Dan Jolin

No Country for Old Men Lynnea Chapman King,Rick Wallach,Jim Welsh,2009-08-03 In 2005, Cormac McCarthy's novel, No Country for Old Men, was published to wide acclaim, and in 2007, Ethan and Joel Coen brought their adaptation of McCarthy's novel to the screen. The film earned praise from critics worldwide and was honored with four Academy Awards', including Best Picture, Best Director, and Best Adapted Screenplay. In No Country for Old Men: From Novel to Film, scholars offer varied approaches to both the novel and the award-winning film. Beginning with several essays dedicated entirely to the novel and its place within the McCarthy canon, the anthology offers subsequent essays focusing on the film, the adaptation process, and the Coen Brothers more broadly. The book also features an interview with the Coen brothers' long-time cinematographer Roger Deakins. This entertaining and enriching book for readers interested in the Coen Brothers' films and in McCarthy's fiction is an important contribution to both literature and film studies.

Focus On: 100 Most Popular Gangster Films Wikipedia contributors,

Late Westerns Lee Clark Mitchell,2018-12-01 For more than a century the cinematic Western has been America's most familiar genre, always teetering on the verge of exhaustion and yet regularly revived in new forms. Why does this outmoded vehicle--with the most narrowly based historical setting of any popular genre--maintain its appeal? In Late Westerns Lee Clark Mitchell takes a position against those critics looking to attach post to the all-too-familiar genre. For though the frontier disappeared long ago, though men on horseback have become commonplace, and though films of all sorts have always, necessarily, defied generic patterns, the Western continues to enthrall audiences. It does so by engaging narrative expectations stamped on our collective consciousness so firmly as to integrate materials that might not seem obviously Western at all. Through plot cues, narrative reminders, and even cinematic frameworks, recent films shape interpretive understanding by triggering a long-standing familiarity audiences have with the genre. Mitchell's critical analysis reveals how these films engage a thematic and cinematic border-crossing in which their formal innovations and odd plots succeed deconstructively, encouraging by allusion, implication, and citation the evocation of generic meaning from ingredients that otherwise might be interpreted quite differently. Applying genre theory with close cinematic readings, Mitchell posits that the Western has essentially been post all along.

The Brothers Coen Ryan P. Doom, 2009-09-23 This examination of the distinctive cinema of Joel and Ethan Coen explores the theme of violence in their wide-ranging body of work. The Brothers Coen: Unique Characters of Violence spans the career of the two-time Oscar-winning producer/director team, exploring the theme of violence that runs through a genre-spanning body of work, from the neo-noir of *Blood Simple* to the brutal comedy *Burn After Reading* (2008). In chapters focusing on major characters, Ryan Doom looks at the chaotic cinematic universe of the Coens, where violent acts inevitably have devastating, unintended consequences. The remarkable gallery of Coen characters are all here: hardboiled gangster Tom Regan from *Miller's Crossing* (1990), overmatched amateur kidnapper Jerry Lundegaard from *Fargo* (1996), accidental private eye The Dude from *The Big Lebowski* (1998), psychopathic assassin-for-hire Anton Chigurh from the 2007 Academy Award winner *No Country for Old Men*, and more.

Old Man Country Thomas R. Cole, 2020 We live in a time of change, an era where old men can maintain health but find dignity in frailty. *Old Man Country* helps readers see and imagine this change for themselves. The book follows the journey of

a writer in search of wisdom, as he narrates encounters with twelve distinguished American men over 80 -- including Paul Volcker, the former head of the Federal Reserve, and Denton Cooley, the world's most famous heart surgeon. In these and other intimate conversations, the book explores and honors the particular way that each man faces the challenges of living a good old age--

Breaking Bad David P. Pierson, 2013-11-21 *Breaking Bad: Critical Essays on the Contexts, Politics, Style, and Reception of the Television Series*, edited by David P. Pierson, explores the contexts, politics, and style of AMC's original series *Breaking Bad*. The book's first section locates and addresses the series from several contemporary social contexts, including neo-liberalism, its discourses and policies, the cultural obsession with the economy of time and its manipulation, and the epistemological principles and assumptions of Walter White's criminal alias Heisenberg. Section two investigates how the series characterizes and intersects with current cultural politics, such as male angst and the re-emergence of hegemonic masculinity, the complex portrayal of Latinos, and the depiction of physical and mental impairment and disability. The final section takes a close look at the series' distinctive visual, aural, and narrative stylistics. Under examination are *Breaking Bad*'s unique visual style whereby image dominates sound, the distinct role and use of beginning teaser segments to disorient and enlighten audiences, the representation of geographic space and place, the position of narrative songs to complicate viewer identification, and the integral part that emotions play as a form of dramatic action in the series.

