Neurolaw Eugenio Picozza, 2016-09-27 This volume illustrates to the public, and legal experts, the basic principles of the field of neuroscience, that commonly goes under the name of Neurolaw. First, it illustrates the relationship between neuroscience, natural sciences and social sciences. Furthermore, it highlights numerous problems concerning the fundamental philosophical concepts used by Neurolaw and evaluates the validity of the method and the limits of a neuroscientific approach to the problems of law and justice. The volume explores the possibility of application of these concepts on the fundamentals of the general theory of law and legal dogmatics. It also examines the main problems of Neurolaw in relation to public, private, criminal and procedural law. In conclusion, the book follows a systematic method that makes it an thorough manual for the introduction to Neurolaw.

Neuroscience and Law Antonio D'Aloia, Maria Chiara Errigo, 2020-06-01 There have been extraordinary developments in the field of neuroscience in recent years, sparking a number of discussions within the legal field. This book studies the various interactions between neuroscience and the world of law, and explores how neuroscientific findings could affect some fundamental legal categories and how the law should be implemented in such cases. The book is divided into three main parts. Starting with a general overview of the convergence of neuroscience and law, the first part outlines the importance of their continuous interaction, the challenges that neuroscience poses for the concepts of free will and responsibility, and the peculiar characteristics of a "new" cognitive liberty. In turn, the second part addresses the phenomenon of cognitive and moral enhancement, as well as the uses of neurotechnology and their impacts on health, self-determination and the concept of being human. The third and last part investigates the use of neuroscientific findings in both criminal and civil cases, and seeks to determine whether they can provide valuable evidence and facilitate the assessment of personal responsibility, helping to resolve cases. The book is the result of an interdisciplinary dialogue involving jurists, philosophers, neuroscientists, forensic medicine specialists, and scholars in the humanities; further, it is intended for a broad readership interested in understanding the impacts of scientific and technological developments on people's lives and on our social systems.

From zero to hero Wanda Montanelli, 2023-12-13 In daily encounters on TV, press editorials and news reports, the only reason seeming to compel insiders is their circulation or audience. Everyone else turns a blind eye to it. Nobody cares about knowing that the higher the audience, the more links to Twitter there'll be or that the more likes on Facebook there'll be, the seeds of gratuitous violence are more effectively sown. This is called emulation or, in the psychopathology of communication, the "Werther effect". Our society is full of frustrated individuals who ascribe their own failings to the world around them and it may be the case that some marginalised people regard themselves as being rather low on the social scale and therefore choose to give themselves hero status, worthy of the newspaper front pages. Consequently, they may happen to take action by seizing a firearm in search of verification of them transforming their empty existence into stuff of legend, giving enough to take about for days, months and years to come. Such a breakthrough, from zero to hero! Translator: Rhys Llwyd

Cultural Expertise Livia Holden, 2020 Cultural expertise in the form of expert opinions formulated by social scientists appointed as experts in the legal process is not different from any other kind of expertise in court. In specialised fields of law, such as native land titles in America and in Australia, the appointment of social scientists as experts in court is a consolidated practice. This Special Issue focuses on the contemporary evolution and variation of cultural expertise as an emergent concept providing a conceptual umbrella for a variety of evolving practices, which all include use of the specialised knowledge of social sciences for the resolution of conflicts. It surveys the application of cultural expertise in the legal process with an unprecedented span of fields ranging from criminology and ethnopsychiatry to the recognition of the rights of autochthone minorities including linguistic expertise, and modern reformulation of cultural rights. In this Special Issue, the emphasis is on the development and change of culture-related expert witnessing over recent times, culture-related adjudication, and resolution of disputes, criminal litigation, and other kinds of court and out-of-court procedures. This Special Issue offers descriptions of judicial practices involving experts in local laws and customs and surveys of the most frequent fields of expert witnessing that are related with culture; interrogates who the experts are, their links with local communities, and also with the courts and the state power and politics; how cultural expert witnessing has been received by judges; how cultural expertise has developed across the sister disciplines of history and psychiatry; and eventually, it asks whether academic truth and legal truth are commensurable across time and space.

Dottor Disney e Mister Hyde Marta Senesi,Danila Pescina,Monica Calderaro,2017-12-20 Il libro, incredibilmente originale nel suo genere, evidenzia il lato criminologico e più oscuro, nonché psicopatologico, dei film classici di Walt Disney. Si parlerà di storie d'amore malate, di principesse psicologicamente instabili e di un Paese delle Meraviglie intriso di disturbi mentali. Un esempio? La Bella e la Bestia con l'umanizzazione perversa del proprio carnefice tipico della Sindrome di Stoccolma. In questo libro saranno considerate le prospettive più drammatiche e inquietanti dei capolavori Disney che hanno accompagnato l'infanzia di ogni bambino.

Responsabilità civile II edizione Paolo Cendon,2020-01-30 Il Trattato LA RESPONSABILITÀ CIVILE, suddiviso in tre tomi, offre il quadro completo, commentato e approfondito in materia di responsabilità, valutazione del danno e quantificazione del risarcimento, corredato da numerose fattispecie pratiche, che garantiscono un approccio di alto profilo, ma estremamente pratico. Ogni singolo argomento è corredato dai riferimenti normativi e giurisprudenziali più significativi, oltre che da una bibliografia essenziale per un eventuale approfondimento, mentre un ricco apparato di note consente di ricostruire i prevalenti orientamenti dottrinali. Affidata com'è a una clausola normativa di vasto respiro, sensibile a ogni cambiamento della realtà sociale e culturale, la responsabilità civile appare fra le materie più irrequiete del diritto privato. Tutto o quasi nel settore dell'illecito, per la delicatezza dei risvolti sistematici, per l'importanza degli incastri fra an e quantum, è destinato a mutare frequentemente. Ecco perché l'illustrazione dei nuovi orientamenti e lo sforzo di dar conto degli ultimi ritocchi delle Corti, nel loro insieme, è sempre di grande utilità per l'operatore del settore, specie ove si riesca a farlo in un'opera minuziosa, a tutto campo, come è questa seconda edizione del Trattato sulla responsabilità civile.

