*The Write Way to Better E.M.S.* Walter C. Jr. Kennedy, 2000-06-15 book description: The call is not complete until the paperwork is done. Many EMTs and paramedics would welcome assistance in how to prepare and give oral and written reports clearly and concisely. This book is designed to do just that. The oral report needs knowledgeable and effective delivery. The written report also needs completeness and accuracy. It is a permanent patient medical record. It may be referred to in the hospital by medical care providers, utilized by quality assurance programs, and is a legal document admissible in a court of law. The call documentation is the starting point for any questions or investigations concerning the care given by EMTs and paramedics. It is their first line of defense. This book breaks down the components of report giving and writing and provides the reader a useful reporting system to fit just about any written documentation or verbal reporting situation. It also contains helpful chapters on special reporting situations commonly encountered by EMS personnel, and sample reports useful either for discussion groups or individual analysis. Common, proper medical abbreviations and charting symbols drawn from authoritative texts are also provided. The result is a text useful to both new and veteran EMTs and paramedics. AUTHOR BIO: Walter C. Kennedy, Jr., M.Ed., EMT-P has extensive experience as both a practicing paramedic in a major urban EMS system and as a designer and instructor of training program for EMT's and paramedics. He is also a published author of articles in peer-reviewed journals.

*Mata Hari #4* Emma Beeby, 2018-06-13 From Lady MacLeod to Lady Godiva. Mata Hari looks back at the death and despair that ravaged her life as a wife and young mother in the Dutch East Indies. After a few short years, she leaves it all behind, changes her name, and heads to Paris, joining the Cirque. Mata Hari is born, and the world hasnt seen anything like her before. For mature readers. ♦

Mata Hari #5 Emma Beeby,2018-07-25 Final episode! As Margarethas trial defense falls apart, she contemplates how Mata Hari the dancer became Mata Hari the spy--prepared to undertake a great mission for France to free her to be with the 'great love' of her life, away from war, poverty and memories of her past. But, her fate is set: she must die, and all thats left for her to decide is how she will face it and what legacy she will leave behind. For mature readers.

**Using Medicine in Science Fiction** H. G. Stratmann,2015-09-14 This book offers a clearly written, entertaining and comprehensive source of medical information for both writers and readers of science fiction. Science fiction in print, in movies and on television all too often presents dubious or simply incorrect depictions of human biology and medical issues. This book explores the real science behind such topics as how our bodies adapt to being in space, the real-life feasibility of

common plot elements such as suspended animation and medical nanotechnology, and future prospects for improving health, prolonging our lives, and enhancing our bodies through technology. Each chapter focuses on a single important science fiction-related subject, combining concise factual information with examples drawn from science fiction in all media. Chapters conclude with a “Bottom Line” section summarizing the most important points discussed in the chapter and giving science fiction writers practical advice on how to incorporate them into their own creations, including a list of references for further reading. The book will appeal to all readers interested in learning about the latest ideas on a variety of science fiction-related medical topics, and offers an invaluable reference source for writers seeking to increase the realism and readability of their works. Henry G. Stratmann, MD, FACC, FACP is a cardiologist with board certifications in internal medicine, cardiology, and nuclear cardiology. Before entering private practice he became Professor of Medicine at St. Louis University School of Medicine and performed clinical medical research. Henry received a BA in chemistry from St. Louis University and his MD at Southern Illinois University School of Medicine. He is currently enrolled at Missouri State University to obtain a BS in physics with a minor in astronomy. His professional publications include being an author or coauthor of many research articles for medical journals, primarily in the field of nuclear cardiology. Henry is also a regular contributor of both stories and science fact articles to Analog Science Fiction and Fact.