Cinematic Storytelling Thomas Robotham, 2021-08-25 This book presents a new, story-based approach to cinematic coverage and storytelling in film and video. It breaks from the conventional idea that shots are the fundamental unit of filmmaking, instead exploring the specifics of determining coverage. Keyframes in patterns are introduced, delivering scripted material in a context-rich presentation that supports the storytelling. All the analysis, interpretation, and creative decision making is done first, with shots derived as the very last step. Scripted material is divided into six categories with associated patterns. Like cinematic building blocks, these can freely stack up and interconnect, supporting creativity and avoiding rigid formulas. This approach enables filmmakers to tap into the film language that audiences already understand and put it to practical use, helping the audience to feel the storytelling deeply. Dozens of film examples are provided throughout, plus conceptual and camera diagrams to contextualize the methods presented, and exercises are provided to reinforce concepts. Emphasis is placed on supporting performance and story meaning through a cinematic context. With all the concepts and decision-making options described and shown in examples, a scripted scene is analyzed and developed through an eight-step process, illustrated with storyboard, camera diagrams, and ultimately shot list descriptions. The book is ideal for filmmaking students interested in directing and cinematography, as well as aspiring and early-career filmmakers, cinematographers, and directors.

The Pedagogy of Adaptation Dennis Cutchins, Laurence Raw, James M. Welsh, 2010-02-23 *From All Quiet on the Western*

Front and Gone with the Wind to No Country for Old Men and Slumdog Millionaire, many of the most memorable films have been adapted from other sources. And while courses on film studies are taught throughout the world, *The Pedagogy of Adaptation* makes a strong case for treating adaptation studies as a separate discipline. What makes this book unique is its claim that adaptation is above all a creative process and not simply a slavish imitation or reproduction of an 'original.' This collection of essays focuses on numerous contexts to emphasize why adaptations matter to students of literature. It is the first such volume devoted exclusively to teaching adaptations from a practical, teacher-centered angle. Many of the essays show how 'adaptation' as a discipline can be used to prompt reflection on cultural, historical, and political differences. Written by specialists in a variety of fields, ranging from film, radio, theater, and even language studies, the book adopts a pluralistic view of adaptation, showing how its processes vary across different contexts and in different disciplines. Defining new horizons for the teaching of adaptation studies, these essays draw on such disparate sources as *Frankenstein*, *Moby Dick*, and *South Park*. This volume not only provides a resource-book of lesson plans but offers valuable pointers as to why teaching literature and film can help develop students' skills and improve their literacy.

Projecting Words, Writing Images John R. Leo, Marek Paryz, 2011-08-08 This compilation of essays by 20 scholars trained in comparative literatures, art history, critical theory, and American cultural studies further explores and expands the spirited and energetic field of visual cultural studies and its cognate or supplemental projects of "visual practices" and "visual literacy." Their topics and perspectives engage contemporary re-theorizations of "text," of "word" and "image," while their alignments, ruptures, slippages and aporias fall across a range of media practices and institutions. These include photography and exhibition, film, television, entertainment, journalism, poetry and literature as visual and spectacular performances, and graphic narratives, but also their discursive intersections with "race" and ethnicity, their conjugations of gender, their tense and constitutive relations within multiple public spheres and (post)modernities.

Cormac McCarthy's Last Outlaws Peter Josyph, 2025-07-07 This work is the most extensive examination to date of the Pulitzer Prize-winning novelist's collaboration with director Ridley Scott on realizing McCarthy's controversial screenplay, *The Counselor*, and it takes an equally close look at McCarthy's final masterwork, *The Passenger*. Having interpreted in music, painting, film, lectures, and three previous books the man he calls our Rhode Island Shakespeare, the author draws on a wide range of sources from theatre, cinema, philosophy, and literature for an unsparing critique of what he calls Late McCarthy, and of trends in recent Cormac McCarthy criticism.

