The Hermetic Museum (Volumes 1 & 2) Arthur Edward Waite, The Hermetic Museum was published in Latin at Frankfurt, in the year 1678, and, as its title implies, it was an enlarged form of an anterior work which, appearing in 1625, is more scarce, but, intrinsically, of less value. Its design was apparently to supply in a compact form a representative collection of the more brief and less ancient alchemical writers; in this respect, it may be regarded as a supplement to those large storehouses of Hermetic learning such as the Theatrum Chemicum, and that scarcely less colossal of Mangetus, the Bibliotheca Chemica Curiosa, which are largely concerned with the cream of the archaic literature, with the works of Geber and the adepts of the school of Arabia, with the writings attributed to Hermes, with those of Raymond Lully, Arnold de Villa Nova, Bernard Trevisan, and others. This edition contains both original volumes one and two.

Alchemy and Exemplary Poetry in Middle English Literature Curtis Runstedler, 2023-03-27 This book explores the different functions and metaphorical concepts of alchemy in fourteenth- and fifteenth-century Middle English poetry and bridges them together with the exempla tradition in late medieval English literature. Such poetic narratives function as exemplary models which directly address the ambiguity of medieval English alchemical practice. This book examines the foundation of this relationship between alchemical narrative and exemplum in the poetry of Gower and Chaucer in the fourteenth century before exploring its diffusion in lesser-known anonymous poems and recipes in the fifteenth century, namely alchemical dialogues between Morienus and Merlin, Albertus Magnus and the Queen of Elves, and an alchemical version of John Lydgate's poem The Churl and the Bird. It investigates how this exemplarity can be read as inherent to understanding poetic narratives containing alchemy, as well as enabling the reader to reassess the understanding and expectations of science and narrative within medieval English poetry.

Alchemy of Christ: The Book of Revelations LaRoya, 2017-07-10 It has been a long tradition among the Hebrews to use the pesher (dream interpretation code) which had encoded messages regarding two levels of information written within a story. One level was written as an allegory that told a message about morality. The other level was written about esoteric instruction and political events which mirrored inner growth. Each of the 22 chapters are inspired by the 22 Hebrew alphabet letters. In this book The Alchemy of Christ: The Book of Revelation I give a commentary on the Book of Revelations Apocalypse means revealing, and it is the revealing of the Christ within. The final battle of Armageddon takes place within us. This is an inner war that will transform us and bring us back to recovery to the state of Christ Consciousness. The political struggles within the world mirror the transformation of the individual. Just as we recover, the earth as a whole will recover as well leading to an enlightened Civilization.
