Introduction to List of highest-grossing films Gilad James, PhD, The list of highest-grossing films is a compilation of movies that generated the most revenue at the box office worldwide. The list has been compiled and updated annually by various sources including the Internet Movie Database (IMDb), Box Office Mojo and Guinness World Records. The popularity and consumption of movies have consistently grown over the years, resulting in a surge of film productions globally. With the advent of technology, filmmakers have been able to create more sophisticated and aesthetically pleasing visual effects, making movies more immersive and appealing to audiences. Movie franchises such as Marvel Cinematic Universe (MCU), Star Wars, and James Bond are prominent in the list of highest-grossing films. The success of these franchises can be attributed to their ability to create a deep connection with the audience through the characters, storyline, and world-building. Their storytelling elements are also coherent and inter-connected, resulting in successful and critically acclaimed movies. In recent years, a shift towards a more diverse and inclusive representation in films has resulted in the success of movies such as Black Panther and Crazy Rich Asians. These films resonated with audiences globally, resulting in high box-office earnings and recognition for their contribution to the film industry.

Benedict Cumberbatch: Transition Completed Lynnette Porter, 2014-11-21 Star Trek: Into Darkness, The Fifth Estate, 12 Years a Slave, August: Osage County, The Hobbit: The Desolation of Smaug—these would be milestones in most actors' entire career. For Benedict Cumberbatch, roles in these films are merely a year's additions to his already-vast resume. 2013 proved to be the final step in Cumberbatch's transition from respected working actor to bona fide worldwide celebrity and recipient of BAFTA Los Angeles' Britannia Award for British Artist of the Year. Like its predecessor, Benedict Cumberbatch, In Transition (MX Publishing, 2013), Benedict Cumberbatch, Transition Completed: Films, Fame, Fans explores the nature of Cumberbatch's fame and fandom while analysing his most recent roles. This in-depth performance biography does more than critique the actor's radio, stage, film, and television performances—especially his star turn in the long-awaited yet controversial third series of Sherlock. It also analyses how and why the actor's work is so memorable in each role, a perspective unique to this performance biography. Cumberbatch's role in popular culture, as much as his acting in multiple media, is well worth such scrutiny to illustrate that Benedict Cumberbatch represents both the best of acting and of the power of celebrity.

Cultural Perspectives on Sweets in Children's Literature and Media Sabine Planka, Corina Löwe, 2025-04-25 Our language is full of 'sweet' terms to describe situations ('a bittersweet moment'), things ('popcorn brain'), behaviour ('to have a sweet tooth'), or even loved ones ('sweetie', 'sweetheart', 'honey') that are originally not linked to food. What seems to be common to almost all cultures, is reflected in the fact that we humans are born with a taste for sweets, and that sweets have shaped our cultures and our language. This has also been reflected in children's literature and media. This is the starting point for this invaluable collection of essays, which deals specifically with sweets and the spectrum of hedonistic and regulated indulgence in different cultures and media for children. The contributions analyse classics of children's literature, but also more recent texts and other media such as magazines, films, television programmes and computer games. Cultural

Perspectives on Sweets in Children's Literature and Media creates a kaleidoscope of the various functions of sweets and their significance for children's culture, thus providing an overview of the diversity of the subject.

The New Generation in Chinese Animation Shaopeng Chen, 2021-09-23 In 1995 Chinese animated filmmaking ceased to be a state-run enterprise and was plunged into the free market. Using key animated films as his case studies, Shaopeng Chen examines new generation Chinese animation in its aesthetic and industrial contexts. He argues that, unlike its predecessors, this new generation does not have a distinctive national identity, but represents an important stage of diversity and exploration in the history of Chinese animation. Chen identifies distinct characteristics of new generation filmmaking, including an orientation towards young audiences and the recurring figure of the immortal monkey-like Sun Wukong. He explores how films such as Lotus Lantern/Baolian Deng (1999) responded to competition from American imports such as The Lion King (1994), retaining Chinese iconography while at the same time adopting Hollywood aesthetics and techniques. Addressing the series Boonie Bears/Xiong Chumo (2014-5), Chen focuses on the films' adaptation from the original TV series, and how the films were promoted across generations and by means of both online and offline channels. Discussing the series Kuiba/Kui Ba (2011, 2013, 2014), Chen examines Vasoon Animation Studio's ambitious attempt to create the first Chinese-style high fantasy fictional universe, and considers why the first film was a critical success but a failure at the box-office. He also explores the relationship between Japanese anime and new generation Chinese animation. Finally, Chen considers how word-of-mouth social media engagement lay behind the success of Monkey King: Hero is Back (2015).