The Coen Brothers Dan Jolin, 2024-10-10 Gangster movie, Western, film noir, rom com, screwball, musical, even the Biblical epic... There are few genres left untouched and untwisted by sibling visionaries Joel and Ethan Coen. Since 1984's *Blood Simple*, the inscrutable brothers have effortlessly forged their own cinematic path, avoiding prevailing trends while crafting bold, stylish and witty movies that feel fresh and distinctive despite being deeply rooted in their creators' filmic

passion and knowledge. This is a definitive guide to that path, bringing the reader through Joel and Ethan's 20 features (not counting the mezzanine) and exploring the themes, the tropes, the gags, the familiar faces - while also taking in all the Coen curios that litter this quirkily winding byway. From Texas to Minnesota, from Homer to Shakespeare, from Bluegrass to Busby Berkeley, from wrestling to bowling, from lost hats to severed toes, this book covers everything that one might reasonably consider (to use a word that would likely make Joel and Ethan wince) 'Coenesque'... And then some.

Beyond Media Borders, Volume 1 Lars Elleström, 2020-10-14 This open access book promotes the idea that all media types are multimodal and that comparing media types, through an intermedial lens, necessarily involves analysing these multimodal traits. The collection includes a series of interconnected articles that illustrate and clarify how the concepts developed in Elleström's influential article *The Modalities of Media: A Model for Understanding Intermedial Relations* (Palgrave Macmillan, 2010) can be used for methodical investigation and interpretation of media traits and media interrelations. The authors work with a wide range of old and new media types that are traditionally investigated through limited, media-specific concepts. The publication is a significant contribution to interdisciplinary research, advancing the frontiers of conceptual as well as practical understanding of media interrelations. This is the first of two volumes. It contains Elleström's revised article and six other contributions focusing especially on media integration: how media products and media types are combined and merged in various ways.

Cormac McCarthy and Performance Stacey Peebles, 2017-06-06 Cormac McCarthy is renowned as the author of popular and acclaimed novels such as *Blood Meridian*, *All the Pretty Horses*, and *The Road*. Throughout his career, however, McCarthy has also invested deeply in writing for film and theater, an engagement with other forms of storytelling that is often overlooked. He is the author of five screenplays and two plays, and he has been significantly involved with three of the seven film adaptations of his work. In this book, Stacey Peebles offers the first extensive overview of this relatively unknown aspect of McCarthy's writing life, including the ways in which other artists have interpreted his work for the stage and screen. Drawing on many primary sources in McCarthy's recently opened archive, as well as interviews, Peebles covers the 1977 televised film *The Gardener's Son*; McCarthy's unpublished screenplays from the 1980s that became the foundation for his *Border Trilogy* novels and *No Country for Old Men*; various successful and unsuccessful productions of his two plays; and all seven film adaptations of his work, including John Hillcoat's *The Road* (2009) and the Coen brothers' Oscar-winning *No Country for Old Men* (2007). Emerging from this narrative is the central importance of tragedy—the rich and varied portrayals of violence and suffering and the human responses to them—in all of McCarthy's work, but especially his writing for theater and film.

Karl Barth in Conversation W. Travis McMaken, David W. Congdon, 2014-02-18 Karl Barth was an eminently conversational theologian, and with the Internet revolution, we live today in an eminently conversational age. Being the

proceedings of the 2010 Karl Barth Blog Conference, Karl Barth in Conversation brings these two factors together in order to advance the dialogue about Barth's theology and extend the online conversation to new audiences. With conversation partners ranging from Wesley to Žižek, from Schleiermacher to Jenson, from Hauerwas to the Coen brothers, this volume opens up exciting new horizons for exploring Barth's immense contribution to church and world. The contributors, who represent a young new generation of academic theologians, bring a fresh perspective to a topic--the theology of Karl Barth--that often seems to have exhausted its range of possibilities. This book proves that there is still a great deal of uncharted territory in the field of Barth studies. Today, more than forty years since the Swiss theologian's death, the conversation is as lively as ever.

In Practice sidebars throughout connect conceptual, aesthetic and technical issues to their application in the real world. Some provide a brief analysis of a scene or technique from easily rentable films which illustrate how a specific technology or process is used to support a conceptual, narrative, or aesthetic choice. Others recount common production challenges encountered on real student and professional shoots which will inspire you to be innovative and resourceful when you are solving your own filmmaking challenges.
