**DJ Losen**

SOAP for Family Medicine Daniel C. Maldonado (M.D.), Cynthia Zúñiga, 2005 SOAP for Family Medicine features 90 clinical problems with each case presented in an easy to read 2-page layout. Each step presents information on how that case would likely be handled. Questions under each category teach the students important steps in clinical care. Blackwell's new SOAP series is a unique resource that also provides a step-by-step guide to learning how to properly document patient care. Covering the problems most commonly encountered on the wards, the text uses the familiar SOAP note format to record important clinical information and guide patient care. SOAP format puts the emphasis back on the patient's clinical problem not the diagnosis. This series is a practical learning tool for proper clinical care, improving communication between physicians, and accurate documentation. The books not only teach students what to do, but also help them understand why. Students will find these books a must have to keep in their white coat pockets for wards and clinics.

**SOAP for Family Medicine** Daniel Maldonado, Cynthia Zuniga, 2023-10-11 Offering step-by-step guidance on how to properly document patient care, this updated Second Edition presents 90 of the most common clinical problems encountered on the wards and clinics in an easy-to-read, two-page layout using the familiar SOAP note format. Emphasizing the patient's clinical problem, not the diagnosis, this pocket-sized quick reference teaches both clinical reasoning and documentation skills and is ideal for use by medical students, PAs, and NPs during the Family Medicine rotation. The Introduction offers templates, tips, and guidelines for writing SOAP notes. A portable, pocket-sized format with at-a-glance, two-page layouts makes practical information quickly accessible. The SOAP approach helps students figure out where to start, while improving communication between physicians and ensuring accurate documentation.

*PIMP Protector* Quinn Holzheimer, 2007-01-01 This pocket book is a quick reference to common diseases encountered during clerkship rotations in all specialties. For each condition, the book outlines the pertinent positives and negatives in the history and physical examination, so the student will know what to ask, what to look for on the patient, and what to order. The student will be prepared to present the case effectively and field the resident's or attending's most likely questions. Evidence-based literature citations are included to prepare students for evidence-based practice questions. Pearls sections note the most frequently asked p.i.m.p. questions. Numerous tables, photographs, and x-rays are included.

*In a Page* Ronald Williams, 2007-07-01 Featuring a uniquely visual two-page-spread design that is great for rapid reference or review, *In A Page Ambulatory Medicine* provides a quick overview of the diseases, symptoms, and injuries most commonly seen in outpatient settings. Each disease is presented on a two-page spread in boxes with consistent headings: introduction; etiology, epidemiology, and risk factors; patient presentation; differential diagnosis; diagnostic evaluation; treatment and management; and prognosis and complications. Bulleted key points appear under each heading. This pocket-sized book is ideal for interns, medical students in clerkships, or for USMLE review. It will also appeal to physician assistant and nurse practitioner students.

**The Medicine Wheel for Step Parents** Mary Jane Grange R.N., 2012-02-14 With *The Medicine Wheel for Stepparents*, I hope to give some understanding and relief to blended families. Stepfamilies have common threads of dysfunction. There are many issues that form these common threads. These issues occur between stepparent and stepchild and biological parent, biological child, and extended family in blended families. I have listed the issues and have offered affordable solutions that are within our grasp. These common threads reappear in every aspect of family life, including financial matters such as your child's Social Security checks, child-support checks, medical bills, and the parents will. These issues occur when the power structure changes in a home after a divorce or death in a family. Everyone is left in a gigantic power struggle, which retires parents prematurely. Stepparents and stepchildren feel that they must protect their territory, ego, and family with secrets, isolation, intimidation, manipulation, and stonewalling behavior. When stepfamilies are choking, parents, stepparents, and stepchildren do not have to be severely depressed, take multiple medications for depression and anxiety, get a divorce, or attempt suicide for relief. Biological parents and stepparents do not have to be retired prematurely. There are better ways to keep everyone functioning in blended families. My book will not take away all the opposition you experience in blended families. We learn by overcoming opposition, not creating opposition. This book helps you analyze and carry the opposition to

your efforts for your blended family.

*Blueprints Pocket Gastroenterology* Shilpa Grover,2007 Blueprints Pocket Gastroenterology is designed as a quick read for students on rotation and others who want to know more about the specialty. Pocket-sized and practical, the text reviews the clinical topics a student would most likely encounter during an elective rotation and also provides the basic knowledge needed before USMLE Steps 2 and 3 in an organized, easy-to-read outline format. The book also features appendices on opportunities in gastroenterology, a question and answer review, and suggested additional reading. Blueprints Pocket Gastroenterology is perfect for medical students. Physician assistants, nurse practitioners, and related health professionals will also find the book valuable.

Advances in Medical Education A.J.J.A. Scherpbier,Cees P.M. van der Vleuten,J.J. Rethans,A.F.W. van der Steeg,2012-12-06 About 550 registrants from 51 different countries attended the Seventh Ottawa Conference on Medical Education and Assessment in Maastricht. We received 525 abstracts for the conference, divided in thematic poster sessions and platform presentations. Organising the conference was an honour and we tried to meet the high standards of a friendly and relaxed atmosphere which has characterized previous Ottawa conferences. During and after the conference about 250 papers were submitted for publication in the conference proceedings, leaving us little time for a post-conference depression. Despite the large number of papers, the editors have attempted to review and edit the papers as care fully as possible. Occasionally, however, correspondence exceeded reasonable deadlines, preventing careful editing of a small number of the papers. Although we felt that our editorial task was not quite finished, we nevertheless decided to include these papers. We thank the many authors for their enthusiastic and prompt response to - occasionally tedious - editorial suggestions and requests. We are sure that this collective effort has resulted in a book that will make an important contribution to the field of medical education. The editors want to thank Jocelyn Flippo-Berger whose expertise with desk top publishing and perseverance was a great help.
