

White Water Rafting Melbourne Australia

PT Brinkman

Melbourne, Victoria & Tasmania Holly Smith, 2010-09-14 The author, a native Australian, covers everything you might want to know about Australia - guaranteed! The places to stay, from budget to luxury, rentals to B&Bs, the restaurants, from fast food to the highest quality, the beachwalks and bushwalks, the wildlife and how to see it, exploring the country by air, on water, by bike, and every other way. Following are a few excerpts from the guide: The gathering of landscapes within the compact state of Victoria seem as if a giant had taken different pieces from around the continent, squashed them together and shaken them up, and then tossed them to let them fall where they may. The awesome, wave-lashed coastal edges are among the state's classic sights, with crumpled pillars of orange rock stacked tall out in the water. Where the shores aren't rough, the beaches are silky and white, as soft and tame as a kitten, with cold but gentle waters. Behind this edge are thick patches of temperate rainforests leading up into drier locales, including inland deserts, an unmade bed of mountain foothills and folds, and smooth river marshes and plains. You'd never expect that much of the terrain here was once actually volcanic, resulting in wild peaks, bluffs, and valleys throughout the center. There's 227,600 sq km of land in the state, and the Great Dividing Range arches through the center of it, with major collections of peaks in the Dandenongs and Macedons. The highest summits are in the east, at 1,986-m (6,514-ft) Mt. Bogong and 1,922-m (6,304-ft) Mt. Feathertop, and snowfields are found throughout the northeastern Australian Alps from June to September. Hemming in the land are 1,800 km (1,116 mi) of coastlines along the Bass Strait and the Southern Ocean, with Melbourne and Geelong fronting the central cut inland to Port Phillip Bay. This is a cool state, akin to the Pacific Northwest or the lower New England states of the U.S., with warm summers but chilling, wet winters. Some regions do dip below freezing, namely the northeastern mountains, while the Gippsland highlands in the east and the western Otway Ranges see more rain than anywhere else. Skip a couple hours south or west and you'll hit the arid Mallee region, and the Little Desert and Big Desert national park areas. Farmlands fill in the gaps, where orchards and vineyards are filled with apples, grapes, oranges, and other citrus fruits. Main crops are grains and vegetables, the fields fronting huge dairy farms or sheep and cattle ranches. Tasmania is offshore from Victoria. The name Tasmania is one of the world's most intriguing, and it rightfully sounds such as one of the most fascinating places on earth. And, yes, it's a heck of a journey to reach this offshore Australian state - but once you're here, if you're adventurous, you won't want to leave. Indeed, the island state of Tasmania is ripe for adventure. A heart-shaped, mountainous landmass 298

km (185 mi) southeast of the main Australian continent, it's covered with forests, threaded with rivers, and edged by wild, rugged beaches and bays. Its wilderness comprises an international Heritage Site of its own, filled with some of the world's oldest and most unusual plants, animals that are found nowhere else on earth, rock formations that span every geological era, and among the longest underground tunnels ever found. The capital of Hobart, where almost half the island's residents live, is tucked into the southeastern edge, and the sleepy northern ferry town of Devonport brings in visitors from the mainland. No one ventures far, though, which leaves the majority of the island open to exploring and free of crowds, even at the loveliest of national wonders such as Tasman National Park in the southeast, Freycinet National Park in the east, and Franklin-Gordon Wild Rivers National Park in the west.

Sydney & Australia's New South Wales Holly Smith, 2011-04-15 Following is an excerpt from this extensive & highly detailed guide by a lifetime resident of Australia. The guide covers all the hotels, restaurants, sights to see and activities, from beachgoing to hiking, kayaking to exploring the Outback or the cultural attractions of Sydney. Flying into New South Wales, it's undeniable that Sydney's spectacular setting is simply one of the world's best: A melding of lushly green parklands, classic historic buildings, and polished modern architecture set back from the glistening water. Gliding above the city shows the spider's web of highways and bridges linking the sprawling mass of civilization, which extends more than 12 mi/20 km along the Port Jackson inlet. Some four million Australians live here, and 10 million more tourists flood into Sydney each year; little wonder, with attractions ranging from famous museums, gardens, and zoos to dozens of dazzling beaches. And the activities are endless: Bush hiking and bike tracks, harbor cruises and water excursions, and high-powered flights above the whole scene. In short, Sydney is the country's showpiece for holiday and adventure. The continent's most active port city, Sydney actually sits inland of the Pacific, around nine mi/15 km inland from the coast along the Port Jackson waterway, which itself is carved into numerous smaller islands and bays. Surrounding the harbor are great patches of pine and semi-tropical forests, which quickly lead up into the bumpy foothills of the Great Dividing Ranges. This is eucalyptus territory, where the arid environment of blue gums is colored by a heated haze given off from the leaves; hence the region's name OCo the Blue Mountains. Also, of the more than 70 national parks throughout New South Wales, more than a handful are settled right around Sydney itself OCo the coastal Royal National Park, the northern Wollemi National Park, and the western Blue Mountains National Park among them. With its diverse personalities, multicultural flavors, and sophisticated yet down-to-earth airs, Sydney offers something for every traveler. It's a place where history, culture, activities, and

adventure are blended into a well-run and engaging metropolis where locals take pride in their heritage and guests are welcomed like friends. Massive transport systems provide a choice of city-wide links that are clean, quick, and cheap; food runs from simple Australian to worldly gourmet, and endless accommodation options spread from ocean to mountains. With 224 million acres/80 million-plus hectares, the large state of New South Wales has a continually changing landscape which delves into some of Australia's best scenes. The classic, golden-sand beaches form a string along the east coast, getting more tropical the farther north you travel toward Queens land, or becoming more rocky and chilled the farther south you head toward Victoria. The mighty Murray River forms the southern border, stretching a watery band of blue along the northern edge of Victoria, and providing sustenance to some of both states' richest farms, grazing grounds, and wine regions. The Darling and Murrumbidgee also feed the dry western plains, and offer a string of charming settlements to explore along their edges. The Great Dividing Range runs parallel to the continent's edge, curving down all the way from the far north tip of Queensland through New South Wales and on down to Melbourne. Included within the peaks are the Blue Mountains just outside of Sydney, as well as the Snowy Mountains in the far south of the state. And the mountains are indeed a dividing factor in the country's atmosphere, not only in visual landscape from eastern beaches to western plains and deserts; they also form a border between the balmy ocean settings and the scorched western Outback. Fertile farmlands and orchards are tucked into the folds of the mountains, while the state's famous vineyards spread out through the glistening river valleys.
