**Husbands, Wives, and Concubines** Emlyn Eisenach, 2004-06-01 Emlyn Eisenach uses a wide range of sources, including the richly detailed and previously unexplored records of nearly two hundred marriage-related disputes from the bishop's court of Verona, to illuminate family and social relations in early modern northern Italy. Arguing against the common emphasis on the growth of law and government in this period, her study emphasizes the fluidity of the principles that governed marriage and its dissolution, and deepens our understanding of the patriarchal family and its complex relationship with gender and status during the sixteenth century. Peopled by characters from across the social spectrum of the city of Verona and its contado, Eisenach's study moves between stories about specific individuals—serving girls seeking honorable marriage through the unlikely route of concubinage, peasant men in search of independence from their fathers, and aristocratic wives seeking revenge against adulterous husbands—and broader analyses of social, economic, and geographical patterns of behavior. She shows how the Veronese at all social levels attempted to better their familial and personal fortunes by creatively molding wedding rituals to fit their particular circumstances, or engaging in the significant but until now little understood practices of concubinage, clandestine marriage, or informal marriage dissolution. Eisenach also evaluates the first half-century of religious reforms in Verona as the leading pre-Tridentine bishop Gian Matteo Giberti and his successors challenged common practices and understandings in sermons, treatises, confessionals, and court. Emphasizing the limitations of what the religious authorities could impose on the people, she explores how learned and popular notions of marriage, family, and gender shaped each other as they were put into action in the strategies of individual Veronese.

Handbook of Patristic Exegesis Charles Kannengiesser, 2022-11-28 Through this Handbook of Patristic Exegesis, the reader will obtain a balanced and cohesive picture of the Early Church. It gives an overall view of the reception, transmission, and interpretation of the Bible in the life and thought of the Church during the first five centuries of Christianity, the so-called patristic era. The handbook offers the context and presuppositions necessary for understanding the

development of the interpretative traditions of the Early Church, in its catechesis, its liturgy and as a foundation of its systems of theology. The handbook presents a comprehensive overview of the history of patristic exegesis. Apart from a general introduction to the major topics in this field, it contains essays by leading patristic scholars on the most important Church Fathers, such as Augustine, Irenaeus, Origen, Gregory of Nyssa, and others. The essays are supplemented by bibliographies of editions and studies on patristic exegesis published from 1945 until 1995. Together, these bibliographies form the only comprehensive bibliography presently available on this topic. The print edition is available as a set of two volumes (9789004098152).

*The Medicean Succession* Gregory Murry, 2014-03-10 Cosimo dei Medici stabilized ducal finances, secured his borders, doubled his territory, attracted scholars and artists to his court, academy, and universities, and dissipated fractious Florentine politics. These triumphs were far from a foregone conclusion, as Gregory Murry shows in this study of how Cosimo crafted his image as a sacral monarch.

**The Spirituality of Saint Augustine** Gabriel Quicke, 2022-10-18 Augustine has put an important mark on later Christian thinking. Moreover, he composed a lot of writings: more than eight hundred sermons, some three hundred letters, and a hundred works in which he unfolds his theological vision. This book presents some basic thoughts on the spirituality of this great church father. In different ways the author clarifies in which sense the spirituality of Augustine can be a breath of fresh air for our times. The conversion experience that Augustine went through ultimately became the experience of a growing trust in God who first loved us. Step by step, Augustine unfolded Christ in his many sermons and writings as a humble physician, mediator, and shepherd. Augustine developed a spirituality of togetherness: inner life is intrinsically linked to community life and apostolate. The spirituality of the Church as the Whole Christ is expressed in the loving care of the poor and vulnerable. His lived experience of the value of friendship and hospitality, the precious treasure of faith in Christ, the humble Physician, his concept of the Pilgrim-Church, and his vision of Mary, the dignity of the earth remain invaluable for the twenty-first century.

**Changing Townscapes in North Africa from Late Antiquity to the Arab Conquest** Anna Leone, 2007 This book examines the complex transition of North Africa from the Late Roman period to the Arab conquest, focusing on three provinces: Zeugitana, Byzacena and Tripolitana. In particular, it considers the continuity and transformation of towns, as a result of economic, political and social changes. The period sees the wide diffusion of Christianity, the imposition of Vandal rule and Arianism, the presence of a new Empire and the Arab/Muslim takeover. It is also a period of archaeological and material transition: physically towns changed and classical structures, in particular, decayed and were reused. The evidence considered here encompasses a wide range of material, including publications from 1800 (Italian and French colonial excavations) to modern times. These data form the basis for a detailed review of archaeological evidence in this geographical area and for the analysis of the processes of evolution that characterised North African cities--

**Le metamorfosi della città** Pierre Manent, 2014-05-16T00:00:00+02:00 Nel momento in cui l'Europa attraversa una crisi che appare al contempo politica e spirituale, Pierre Manent propone agli europei un illuminante percorso attraverso i momenti fondatori, i concetti orientativi e i più autorevoli interpreti della loro storia. Per riportare alla luce le ondate che accompagnano invisibilmente la turbolenta navigazione dell'uomo moderno, Manent esamina l'esperienza originaria della polis greca, il perdurante enigma delle trasformazioni di Roma e il rapporto tra le città degli uomini e la questione di Dio ravvivando imparzialmente il dialogo con Omero e Aristotele, Cicerone e Agostino, Machiavelli e Montesquieu, Montaigne e Rousseau. Per ritrovare i termini esatti del problema umano, il filosofo francese rinnova la discussione del nesso tra l'universale e la mediazione, la scienza e l'azione, l'uomo e il cittadino. Si tratta per Manent di considerare la dinamica occidentale e la situazione pre-sente alla luce della più completa comprensione del comune e del governo degli uomini. La successione e la dialettica tra le forme politiche (Città, Impero, Chiesa e Nazione) che questo libro ricostruisce delineano così una prospettiva in cui l'incessante movimento dell'umanità odierna è ricondotto all'interno della più ampia e adeguata questione della vera comunità universale, o delle fonti e dei criteri dell'operazione umana: le metamorfosi della città sono a ben vedere le esperienze in cui l'umanità ha pensato, governato e dunque realizzato se stessa, cercando la legge e la cornice della propria azione. Attraverso lo sguardo che Manent offre agli europei il mondo non si mostra più un «processo» autonomo, irresistibile e creatore di «valori» o di «immagini», bensì il luogo intelligibile del confronto tra possibilità politiche e versioni dell'universale che occorre ancora meditare e incarnare.