Vittime di crimini violenti Anna Maria Casale,Paolo De Pasquali,Maria Sabina Lembo,2014-09 L'ambito di indagine della presente opera riguarda la VITTIMOLOGIA CRIMINALE e, in particolare, le sole vittime di delitti "comuni" contro la persona aventi natura dolosa ed intenzionale. L'analisi delle problematiche è condotta sapientemente con modalità interdisciplinare, non solo sul piano giuridico (normativo e giurisprudenziale), ma anche da un punto di vista psichiatrico, psicologico, sociologico e vittimologico e si pone l'obiettivo di fornire anche preziosi spunti e direttrici per una possibile prevenzione e per una riduzione dei danni subiti dalle vittime di crimini violenti. Con il contributo di avvocati, psichiatri forensi, psicologi, psicoterapeuti, criminologi e sociologi si forniscono approfondimenti e dettagli su abuso sessuale intrafamiliare, violenza assistita, femminicidio, stalking, gaslighting, circonvenzione nelle sette, bullismo, criminal profiling e autopsia psicologica, persone scomparse. L'opera si divide in 4 parti:1) CONSIDERAZIONI INTERDISCIPLINARI SUL RUOLO E SULLA FIGURA DELLA VITTIMA SECONDO LE DIVERSE SCIENZE (nel cui ambito sono illustrate le teorie

vittimologiche e si ricostruisce la nozione di vittima nella vittimologia, nella vittimalistica - esaminando i danni primari e secondari a seguito della vittimizzazione primaria e secondaria - e nella normativa europea);2) VITTIME DI REATI: ASPETTI CRIMINOLOGICI, MEDICO-LEGALI, PSICHIATRICO-FORENSI, PSICOLOGICI E SOCIOLOGICI (al cui interno si trovano le sezioni sulla violenza fisica, sulla violenza psicologica, sulla violenza sessuale e gli abusi sui minori);3) ASPETTI GIURIDICI: CIVILI, PENALI E PROCESSUALI (nel cui ambito sono enucleate le possibili e discutibili modalità di risarcimento del danno nel processo penale o nel processo civile in particolare nei casi di stalking, violenza sessuale, maltrattamenti e violenza assistita, con tutte le difficoltà nel quantificare il danno psichico, morale, esistenziale).4) ASPETTI DI PREVENZIONE, AIUTO, TESTIMONIANZE (nel cui ambito sono evidenziate le conseguenze psicopatologiche del trauma, in particolare di quello infantile, nonché aspetti di prevenzione, esperienze di consultori e centri antiviolenza, counseling vittimologico, approccio strategico e gruppoanalitico alle vittime di violenza). Anna Maria Casale Psicologa e Psicoterapeuta, specialista in Sessuologia e Criminologia. Consulente Tecnico in ambito penale, civile e minorile. Già Giudice Onorario Tribunale di Sorveglianza di Napoli. Ha fondato gli Studi di Psicologia Clinica e Forense di Roma e Napoli. Ospite frequente alle principali trasmissioni televisive e radiofoniche italiane. Paolo De Pasquali Medico psichiatra, psicoterapeuta e criminologo. Professore a contratto di Psicopatologia forense presso l'Università di Firenze. Componente esperto della Commissione di Studi per le Scienze forensi del Foro di Cosenza e del Sottogruppo Tecnico Regionale per il superamento degli Ospedali Psichiatrici Giudiziari della Regione Calabria. maltrattamenti e stalking Alessia Sorgato, 2014-10-05 Maltrattamenti e atti persecutori, i due reati c.d. endo-famigliari di cui sempre più spesso ci si deve occupare, che si tratti di un processo penale, di un divorzio o una separazione o anche solo una mediazione familiare. La legge di ottobre 2013 ha modificato le norme sostanziali e processuali, le aggravanti, le misure cautelari e l'ammonimento: questo testo passa in rassegna la Novella e la integra alla disamina degli ultimi dieci anni di elaborazione giurisprudenziale e dottrina.

Il fenomeno sociale dello stalking: i suoi protagonisti Gessica De Cesare, Silvia Maria Turba, 2014-11-12 Lo stalking è un fenomeno di grande attualità e di grande interesse sociale, in quanto spesso si sentono dai mass media casi di omicidi a

sfondo passionale che celano casi di stalking. Tutti conoscono gli ultimi casi di stalking, come per esempio quello di Maria Antonia Murtari detta Antonella che è stata uccisa con ben quaranta coltellate da Luca Delfino il 10 Agosto 2007, oppure delle donne sfregiate dall'acido che hanno riportato seri danni fisici (ustioni al viso) e psicologici. Questo succede poiché non è semplice dare una definizione del fenomeno perché ancora oggi, dopo anni di casi gravi, non c'è una legislazione e solo da poco tempo si prendono in considerazione queste molestie assillanti e continuative nel tempo sotto il nome di stalking. Questa ebook non ha l'intento di colpevolizzare o smuovere le coscienze, ma presentare molto semplicemente ma in maniera assolutamente esaustiva il fenomeno dello stalking.
