green and her shovelbum nephew find themselves in a tangled web of competing interests - avaricious land owners, hungry media, and a cult of goddess worshippers - while investigating one of the finds of the century. In untangling the mystery of the Washington Venus, Hannah and Sean have to confront questions of archaeological evidence, conflicting interpretation of data, and the very nature of archaeological truths. This thoroughly updated version of an archaeological classic allows you to learn the basics of archaeological theory while puzzling out a mysterious turn of events.

A Fraction of the Whole Steve Toltz, 2010-04-30 With rights sold around the world, this irreverent comic adventure spanning three continents is poised to be one of the most talked about fiction débuts of the year. *A Fraction of the Whole* marks the arrival of an ambitious new writer who deftly mixes humour, surprise, and astute observations of the human condition to create a novel that entertains, scandalizes, and enlightens. Martin Dean spent his entire life analyzing absolutely everything - from the benefits of suicide to the virtues of strip clubs versus brothels. Now that he's dead, his son Jasper can fully reflect on the man who raised him in intellectual captivity. As he recollects the extraordinary events that led to his father's demise, Jasper recounts a boyhood of outrageous schemes and shocking discoveries - about his infamous and long dead criminal uncle, his tortured and mysteriously absent European mother, and Martin's constant losing battle to make a lasting impression on the world. It's a story that takes them from the Australian bush to the cafés of bohemian Paris, from the Thai jungle to labyrinths, mental hospitals, and criminal lairs, from the highs of first love to the lows of rejection and failed ambition. The result is an uproarious indictment of the ridiculousness of the modern world and its mores, and the moving, memorable story of a father and son whose spiritual symmetry transcends all their many shortcomings. I spent the next day staring into empty space. I get a lot of joy out of air, and if sunlight hits the floating specs of dust so you see the whirling dance of atoms, so much the better. During the day, Dad breezed in and out of my room and clicked his tongue, which in our

family meant: 'You're an idiot.' In the afternoon, he came back in with a loaded grin. He had a brilliant idea, and couldn't wait to tell me about it. It had suddenly occurred to him to throw me out of the house, and what did I think of his brainwave? I told him I was concerned about him eating all his meals alone because the clinking of cutlery on a plate echoing through an empty house is one of the top five depressing noises of all time. --from A Fraction of the Whole

Education for Spiritual, Moral, Social and Cultural Development Ron Best, 2000-06-01 Drawing on successful practice, and relating such practice to theoretical insights, this comprehensive treatment of the challenge of educating children spiritually, morally, socially, and culturally offers enlightenment for individual teachers' classroom practice as well as for whole-school approaches.

Broken Men and Fallen Women Rod MacDonald, 2005-03 Ruth Munro, the glamorous wife of a successful author, brutally stabs a man in a flat in Edinburgh's red light district in a seemingly unprovoked attack, leaving him for dead. When the case is investigated it reveals dark secrets from Ruth's past—a past of which Paul, her husband, was blissfully unaware. As Paul struggles to come to terms with the grim reality of his wife's former life, her lawyer tries to piece together enough of Ruth's story to build a defence against an apparently watertight case. Meanwhile a dark angel is rising, gathering strength to deliver his final twisted message. A tale of blackmail, prostitution, murder and revenge, Rod MacDonald's compelling first novel carries on the great tradition of Edinburgh crime thrillers.

