The 20th Century Go-N Frank N. Magill,2014-03-05 Each volume of the Dictionary of World Biography contains 250 entries on the lives of the individuals who shaped their times and left their mark on world history. This is not a who's who. Instead, each entry provides an in-depth essay on the life and career of the individual concerned. Essays commence with a quick reference section that provides basic facts on the individual's life and achievements. The extended biography places the life and works of the individual within an historical context, and the summary at the end of each essay provides a synopsis of the individual's place in history. All entries conclude with a fully annotated bibliography.

Search for Identity Albert Richard Davis,1974 The contributors to this seminar on modern literature and the creative arts were invited to direct their attention to the general theme of the search for identity but to approach this theme from any direction they wished and to see the search and its object as an individual or collective quest. Thanks to the writers and academic critics, both Asian and non-Asian, the papers presented to a surprising degree revealed the self-consciousness of the problem of literature and the arts in modern Asia, of the clearly-felt need of writers and artists to establish an individual, cultural or national position. -- foreword, page ix.