Your Life's Puzzle August Leo, 2024-07-30 There are so many people who are suffering in silence. When they're in public, they put on a face as though everything is well. When they are alone, they slip back into depression. We need to learn to get along, stop judging, and learn to love one another. That begins with the person you see in the mirror. The most powerful thing in the world is the human mind. People should take the words can't and impossible out of their vocabulary. If those two words are in your vocabulary, you will have a defeated mindset and you will fail before you get started. If you have faith, belief. Come up with a plan and take action. Anything is possible. The power is in belief. If you have the will, anything is possible. The purpose of the material in this book is to give the gift of hope. I want to inspire you people and lift them up. There are some people who are stressed out and depressed and have fallen into a dark place because of things they have experienced in life. Some of them have given up and stopped looking for a way out. If you are in a dark place in life, darkness cannot drive out darkness. It takes light to drive out darkness. We are bombarded with negativity from news and social media all day long. The materials in this book are meant to be a ray of light to drive out the darkness. The short stories in this book are about real people who've made mistakes. You can't make all your mistakes, but you can learn from someone else. Another purpose of this book is to encourage people to use their inner pain and hurt as fuel to push themselves toward their dreams. If you're not happy where you are in life, it's up to you to change it. You have to take responsibility for your life. No one is going to do it for you. No one is going to care for you more than you care for yourself. Here is a list of some of the topics that

will be discussed in this book: learning disabilities, depression, loneliness, suicide, intuition, solitude, self-love, self-hate, self-worth, self-esteem, stress, and much more.

Reasons for My Hope Benno van den Toren, 2012-11-20 This is an English version of a book first published very successfully in the Netherlands, where it has been used particularly in the training of Alpha leaders. Many keen Christians tend to trot out stock answers without hearing the deeper questions. If we can develop the sensitivity to hear different needs, experiences and interests, and learn to respond without offering watertight solutions, then a true dialogue can develop. The book includes many practical examples of how a subject can be treated in different ways, based around dialogues on suffering, on other religions, on relative and absolute truth, Good dialogue is a valuable life skill in all encounters. Each chapter ends with guides to further reading and questions for reflection and discussion.

Faith, Hope, and Love in the Kingdom of God Robert Hernan Cubillos, 2017-04-27 We live in a world full of challenges. The three graces can almost be seen as motors for Christian life in today's world, but the words faith, hope, and love have so many everyday uses that their technical, theological meanings are, for many, difficult to appreciate. Modern life also leaves many yearning for authenticity and meaning. Many religions have answered that need by calling to mind the image of a path. Always profound progressions, religious paths tend to be motivated either by practices (the act of walking the path) or focal points. Christianity has a focal point, an object, and it sees the three graces as distinctively content filled. The heart of this book is about helping people find the Christian path and their intellectual, emotional, and spiritual balance--an equilibrium that is sustained by a strong personal faith, an enduring hope for the future, and genuine love that will withstand the worst of times. It contributes to the category of Christian literature that provides a pattern for Christian living without surrendering the intellect to the more popular side of this genre.

Just ... Think About It! (2nd edn) Peg Tittle, 2021-04-05 A collection of think pieces on a variety of topics: the environment, business, rights and responsibilities, social issues, ethics, education, sports, religion, and so on. Philosophy with an attitude. Because the unexamined life is dangerous. Note that this is an omnibus of the four Shit that Pisses Me Off volumes (minus the pieces that address sexism, which are anthologized in Sexist Shit that Pisses Me Off), plus over a hundred additional pieces, some of which were previously in The Philosophers' Magazine, Philosophy Now, Humanist in Canada, and Victoria Times Colonist, some of which are previously unpublished. "An excellent collection of thought-

provoking essays and short pieces. Just Think about It! (2nd edn) covers an amazingly wide range of topics that really made me think and reconsider my life, my choices, and our business-as-usual world. So much of what we are bombarded with on social media and mass media, so-called “op-eds,” are just a lot of noise; this author provides something very different. These are thought pieces, succinctly and logically presented for one’s consideration. I came away feeling like I’d had a meaningful interaction and I really enjoyed and appreciated it.” Karen Siddall “Just Think about It! (1st edn) covers a wide range of topics (too numerous to mention), and she has endeavoured to group them together by subject. Some are only a page long, others cover several pages and are more like essays, but they will all make you think!” James M. Fisher, The Miramichi Reader Tittle's pieces are atypical of philosophical writing in the best ways: of interest to non-specialists, yet instructive and profound, yet entertaining. Ron Cooper, Professor of Philosophy ... a passionate, stylistically-engaging writer ... George
